We Accomodate All Classes of People.

Many persons keep their money here as a permanent investment. We pay four per cent interest on time deposits.

Others deposit whatever cash they have and pay all bills by check—the only safe and convenient way.

Still others keep their surplus funds here, until they can find investment.

As lenders, we stand ready to aid any one who is building up a legitimate business.

A NARROW ESCAPE.

It is just coming to light what a narrow escape from death or injury our beloved pastor, Rev. Lacey and his wife had on their trip to the Denison Chautauqua. They had driven across hurriedly to reach the session at 2:30 and were at the Cochran crossing of the double track of the Northwestern near Denison. A long freight train was going west into the station and just after the last car went over the crossing, Rev. Lacey came up to pass over the tracks. He was about to do so, when the rear brakeman rushed out and called loudly, and waved his hands. Rev. Lacey pulled back on the reins once, and then an engine under full headway pulling a train going east, dashed by the heads of the horses. To say that Rev. Lacey and his good wife were terrorized with fear, and then were most thankful for their escape from death is putting the case mildly. The long freight going into the station, had cut off a view of the train coming east. When one considers the consequences, if the train had not been checked in time, they shudder. We are most thankful that the pastor and his dear wife are safe. The incident will be a warning to all when crossing a double track railway.

METHODIST SERVICES.

The Methodist membership will have the fourth quarterly meeting on Saturday and Sunday. Elder Griffith will hold the meeting on Saturday at two p. m. "We never repent of eating too little," was one of the ten rules of life of Thomas Jefferson, president of the United States, and the rule applies to every one without exception during this hot weather, because it is hard for food, even in small quantities, to be digested when the blood is at a high temperature. At this season we should eat sparingly and properly. We should also help the stomach as much as possible by the use of a little Kodol For Indigestion and Dyspepsia, which will rest the stomach by digesting the food itself. Sold by Lamborn Drug Co.

PERT PARAGRAPHS.

Realizing ideals isn't always what it is cracked up to be.

Looking out for themselves seems to be the way lots of people take care of the poor.

Don't get mad unless you feel sure that you can make it operative.

People who have a winning way are apt to be poor losers.

Some people appear to think that if they owe duty to others it is up to the others to call and collect.

If we were not weak we would be so intolerably arrogant that we could not live with one another.

Some people really seem to think that the Almighty makes an irreparable mistake by not consulting them.

A woman would not want to be an angel if she thought the uniform wouldn't be becoming.

It doesn't require such a good swimmer to swim in wealth.

Good form ought to conform to common sense, and sometimes it does.

BEST PLAYERS TODAY

Fielder Jones Says Old Time Stars Are Outclass'd.

GREAT ADVANCE IN PITCHING.

Captain Manager of the World's Champions Can't See How Former Players Compare With Moderns. The Spit Ball a Big Factor Nowadays.

Fielder A. Jones, captain and manager of the Chicago White Sox, world's baseball champions, takes exception to statements that the players of today are not in a class with those of twenty or thirty years ago.

"It is ridiculous to say that the players of today are not far in advance of those of twenty-five years ago," said the great center fielder. "The game has improved in every department. The trouble with any man who contends that the players of old outclassed those of today is this: In the old days there were about fifteen or twenty good players and those few showed the others up. Nowadays every man must be a star or he does not play. That is why there are no bright particular stars that shine out by themselves. Every man is a star and he is playing such magnificent ball that a great play is forgotten from day to day by the ever happening features in almost every game.

"As to the pitchers of today not comparing with those of old, it is to laugh. In the olden times there were just one or two who stood out alone. Today I can name fifty pitchers who stand out in the limelight. Also who ever heard of the spit ball twenty-five years ago? In my mind it is the greatest ball ever served to a batter. Look at the men who are the stars in this particular line today and you will see the best pitchers in the business. Of course there are others who are great pitchers, but in years to come I believe the spit ball will be the only ball.

"Go back twenty years and show me a list of pitchers who classed with Matthewson, Walsh, Brown, Howell, Ewing, Waddell, Orth, Joss, Plank, Cy Young, Mullin, Altrock, White, Over-all, Stricklett, Peltz, Chesbro, Dygert, Bender, Tammehill and a score of others. It cannot be done. Also, let the teams of today attempt to pull off some of those old tricks and see how far they could get with them.

"The team work of today far exceeds that of twenty years ago. Some of the players nowadays have forgotten more than those old players knew. It is scientific ball today.

"Team work counts, and when they work together and when the pitchers are good it gives the public the greatest sport known to mankind. Men today also take care of themselves better than they did twenty years ago. They are trained now like race horses and are fit to go any distance.

"Also, the rules have made the game stronger and more difficult, and if the old teams of twenty-five or thirty years ago would play ball today as they did then they wouldn't win one game in twenty, in my opinion.

"I am not trying to take any of the glory away from those old players who were stars in their days. True, they
