

# City Clothes for Country People.

Each year city and country grow closer together. Telephones, rural delivery, increased rail facilities have done it. In clothing also, there is no good reason why the farmer should not be as well dressed as his city cousin. The improvement in the art of clothing making has kept pace with other things. We are now able to offer you

## FINE, STYLISH, WELL MADE, UP-TO-DATE CLOTHING.

At prices within the reach of all. They are exactly the same in cut, style, weave and make as those worn in Chicago and New York.

A Visit to our Store will convince you.....

# Denison, Iowa. Huettmann Bros THE OLD "HUB" CORNER.

A Visit to our Store will convince you.....

### Jackson

Geo. Weed went on a trip to Kansas to see the country and will tell us his opinion of it when he gets back again.

Herb Cochran is laid up with a bunch of boils and will not be able to work for a few weeks.

A good crowd went to Vail last Sunday to take in the ball game and have a good time.

Mr. Fertig is very sick and not expected to live.

Henry Maynard has finished building a new barn on the old John Stewart place.

Henry Wolemburg's baby died last Thursday, May 23.

Geo. Gunn fell from a ladder and received a few bruises which laid him up for a few days.

Mr. Mann residing with his daughter Mr. Poline was knocked down by some hogs he was feeding, breaking a few of his ribs. The old gentleman is 80 years of age and it goes hard with him.

The barn of Mr. Poone living near Carnation was struck by lightning and burned to the ground last Thursday.

During the bad storm of last Thursday night while the lightning was making a great show of itself, it banged away at the elevator of the Nye Snyder Fowler Co. at Herring and knocked a few shingles off the southeast corner of the roof.

I am sorry to see Mr. Harding leave the good old town of Denison. Hope he will have good luck. He is an old time friend of mine. I suppose he will have a good time and come back a full fledged farmer.

Henry Schluter is passing around the "stogies" all on account of a fine baby which came to his house one day last week and Henry took him in.

### Goodrich

Lovice Morris spent Sunday at the home of Mrs. Belle Nixon visiting.

A. D. Winey and wife visited at his sister's home Sunday.

Mrs. Wilkinson drove to Deloit to visit her mother Sunday.

S. D. Newton and wife Sundayed with his father.

Rev. Bruce visited in our midst this week.

Hannibal Fink was up to Deloit Monday after a load of flour.

Broder Boysen and son Henry were Deloit callers Saturday.

Hannibal Fink shipped cattle Saturday.

### Charter Oak

Our flourishing town is looking forward to the building this season of two large structures. One of these is a handsome modern Lutheran church and the other a fine hardware store and implement warehouse, the latter to be built by Thomsen & Co.

Our mill is starting out in good shape under the management of Mr. Rawlins. He knows his business and his flour is all right. The mill is in luck to have the help of H. N. Freese who is popular with the German customers.

The Memorial sermon was given by Rev. Robbins at the M. E. church. He is himself an old soldier and knew from experience the sufferings of the Union soldiers.

Mr. Kemp the hardware man has been lonesome for some days on account of his wife going up to visit the family of his son Oren. There is a new grand daughter however and Mrs. Kemp was bound to see it.

Mrs. Herman Riedesel and babe are visiting at Anthon.

Mr. Wilson of Omaha a son-in-law of A. P. Knight is here.

Rev. Robbins will deliver the Memorial address at Ute.

At the McWilliams drug store you can buy some fine postal card views of the Ricketts fire.

President Van Ness of the Denison Normal gave our graduates a great address.

### East Boyer.

Fred Landorf, Jr., who has been working in Denison for sometime, returned to his home Saturday.

Every body seems to be thankful for the fine rain we are having at present.

Mrs G. F. North entertained her sister Mrs. Chas. Tucker of Denison one day last week.

The lightning struck Bradley Lee's barn on Wednesday evening of last week, but did not do much damage, however, the horses being in the west side of the barn while the lightning struck on the east side. Mr. Lee says the barn did not catch fire and they think it fortunate that it was not any worse.

