C. H. Molter has served six years as supervisor, he is a candidate for a three years term and if elected will serve nine years. He has had whatever honor there may be attached to the office, he could well have afforded to retire gracefully. What has he done that he should be kept nine years as supervisor? Why not give Thos. Carey a chance? There is no reason why Molter should "hog it" all. Why did he not step down and out for some other good democrat? There were good men in Hays and East Boyer and Nishnabotny who would have accepted the nomination. Why should Molter forever stand in the way?

Judge Conner made a most successful campaign tour last week. He had splendid meetings and the newspaper reports of his good work are most flattering. At Brandon in Buchanan county near his old home, the old settlers for twenty miles around came to greet him and he was given a great ovation. Judge Conner, reports the "Reservation" as in splendid shape for Cummins and the entire ticket. The republicans down there are both too loyal and too long headed, either to go back on their ticket or to lose their representation in republican conventions. At Burlington, Judge Conner had a particularly fine meeting. He is making one of the strongest speeches of the republican campaign this year.
