VOLUME 43

DENISON, IOWA, WEDNESDAY, MAY 1, 1907.

No. 18

## DENISONTOPPLAYBALL

Association Formed at City Hall Monday Evening.

### REX WRIGHT IS MANAGER.

No Sunday Games and an All Denison Team. Faul Will Pitch.

Denison will play ball this season, to, providing sufficient funds can be raised to guarantee the initial expense. This was decided at a meeting of base ball fans held at the city hall on Monday evening.

G. L. Caswell presided at the meeting and was elected President of the association. W. C. Rollins was made Secretary and P. J. Klinker Treasurer. For manager Alfred Wright was the unanimous choice of the enthusiasts present. The executive committee consisting of the above named officers, was directed to make a canvass for funds. It is estimated that \$350 will be the least amount necessary as a fund on which to begin operations and to fall back on in case of necessity.

Suitable grounds must be selected, fenced and seated and uniforms provided for the team. Manager Wright informs us that there will be no Sunday games played in Denison and that it is the purpose to use only Denison players. The selection of Alfred Wright as manager assures the people of good clean sport and plenty of it.

#### Games at Six Thirty

It is proposed that during the summer the games shall be called at 6:30. This is the most pleasant part of the day, the games can easily be played before dark, and as the stores will be closed all who wish can attend.

Denison has the material for a fine ball team and all that is needed is enthusiastic backing and enough team spirit to make the boys keep in steady practice.

#### Probable Make up of Team

"Iut" Faul will pitch there is no question about that. He has been offered a salary both by Jefferson and Vail but he prefers to stick to business at the old home town. He is a dandy and there will be no better pitcher in western Iowa.

## SCHOOL EXHIBIT WAS FINE.

Progress of Schools Splendidly Illustrated by Work Shown.

The annual exhibit of the work of our city schools was held last Friday at the High School building. The exhibits of class work were attractively displayed in the assembly room, while the work of the manual training department was shown in the work room in the basement. The attendance was not so large this year as last although during the evening hours the teachers were kept busy until long after ten o'clock displaying to fond parents the work of their infant phenomena. The Review artist has caught something of the spirit of the occasion in the cartoon published in this issue.

The class work of the grades and of the high schools was particularly fine. We were surprised at the scope of the essays and reviews shown as the work of the high school and at the genuine ability displayed. Through-out, the work showed great carefulness, neatness and thoroughness. As usual the work of the "kindergarten" attracted great attention and the toy house presented by Miss Stoner's room and the barn yard scene presented by the little folks under Miss Bond were subjects of enthusiastic approval. The manual training department was as usual the most entertaining. The work done here is simply marvellous and not only are some excellent mechanics being developed, who are learning things which will be of vast use to them in life, but all the pupils are learning to use their hands and heads at the same time. The exhibit was in every way a worthy one. We believe it is an opportune time to congratulate Prof. E. W. Fellows on the work he has done in the Denison schools. His management has been prudent and judicious. He has used excellent judgment. He has maintained the "esprit de corps" established by Prof. Savage, and not only have our schools not retrograded but they have made positive advance along many lines. We have, to a certain extent, reserved judgment on Prof. Fellows' work until such time as we were better able to observe results. We can at this time give him our unqualified commendation and we are glad to express our appreciation of what he is doing for Denison and its schools.

## DEATH OF A PIONEER

Andreas F. Kunz, Denison's Most widely Traveled Man.

### DIES AT DAUGHTER'S HOME

Had Circumnavigated the Globe Three Times. Funeral Services Today at German M. E. Church.

On Sunday just at mid-night occurred the death of Andreas F. Kunz, a well-known and much beloved resident of Denison and a man who was undoubtedly the most widely travelled of any citizen Denison has ever had. For many years before coming to this country he had followed the trade of ship carpenter, both in the Danish navy and on merchantmen. In this capacity he three times circumnavigated the globe and had been in nearly every land. He was a quiet, unobtrusive man and few aside from his intimate acquaintances knew that he was the most travelled man in Denison. He was a great reader, a kindly, honest man, a devout Christian and a deep student of the Bible, a good father, a loving husband and an up-right citizen.

