

Mr. and Mrs. Nicholas Fitzpatrick, two well known Crawford County young people who were united in marriage at Sioux City last Wednesday.

DENISON FIREMEN

Denison Team Makes Good Showing at Tournament.

FAST TIME AND HIGH PRIZES.

Our Boys are Making Plans to be First Next Year.

The Denison Firemen's Running Team composed of twenty members left on Tuesday afternoon for Sioux City to take part in the races at the State Firemen's Tournament held at Sioux City fair ground on Wednesday, Thursday and Friday of last week.

It was not certain the team would go to the meet until Monday evening of last week as the firemen were short of funds, but Mr. George Naeve and Mr. F. W. Meyers came to the rescue and advanced the funds necessary to pay the expenses of the team.

The races commenced on Wednesday the 19th, the Denison team entering the hub and hub straight away hose race in which Onawa won first place and Denison and Holstein tying for second place. In this race Denison and Holstein divided second and third money, both teams realizing \$25.00 out of the race.

In the Amateur Hose Race the same afternoon Onawa won first place, Denison second place and Newton third place, Holstein and Sibley failing to make the coupling and hence were not given any time. In this race Denison won \$45.00.

In the flag race Denison again won second place and \$25.00, being beaten by Onawa by a very small margin. Total won by Denison the first day \$95.00.

The second day of the races Denison entered but two events, the State Association race for the cup and the hub and hub race between two teams making slowest time in the amateur race of the preceding afternoon.

Denison ran the Association Race in which the team ran 250 yards, laid 150 feet of hose and made coupling in 33 seconds. The Onawa team followed the Denison team and also ran this race in 33 seconds. The other teams entering the race made much slower time so Onawa and Denison divided first and second money equally, both realizing \$65.00 out of this race.

Sibley and Newton failed to qualify in the Amateur race on Wednesday afternoon so Denison and Newton were the two teams that made the slowest time in the race and ran the hub and hub race. This race was easily won by Denison and netted the team the sum of \$35.

Friday afternoon the Denison team took part in the second Association Race for the cup, the Novelty hub and hub race and the hub and hub race between three teams making fast-

est time at the tournament, and also in the leaders race for gold medals.

Onawa won the Association Race for the cup in 31 and 4-5 seconds and incidentally the cup for the ensuing year and the cash prize of \$70.00. Denison made equally as good or better time in running this race but was unfortunate in the coupling and was about 4-5 of a second behind Onawa in time. However the team won the cash prize of \$70.00 offered as second money, with Holstein third.

Onawa again won first place in the Novelty hub and hub race with Denison and Holstein a tie for second place. These teams divided the second prize of \$50.00 and third prize of \$25.00 each team realizing \$37.50 out of the race.

In the hub and hub race between three teams making the fastest time at the tournament, Onawa, Holstein and Denison were the teams which qualified. Denison won this race by a good margin, with Onawa second and Holstein third. The first prize in this race was \$25.00.

Brown of Sibley won the leaders race in the fast time of 25 4-5 seconds for the 250 yard, with Fritz of Denison second. The prizes in this race were gold medals, a large one for first prize and a smaller one for second prize.

Our boys were well pleased with their treatment while in Sioux City, and, while they did not bring home the cup they feel that they made a creditable showing and will have about \$100.00 left after paying all expenses and entrance fees.

With encouragement and support next year the boys say they will come home from the tournament with the cup, and they feel that this year's experience will be of great value to them.

Fresh from the oven hot rolls and Tea biscuit every day. Palace Bakery

Mrs. Hoppe was operated on at her home in East Denison last week, and is reported as doing nicely.

Pies from the Palace Bakery make a perfect ending for a good dinner. Better become acquainted at once.

Not much of a Fourth unless you attend the dance in the evening at the Germania Hall in Denison.

Hereafter our store will be open on the evenings of the Band Concerts. J. B. LYON, Broadway Grocery.

The Baptist ladies are noted for their good cooking, so note the day for their Market Day announced in another column.

Mrs. Scott Wheeler and her sister Mrs. Dunham from western Nebraska are visiting their brothers the Mr. Aljoe's near Des Moines.

