Manilla Wags Put up Job on Register and Leader.

ABOUT THE MISSING TRIPLER

Metropolitan Dailies Make Scare Head Article Concerning Scavenger.

The Register and Leader, metropolitan daily, head of Iowa Journalism is an easy mark when the wags of Manilla take it in hand.

Readers of great Iowa dailies were startled on Tuesday morning by the gaudy head lines.

Search Made for Mysterious Scientist in This State.

DISCOVERER OF LIQUID AIR. Stock Company Organized to Find the Man.

Correspondence with Noted Scientists and Universities Leads to Belief that Tripler is Here."

The scene of this thrilling episode was laid at Manilla, M. C. Sutton, F. A. Jackson and C. A. Sykes well known business men were named.

The dense ignorance of the writer was shown in the references to the invention of liquid air, a discovery that has been generally known to scientists for a number of years.

Investigation at Manilla proves that sometime ago a certain smart fellow representing the Register and Leader struck Manilla and proceeded to give the dwellers of that truth loving berg a correct imitation of Walter Wellman, Sherlock Holmes and Raymond, rolled into one.

It happened that sometime ago a stranger came to Manilla having with him what he claimed to be the most wonderful renovator on the market.

LABOR ON THE FARM

Hired Help is Scarce and the Women and Children Assist in the Work.

The high price of all farm products makes the average city man envy the farmer his position of independence, but there are many hardships and drawbacks that are unknown to the man in town who walks to and from his place of business—the working in rain, the tramping through mud, and other things of the same order.

Hired help is scarce and work must be done. I drove past a place where a woman and her daughter were loading manure on a wagon. I thought this strange, but on going farther down the road, met a boy probably 12 years old coming with another wagon, and out in the field was the father.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured Hall's Catarrh Cure. Send for circulars free.