Edith Flodine who has been staying at Denison doing some sewing for Mrs. Colman is at home for the present.

### Hays.

Nellie, the three year old daughter of Mr. and Mrs. Robert Hawley passed to her home above Tuesday, May 21, 1907. The little one had been suffering for some time from diphtheria. Everything possible was done to save that precious life, but in vain. God thought best to take her home and she is now numbered with the angels. The funeral services were held Thursday. Mr. and Mrs. Hawley have the sincere sympathy of their friends in this, their sad hour of bereavement.

Mrs. Otto Kruse who has been suffering from an attack of the grip is slowly convalescing.

John Schelldorf and wife entertained a number of their friends last Sunday in honor of Mr. Schelldorf's birthday.

There are only two more weeks of school at the Center. The annual picnic will not be given this spring.

Wm. Pruter is having a small addition built to his home and a furnace has also been put in.

### Schleswig

Caroline Hollander returned from Denison Friday, to visit with her parents for a few days.

Mrs. Jessie Bender and son left Saturday for Ida Grove, where she will remain during the summer.

Mrs. T. P. Hollander near Schleswig, celebrated her birthday Wednesday evening, a large crowd was present and enjoyed a good time.

Mrs. Will Hummer of Soldier was in Schleswig, last week visiting her parents and friends.

Leslie Areman is improving after his brief illness.

Mrs. F. J. Branaka is greatly improved after her late illness. Her many friends hope to see her about again.

Mrs. Alexander of Sac City is visiting her sister Mrs. Wells.

Minnie Stegeman went to Ricketts Wednesday.

Children's Day celebration will be held in Schleswig June 15th. About \$125 was subscribed for this event, which is sufficient for a first-class celebration. There will be band music all afternoon and various sports such as shooting, racing, crock breaking, dancing etc. Everything will be free for the children.

John Bendixsen and sisters Ella and Minnie went to Wall Lake on Saturday to visit a few days with friends.

Herman Puck went Saturday to Holstein, where he and his wife will make their future home. All wish them happiness and prosperity.

Herman Jochims left Saturday with cattle for Chicago.

K. Frederikson and T. P. Hollander accompanied cattle to Chicago Saturday.

B. S. Anderson and Hy. Krohnke went to Ute Thursday.

Henry Naeve and John Moeller returned from Chicago yesterday. The annual commencement pro-

gram of the Schleswig High School, will be held at the opera house Tuesday evening June 4th. Everybody welcome.

Henry Moeller of Denison was in Schleswig on business Thursday.

John Kruger returned from Chicago Wednesday after visiting with relatives.

Chas. Fred and Will Reinking went to Aberdeen, S. D., last Tuesday.

H. E. Buck, the drayman went to his old home in the eastern part of the state Wednesday.

J. J. Ladenburger went to the eastern part of the state Saturday, on important business.

Cures Colds, Croup and Whooping Cough.

### America's Famous Foreign Guests.

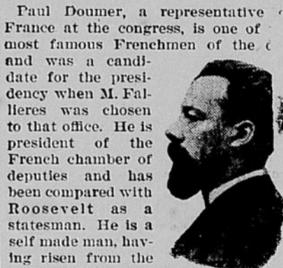

THE national arbitration and peace congress in New York and the dedication of the Carnegie institute in Pittsburgh occasioned the visit to the United States at this time of a large number of distinguished foreigners. Many of them undertook the journey to this country on the invitation of Andrew Carnegie, who was very generous in making provision for his guests, paying all their expenses across the ocean and their railway and hotel bills while in Pittsburgh and during the sessions of the peace congress.