We are glad to say that Mrs. W. W. Cushman is better. She was taken very sick last Friday and was unconscious for twenty-four hours, and the family was much alarmed.

HIS FAREWELL TOUR.

Hans Hamann Will Make Final Amateur Appearance This Week.

Hans Hamann will make his last bows as an amateur on Thursday and Friday nights of this week. Thursday night the caste will go to Schleswig in full force and will try to give our northern neighbors a first-class entertainment. On Friday night the second and last performance will be given in Denison. If Hans Hamann is ever again staged it will be by a professional company in other cities.

Since the last performance some changes and additions have been made. A burlesque a comedy scene has been added which will allow additional scope for "Gretchen" who proved such a favorite with Denison people. The specialties are all new and will be good.

"Mick" Romans has prepared a funny monologue, Miss Georgia Farrell will make her debut as a coon song artist. Miss Norman will delight with her whistling. It is safe to say that even to those who attended the play before, the production on Friday night will be of new interest. The company has had several gratifying offers to appear in other towns but it has been definitely decided that it will not be staged again by this company after this week.

"Hans Hamann" is a play with a purpose, although it makes no attempt to preach. It was the intent of the writer to bring out the sturdy manhood, the honesty, faith and perseverance of the German-American character, while the lighter vein is shown it is in no sense a burlesque, and we believe no one can follow the fortunes of Hans Hamann without gaining a higher and truer idea of the best Teutonic traits. The proceeds at Denison will go to the firemen's fund, while at Schleswig they will go towards re-imbursement of the company for expenses incurred in the production.

It is hoped that the play will be greeted with good houses at both places and that the last appearance of Hans Hamann may be as successful and as well received as the first.

THE MAGAZINE SECTION.

Publishers Suspend but Review Contracts With Another Firm.

The Magazine Section published by a Chicago firm and issued through a number of the best papers throughout the country has been suspended. In April the firm was financially embarrassed but the publishers agreed to a fifty per cent raise and it was thought that the concern would pull through. Last week we received notice that the firm had gone out of business.

Another company has agreed to carry on the magazine however if a sufficient number of publishers contract for the issues. The editor of the Review was in Chicago last week and signed a contract with the new firm. They hope to be able to start the magazine in about two weeks and have promised to give our readers the continuation of the story "Lord Felton's Daughter" which was proving an interesting feature of the old magazine. We would ask our readers to be patient with us, we have done the best possible and we hope that the Review will soon be able to continue this splendid feature. If not, we assure our readers that we will provide something to take its place.

AUTO RACE AGAINST TIME.

Thursday afternoon an automobile passed through Denison on a transcontinental trip from New York to San Francisco. It was seven days coming from New York to Denison and had not much of a show to lower the record which is fourteen days, made last year by the Franklin Automobile.

PASTURE FOR STOCK.

I have room for 40 head of stock at my pasture 3 1/2 miles north of Denison, on the old McAhren farm. Phone 39-A. Frank Comstock. 26-2t pd

COLUMN

SUNNY HAWAII

(Continued from page 1)

Portugeese are found here in quite large numbers, and are regarded as desirable citizens; they are sought after as laborers on the plantations and in the factories. The Coreans, Porto Ricans, Spainards, Italians and other nationalities are represented here, but not so numerous as the Japanese, Chinese and Portugeese. There are a large number of Americans on the Islands engaged in business, both in the cities and on the plantations. They take the lead in business, but are rarely ever found in any other capacity than overseers, superintendents or proprietors. It is impossible to think of an American going to Hawaii to engage in farming as they do upon the mainland. If I should find a citizen from one of the states living upon a farm in Hawaii, I should at the same time expect to find him employing cheap foreign labor and contenting himself with superintending the job.

I find that this communication, which was intended to be brief, is lengthening itself out so that if I should embrace some further thoughts I have in mind, it will occupy more space than the paper can afford to give, and I will therefore conclude, for this time, but may have something to say in another issue.

J. P. CONNER.

Not much of a Fourth unless you attend the dance in the evening at the Germania Hall, in Denison.

