

THE KIRON REVIEW.

On Monday March 25 the annual town election will be held. The officers to be chosen are mayor, clerk, treasurer, assessor and two councilmen. We understand that our present capable mayor will not accept another term of this important position which he has most judiciously and creditably filled. Whom to succeed him is puzzling our citizens as some of those who have been thought of will not accept, but we trust that a good and capable man may be found to fill this important and responsible office. For Clerk our present one, who has served since the town was incorporated. Wm. Sthran will have no opposition but will surely be continued in this office at the hands of our voters as will C. C. Walters our present Treasurer. For assessor Harry Johnson, the present fact taker has given good satisfaction in his past work and we are safe in stating that should he be re-elected he will continue to fill his office with accuracy and best of satisfaction. For the offices of councilmen to succeed P. A. Peterson and R. L. Anderson, the sentiment is to continue them in office should they accept.

E. E. Clauson is quite energetic for Denison—is a portion of an item which appeared in the last week's sheet published at Kiron. The object of the author of the statement is plainly to be seen, not that the item should be intended for a news item as much as a shot at the writer and make it appear to the business men and citizens of this town that the writer was working against the interests of the town. The item is false to the core and the author of the same undertakes to create a camel out of what really was a gnat. Kiron's interests are our interests and that is one reason why we have annexed the labor to our other work—to let the rest of the county know that Kiron still exists, and that its enterprising, good and thrifty citizens are living, visiting, buying and selling, marrying and giving birth, and after a good and useful life passing away to their rest. We hate to have to use the pen this way, but for the sake of justice and truth we are forced to. If occasion in the future is given us, we shall pull our gloves and make the fur fly off all false statements and insinuations that may be slung at us.
