## Clearance of.. Heaters and Ranges

Fully 20 per cent Saved on any purchase you make now. It will Pay You to Come Thirty Miles to Buy Your Stove.

When we had finished invoicing our stock of stoves last week, we found we had a larger stock than we ever before carried. Dozens of different patterns are now being shown on our floors. In order to reduce our immense stock we have concluded to offer every stove in the line at prices that have never before been equalled.

The accompanying illustration shows the

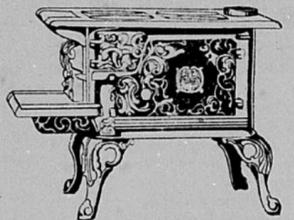

### “Electro Peninsular Steel Range”

This range is one of the best ranges on the market today. This stove is made with a heavy cast steel top and malleable steel sides and bottom. It has a toaster door and draft in front. Also an end draft, this makes the fire only over the grates. A ten gallon inclosed reservoir on the left end of the stove gives one of the best water heaters that can be had. The nickle trimmings on this stove are guaranteed to hold their finish. The duplex grate in this stove is one of the latest patents. This regular \$50.00 range now

**\$44.50**

The accompanying illustration shows one of our

### Peninsular Cook Stoves

This stove although smaller in size than our Ranges is made from the same quality materials by the same workmen. Therefore we guarantee this stove as strong as any stove we are offering and for a small family will do as well as a larger stove.

This stove is made with a front ash pan—it has a four-inch pouch feed; front draft and a ten gallon reservoir. The top of this stove is made from the best grade of cast steel. Planish steel is used for the body.

This stove is worth regularly \$18.00. Now only

**\$13.00**

Don't wait until the last to make your selection, but come in at once while the lines are still unbroken.

The accompanying illustration shows one of our leaders in the Hard Coal Burners, the

### Palace Peninsular

This heater is one of the most beautifully constructed heaters in our floors. It is elaborately trimmed with nickle over the body and top. This heater has a double front draft and a check and flue draft, this gives one a perfect control of the fire. A fire can be held for 48 hours in this stove when the drafts are regulated right. All we would ask of you will be one look at our line and will convince you of the leading qualities of our line.

Regular price \$40.00. Now only

**\$34.50**

The accompanying illustration shows our popular

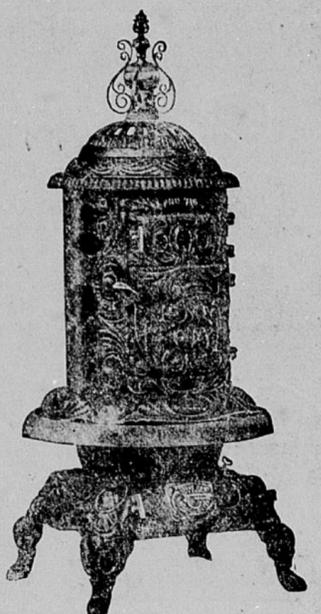

### Home Oak Heater.....

This is one of the best all around heaters you can buy. Every part is made from the very best materials and put together in the most skilled manner—this gives a stove that is fully guaranteed.

This stove has a direct draft—the fire pot is made from the best grade of gray iron. It has a double grate and is made to burn anything one wishes to burn in a heater.

At the price we are offering this heater at has no equal on the market for the money.

**Only \$12.95**

What we ask of you is a comparison of prices and we are confident we can show you that we can save you a big percentage on any stove you need. Don't put it off as these stoves must be moved at once. With every one of these stoves is a Peninsular Guarantee Bond which insures the purchaser against any possible defect in a stove. It will pay you to make a special trip to Denison and get the stove you want. You can't make money any easier. Its something you must have and its only a matter of buying the best stoves at the lowest prices.