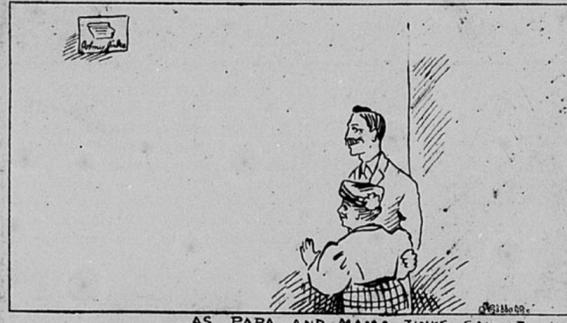

Funeral services will take place at the German Methodist church this afternoon at 2:30 o'clock, Rev. G. E. Kienle officiating.

The deceased was born in Apenrade, Schleswig-Holstein on August 31st, 1828. On Nov. 2, 1855 he was married Miss Auguste Lorenzen and they celebrated their golden wedding at the home of their daughter Mrs. Von Dohlen but a year and a half ago. Mr. Kunz learned the trade of builder and carpenter and entered the Danish navy in that capacity. He was with his ship during several engagements at sea and afterward was employed on various merchantmen. He was a careful observer and his travels gave him a wide fund of information. He came to America in 1881 settling in Denison and following his trade until the infirmities of age forbade.

He was the father of eight children, five of whom, four daughters and one son, survive him. They are Mrs. W. Schiernbeck of Davenport, Mrs. William Von Dohlen, Mrs. Bertram and Mrs. John Schnoor of Denison and Andreas Kunz of Granite, Oklahoma.

THE SCHOOL EXHIBIT

AS PAPA AND MAMA JINKS SAW IT.

## DENISON IN ARGENTINE

Work of Our Schools Will Go to Buenos Ayres.

### FOR PERMANENT EXHIBIT

Special Request Comes from South America for Exhibit of Work of the Denison Schools.

Prof. E. W. Fellows received this week, a most courteous request from Senor Ernesto Nelson, representing the educational interests of the Argentine Republic, for a selection of the work of the Denison schools, to form a part of a permanent exhibit to be installed at Buenos Ayres. The request is made for work of the Kindergarten and the Grades especially, and is to include not only the regular work but the work of the manual training department. Prof. Fellows will comply with the request and he can do so the more easily as the exhibit of last week has placed all the best work of the schools at his disposal. If it is not too large we would suggest that the play house exhibited by the pupils of Miss Stoner's kindergarten should be sent.

A portion of Senor Nelson's letter which was most kindly shown us by Prof. Fellows, is worthy of note as showing the new feeling toward America and the desire on the part of Argentine, the most advanced of the South American republics, for a better understanding with United States. Senor Nelson says:

After the visit of Secretary of State Hon. Elihu Root, there is a growing feeling toward a newer and broader Pan-Americanism. We of Argentine realize more than ever the necessity of following your steps in the way of progress. Up to now, on account of the similarity of production between the two countries, we have entertained no commercial relations with the United States. Argentine's five hundred million dollar grade is done with Europe, and therefore Argentine life is a good deal influenced by European ideas and customs. This is harmful to our republic institutions.

Fortunately our public school system was copied after the American when our D. F. Samienta, Horace (Continued on page 6)

To the aged and grief-stricken widow and to the sorrowing children we extend sincere sympathy.

#### MISS BARBER SURPRISED.

The Latin students of the Senior class of the High School, quietly dropped in at Miss Barber's last Wednesday night and gave her a royal surprise party. They presented her with a beautiful souvenir spoon, as a token of their esteem; for Miss Barber has been with them during their four years at High School. The evening was spent in singing, playing charade, and games of various sorts. Delicious two course refreshments, which the guests had not failed to bring, were served. Those present were Miss Barber, Mrs. Barber, Birdie Berg, Mable Horton, Allie Morris, Ethel Hunter, Grace Schlumberger, James Collins and George Seemann.

Jerry O'Connor made a shipment of stock at Chicago last week. He received excellent prices.

Miss Estelle Faus of McCook, Neb. is the guest of Miss Edith Staley this week.

Miss Margaret Champion of the Balle-Brodersen store is expecting to go to Dunlap the last of the week.

John D. Sievers has sold his fine farm of 406 acres near Arion to John Houlihan of Charter Oak. The consideration was \$70 an acre. The farm is finely improved and was a bargain.

Mr. Peter Miller, one of the well known Germans who is sheep ranching, returned to Cleveland, Montana on Sunday. He is having good success. Mr. Miller has the Review to keep track of the Crawford county happenings.

Theo. Wendt who works for Ben Smith was landed in the county jail yesterday after a hard tussle with the officers. He was out on parole but could not keep away from the red liquor and he will now be given plenty of time to repent.

# Geo. Menagh & Co.

Broadway and Main Street Denison, Iowa