The Bulletin is evidently prosperous in spite of the board of supervisors, as it is about to build a 20 x 32 brick press room back of its office building.

There have been many deaths of late in the vicinity of Stockholm township. The last to be called away was the mother of F. L. Johnson whose death occurred on Monday night June 24. The funeral will take place at the home four miles north of DeLoit on Thursday afternoon.

The Sidonia lodge of German Odd Fellows spent Sunday last in decorating the graves of deceased members. In the morning they went to the Denison cemetery where three of the members are buried and in the afternoon to the Nissen ground in Hanover. Many members from the farms and from Schleswig assisted at the ceremonies in the country.

Owing to the continued illness of the elder Mr. Semmann who was at the head of the Semmann Manufacturing Co., which made harness goods, the business will be given up in this city and so the stock on hand will be put on the market, giving the farmers the benefit of wholesale prices. Note the advertisement in another column.

Mrs. Lee Gable had an experience on Sunday last which was dear to her mother heart. She visited her son Rev. M. A. Gable over Sunday at Defiance and heard him preach for the first time. She attended the morning service and also the evening, and accompanied him to Buek Grove in the afternoon where he has an appointment. Mrs. Gable is proud of her boy, and believes that by him much good will be done. She returned to Denison on Monday afternoon.

The National Stamping Act

Which takes effect June 30, 1907, is aimed directly at the jewelry business, and while it may cover other articles, it is jewelry in which we are most interested. This act which provides that jewelry must be within two-fifths of a karat of what it is marked or stamped (5-8) A ring or any article of jewelry stamped 14K or even better, must be thought 13-3/4K gold, it may be 14K or even better, but not less than 13-3/4K. Taking 24K as a standard of purity, if your ring is stamped 14K it is slightly over one-half pure gold—providing it was manufactured before June 30, 1907. The habit of many jewelers of buying 10K goods and stamping them 14K or 18K, or of having one stamp and using that on all qualities, has placed on the market a great number of articles of jewelry that will black or stain the flesh when worn. While all gold, regardless of quality, will stain pure white, such as linen, silk or other white goods, it is only the alloy that stains the flesh. It is also a fact that the condition of the blood of a person will permit of some persons wearing a much lower quality than others. But with this stamping act in force, you will be assured of quality so stamped, providing such articles be bought of a responsible firm. And it is of such that you should buy. Look well to the marking of all jewelry, both as to the Karat mark and also the firm's mark who manufactured it. While it cannot be expected that you are to become familiar with all trade marks in the jewelry manufacture, you should trade with the firms that can prove to you they are posted and up to date and in whom you have confidence, that you may know the article is what you pay for. You will find most jewelry marked as follows, and should help all to familiarize themselves with same: 18-K, 14-K, 13-K, which must assay 17-5/8, 13-3/8 or 11-3/8-K lines. Where the quality is below 13-K, it is usually stamped Solid Gold. In this mark you have no assurance of quality, but are assured of same quality throughout, which may be from 1 to 24-K, usually about 6 to 8-K article stamped as above followed by F or P, we say Gold Filled or Gold Plated insures you only of what you see, being the quality stamped. It may be thick enough to wear for 20 or 30 years or for only a week. On this stamp you must depend on your jeweler or of whom you buy, as a guarantee that you are getting value received. Our guarantee to you is—we buy only reliable goods of reliable firms, and any article not giving satisfaction will be replaced or cash refunded. You can have your choice.

A. F. BOYLAN, The Sure Cure Watch Doctor.

20 per cent off

ON

Wall: Paper

For the balance of this season. A fine assortment of Patterns and all new stock, at

BARTCHER BROS.

A REBEKAH INSTALLATION.

Those acquainted with the work in a secret order of the women will know that those privileged to witness the public installation of the officers of the Rebekah lodge, on Monday evening July 10th will see something fine. The hall in the Laub block has been refitted and the members mean to present a program which will be most pleasing. The leading officers to be installed are as follows: Noble Grand, Mrs. Jacobsen, Vice-Grand Mrs. Katherine Johnson, Sec. Mrs. Clara Randall and Treas. Miss Mary Luney. Those outside the order attend only on invitation of a member.