Among the best known of these guests is Sir Robert S. Ball, LL. D., F. R. S., who is Lowndean professor of astronomy and geometry at Cambridge and famous as lecturer and author. He has written many works on scientific subjects and has done much to popularize the study of astronomy. He was born in Dublin, Ireland, in 1840 and is a son of Robert Ball, who was in his time well known as a naturalist. Sir Robert is a graduate of Trinity college, Dublin. He has been director of the Cambridge observatory since 1892 and was knighted for his services to science in 1886. He has figured out that radium has proved the earth to be about 800,000,000 years old. As for communicating with Mars, the astronomer is not very hopeful of accomplishing anything with present facilities. He had a flag on the top of Ireland to wave, he says, it would appear to the Martians as a blue speck. Sir Robert Cranston, another representative of Great Britain at the congress, was formerly lord provost of Edinburgh. He is sixty-three years of age and a native of Edinburgh and married a daughter of James S. Gilbert of the same city. He was created a knight in 1872, is fellow of the Educational Institute of Scotland and of the Royal Society of Arts. He is an impractical looking man in ordinary street dress, but attired as colonel commandant of the Queen's Rifle Volunteer Brigade (the Royal Scots), makes a striking figure.

Sir William Henry Preece, K. C. B., is another "F. R. S." and his reputation, too, has been won along scientific lines. He was one of the pioneers in the investigation of wireless telegraphy. He was conducting experiments in telegraphing without wires or cables from ten to a dozen years ago. He was consulting engineer to the general postoffice at the time and some years before Marconi or De Forest had been heard of was told that an operator in the exchange room of a telephone company in London had succeeded in reading some telegraph messages that were being sent to Bradford from the general postoffice through a wire buried under Gray's Inn road. The telephone wire ran along the house tops eighty feet away from the telegraph wire, and there was no connection between the two. Sir William began thinking about the matter, and his investigations led to the ascertainment of facts similar to those learned by Marconi and other experimenters with Hertzian waves. Sir Henry was born in Wales in 1834, educated at Kings college, London, and has been president of the Institution of Civil Engineers.

Paul Doumer, a representative France at the congress, is one of most famous Frenchmen of the day and was a candidate for the presidency when M. Fallieres was chosen to that office. He is president of the French chamber of deputies and has been compared with Roosevelt as a statesman. He is a self made man, having risen from the ranks of labor, and is very simple in M. PAUL DOUMER his tastes, drinks nothing stronger than water and is a model husband and devoted father. He was first an elementary teacher, then journalist and in 1888 entered the chamber of deputies flying the republican flag. He has held several cabinet positions and won perhaps his greatest fame as governor of Indo-China. He is moderate in his views, with a leaning toward the broader aspects of socialism. A governor of Indo-China he enjoyed a salary of \$30,000 a year, with \$20,000 year allowances. He owed 60,000 francs when he left Paris, but after five years in the orient dependency saved enough to pay up all his debts. He then returned to France to engage more in battling in parliament for the success of the policies in which he believes.

One day when Gladstone was speaking from the terrace rain began to fall. With the first few drops came a voice from the crowd, "Put on your hat, Mr. Gladstone." He promptly responded the veteran; "No, I prefer their hats on; I prefer mine off." As the rain fell more heavily Mr. Gladstone stepped behind her husband and held an umbrella over his head. He was over eighty at the time. Gladstone went blithely on, expounding the merits of rabbit farming, but after a time even he noticed the rain and the umbrella. Turning to Mrs. Gladstone he said, "I will put my own up, my dear," and he did so. Again the eloquent voice galloped on, while the rain became heavier and heavier. Presently Mrs. Gladstone threw a light mackintosh over her husband's shoulder. The moment he felt it he turned quickly round and with some asperity said "I wouldn't have it." He shrugged his shoulders, the mackintosh fell, and Mrs. Gladstone stepped back. For five minutes more in a deluge Mr. Gladstone went on; then he stopped, and we all fled.—Manchester Guardian.

He shrugged his shoulders, the mackintosh fell, and Mrs. Gladstone stepped back. For five minutes more in a deluge Mr. Gladstone went on; then he stopped, and we all fled.—Manchester Guardian.

