

GET READY FOR THE CHANGE

AS THE coming fall advances it brings many disagreeable changes in the weather, making a demand for fall and winter goods, especially for **Warmer Underwear**. This brings us to where we are able to announce the great values we have in **UNDERWEAR**. The big advances in this class of goods has not affected our prices of last year, so here is where we can convince you of the great saving we can make you.

We need not particularly mention only Underwear, because you will find **CLOTHING** and all furnishings the same way here, marked more reasonable than ever, for we feel that selling the best merchandise at the lowest prices, with satisfaction guaranteed, will bring us success.

A Top Coat or Cravanette is a very desirable garment just now. We invite your inspection.

Michalsen farm near town and will try farming for a while.

Her little brother will remain with her to keep her company, and to help her about the place. We believe Elsie will hold the honor of being the first girl from the locality who holds down a claim.

There is a certain boy in this town who is courting trouble and which would have materialized dozens of times if it had not been that our citizens and those molested and provoked by his ungentlemanly and ugly actions and pranks, have considered that his dad should take care of and tend to him and mete out the required remedy, but which it seems has not been done. Disturbing meetings and disregarding the safety of others and destroying property and numerous other petty tricks indulged in by him, to his amusement, will ere long bring him to face and answer for his cussedness which has been so patiently borne in our midst so long. The sooner a boy of this sort is brought to his senses and to use them as he ought the better it will be for him, and the community.

Mrs. Albert Winey and babe had a narrow escape Saturday evening in a runaway. Mrs. Winey said she had a presentiment that something was going to happen when she stepped into the buggy at home. On returning home from Deloit within a short distance from the house she thought how needless to worry as she was now nearly home and nothing had happened, but no quicker thought than one of the horses began to kick up and coming down on the other horse slid over the tongue. She now saw something must be done, so she threw the babe of 11 months out by the roadside and looked to see if he was all right then she prepared to jump also, but in some way her foot caught in the wheel and she was dragged some distance, and received some severe bruises on face and body, her senses left her for a short time and when she came to she heard the babe crying, and went and got him. By this time Mr. Bauman and wife and Mr. Winey had heard the noise and ran to her assistance. The babe was bruised about the face. The team ran past Mr. Winey's home, they had broken the tongue and upset the buggy and got in the wire fence, literally stringing fence and broke posts off. One horse stopped at barn door, but the other went on over fences taking scraper with him and when found was badly cut up. Mrs. Winey is used to horses and is not a careless driver, but the pony had been standing in the barn and was most too lively to hitch to a buggy. Their many friends are glad that it is no worse. They are getting along nicely although the bruises are painful.

A TRAVELERS PAIN.

There is no disease quite so peculiar as rheumatism. The pain which is in the little finger today may be in one of the toes tomorrow. And so it travels all over the system, seeking an outlet, and finding none it settles permanently in one place, and from its home other pains start out, and settle down and multiply. Dr. Drummond's Lightning Remedies for rheumatism attacks the disease from all points at once, and their work is always successful. If your druggist has not got these remedies write to the Drummond Medicine Co. New York, and describe your case. Agents wanted.
