SUBMARINE BOAT SINKS

LUTIN GOES TO THE BOTTOM WITH FOURTEEN MEN.

MEETS SAME FATE AS FARFADET

French Vessel Leaves Port of Biserta, Tunis, for Plunging Experiments and Disappears With All on Board. Heavy Seas Delay Salvage Work.

Biserta, Tunis, Oct. 17.—It now appears almost certain that the crew of the French submarine Lutin has suffered a fate similar to that which overtook the crew of the submarine Farfadet here last year. The crew of the Lutin numbered fourteen men, under command of Lieutenant Phoen.

The Lutin, while exercising off the jetties, disappeared from the view of the accompanying tug.

Admiral Bellue, commander of the Tunis naval division, who went out on board a tug, returned and said that owing to the heavy seas it was impossible to continue salvage operations. The tugs and torpedo boats, however, will remain near the place where the Lutin made her final plunge. One of these boats reports that its drag encountered resistance, as though a vessel were lying at the bottom. The salvage steamers, belonging to this port, who are at present absent to assist in raising a French schooner wrecked on the coast, will return and participate in the work.

The British consul general here proposed to the French resident general to telegraph to the British admiralty at Malta for salvage assistance. This offer was accepted and powerful salvage apparatus will at once be sent to the scene of the catastrophe.

RUSSIA PREPARING FOR STRIKE

Rush Orders Issued for Military Guards on All Trains.

St. Petersburg, Oct. 17.—Rush orders were issued by the ministries of the interior and ways and communications for re-establishing military guards on all trains, re-equipping punitive trains and constructing special guard houses at the entrances to all stations. The order requires that the preparations be completed in a fortnight that all may be in readiness to prevent outbreaks during the strike that is scheduled for Oct. 30, the anniversary of the imperial manifesto granting a measure of self government to the people.

The removal of General Solubog of the Baltic provinces has practically been decided upon on account of his failure to restore tranquillity, and complaints by the German government that there has been a recurrence of outrages on German subjects there.

A special session of the council of ministers has been called to deal with the university crisis in Moscow, in which the energetic prefect, M. Reinhot, in addition to forbidding meetings in and patrolling of the campus, rejected a petition of the university authorities to allow Jewish students to reside in Moscow, thus driving 150 of them out of the city.

CUBANS BACK AT WORK

Agricultural Operations Are Being Gradually Resumed.

Havana, Oct. 17.—Reports received here from all over the island show that agricultural operations are being gradually resumed. There are no further signs of discontent, with the exception of complaints that some of the moderate officials ought to be removed. The strongly moderate partisans continue to be dissatisfied and assert that the peace commissioners while here should have consulted more with the conservative business interests. A great majority of these men believe that in any event American intervention was bound to come. While there was some apprehension in regard to yellow fever, the situation is not regarded as especially dangerous. The number of cases under treatment in Havana is ten. There is one case at Cruces and two at Cienfuegos. Dr. Carlos Finlay, chief of the department of health, said that while the fever in Havana was epidemic, the situation was not one to cause serious alarm, and there was every indication that the spread of the disease could be prevented. The wide dispersion of cases is the most serious feature. There have been no American cases. Major Keane of the medical department said that the work of mosquito extermination was progressing and that general sanitary work was being undertaken under a larger scale than before.

Many Executions in Russia.

Rev. James Murphy is in the Carroll hospital this week, where he underwent a very successful operation. Mike Kral, wife and daughter Anna departed today for Grand Junction, Colo., where they will remain for a year on account of the daughter's health.

The moving to Sedalia, Mo., of Thos. Clement and wife and Mrs. Lon Mahan and family takes away some of Vail's earliest settlers and valuable citizens. Mr. Clement and wife settled here in 1878 and for most of the time since have been residents of this vicinity. They left Friday for Sedalia where they have purchased a house, and their removal will be regretted by many. We wish them a pleasant residence and many friends in their new home.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. P. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c. Take Hall's family Pills for constipation.

REVIEW'S MARKET LETTER.

Furnished by Clay Robinson Co, the Well Known Omaha Firm.

South Omaha, Oct. 16th, 1906.

The run of cattle this week has been fairly liberal. A few cars of corn-feds were offered and the trade in anything of this sort was strong and active with a higher tendency.

Tops reached \$6.40 for some well fattened stock. The cow market has also been strong and active for several days now, outside of the extreme close last week. Prices are generally 10 to 15 cents higher than ten days ago.

Good to choice grass cows and heifers are selling at \$3.40 to \$3.90; fair to good \$2.65 to \$3.15; canners and cutters \$1.75 to \$2.50. The stocker and feeder trade has also been in good shape. While the trade has shown considerable strength prices are not materially higher than a week ago. Good to choice heavy feeders are quotable at \$4.25 up; fair to good \$3.85 to \$4.25; good to choice light and medium weights \$3.85 to \$4.15; fair to good \$3.40 to \$3.85.

The hog market today suffered the heaviest decline for sometime past. The market was generally 5 to 10 cents lower, tops at \$6.37-1-2 with the bulk selling at \$6.20 and \$6.30.

Clay, Robinson & Co.
