BORN WITHOUT TEAR DUCTS

Artificial Tear Ducts Formed by Dr. Weber.

This is a portrait of DANIEL O'BRIEN, a bright boy of Stuart, Ia. Read what his father says:

STUART, IOWA, Nov. 1st. From the time my son Daniel was born his eyes watered, continually flowing over his cheeks and blurring his sight. When out of doors in the winter, his cheeks would nearly freeze and it was almost impossible for him to attend school or do anything that required much use of the eyes. I wanted to have his eyes cured long before I did, but think the eye to delicate an organ to trust everybody with treating it. Dr. Weber had so successfully treated so many in my neighborhood, that I decided to have him treat Daniel's eyes. Dr. Weber examined them and found he had been born with out tear ducts and that he would have to form artificial ones. This looked almost impossible to me, but assuring me that he would not injure the sight, I had the Dr. proceed. So successful was he that the trouble is now entirely cured and the tears flow into the new ducts as well as any natural ones and his eyes do not water even in the coldest weather.

Yours respectfully, JOHN O'BRIEN.