### The Onion Eater.

"Most of us," said a man who, er plenty of onions, "eat too much me and grease and butter and bread and not enough vegetables, and the consequence is our systems get clogged with grease and starch, our livers get out of order and we grumble at our wives, and scold our children, and fuss when the baby cries, and quarrel with the street car conductors, and get into rows at the office and lose our jobs, not because we are naturally sulky or quarrelsome, but because we are bilious. Why are we bilious? Because we don't eat onions. You never saw a dyspeptic man eating onions. He thinks they are poison, but, in fact, they are the medicine that he most needs. Whenever you see an onion eater you see a whole souled, open hearted, jolly good fellow, who knows what he ought to eat to keep him good humored. Talk about the staff of life, why, bread is only a crutch. There is more nourishment in an onion than there is in a roll. The onion lovers keep the world moving, to say nothing of providing it with much of its fun."—St. Louis Globe-Democrat.

### Afghan Justice.

A Yorkshire engineer acted in Afghanistan for many years as director of the arsenal to Abdur Rahman. On one occasion the engineer was fired at by some fanatic in a bazaar and laid a complaint before the ameer. His highness seemed to make light of the matter, observing: "I should not bother about it. You will find it will be all right." The engineer was by no means satisfied, but, remembering the people with whom he was, resolved to say no more. A week or so later he was invited to accompany the ameer on a

### Humor and Philosophy

By DUNCAN M. SMITH

#### THE SHOW-ME CROWD.

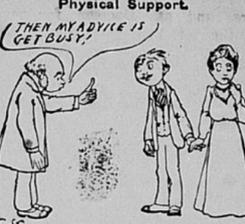

The man from Missouri Must always be shown. In that you observe him No longer alone. All over the country, Regardless of gibe, The legions are joining The grand show me tribe.

No longer he swallows The other man's word Nor drinks it like water, No odds how absurd. The outside and also The works he must see As plain as a fellow Way up in a tree.

The record of Eddie, The pride of the town, Who's running for office, He wants written down. Or if it's a flier In mining he must Observe before buying The color of dust.

Of large, husky doubters We're raising a race Who never take anything Just on its face. The meat to discover They cut to the bone; They're straight from Missouri And want to be shown.

#### Physical Support.

"So you want to marry my daughter. Can you support her?" "Oh, yes; I have held her for an hour or more several times already."

#### Spring Elections.

Some cities have them and some don't. It isn't distributed by chance, like measles and scarlet fever, but it goes according to the state and its ways. Some states have an election in the spring and another in the fall, while other states think that once every two years is often enough.

For the man who makes his living through practicing practical politics it is a long time between drinks where the elections come but once every two years, and he sometimes has to piece out his living shoveling sand, which hardly comports with his dignity.

Cities that do not have them in the spring seem to worry along just as well. They may have less brain storms to the square inch, but they have more time to discuss the crops, the European situation and the scandalously flippant conduct of the new minister's wife.

#### Stanton Could Swear.

One day President Lincoln saw Senator Fessenden coming toward his office room. Mr. Fessenden had received the promise of some appointment in Maine for one of his constituents. The case had been overlooked. As soon as Mr. Lincoln caught sight of the senator he saw Fessenden was angry and called out, "Say, Fessenden, aren't you an Episcopalian?" Mr. Fessenden, somewhat taken aback, answered, "Yes, I belong to that persuasion, Mr. President." Mr. Lincoln then said: "I thought so. You swear so much like Seward. Seward is an Episcopalian. But you ought to hear Stanton swear. He can beat you both. He is a Presbyter-terian."

#### An Odd Mistake.

Captain Amundsen, having lost several dogs in his expedition to the arctic regions, told some of the Netchillie tribe that he would purchase one from them. The suggestion caused consternation and was promptly refused. An explanation was demanded. The man applied to returned next day with a chubby, laughing boy on his back. "Such we do not sell," he said. Amundsen was astonished. "You wished to purchase one," said the man, seeing Amundsen's perplexity. Finally it was discovered that the Greenlandic term for "dog" was equivalent to "child" in the Netchillie language.
