The Denison Normal school began for the new year on Tuesday. This school is doing much for the young people near abouts who do not want to leave the county for a higher education. Again, now that the new school law demands higher qualifications it is quite necessary for prospective teachers to brush up on certain branches, and the Normal just fills the want. When a certificate is once obtained, it is worth more than in the old days, and so is worth working for.

JUST A WORD

If you please, about the next few weeks in this store. It is our inventory time now, and necessarily we must go through our stocks very thoroughly. It is just at this time more than at any other time that our stocks in all departments are thoroughly overhauled, and odd lots, remnants, and least desirable merchandise, marked for quick sale and disposal. Now, the next few weeks must see absolute clearance of the undesirable odds and ends and **lower prices** will prevail throughout the store to accomplish this end. This, always in view of the fact that at all times, each season, every year, our stocks must be fresh, clean, new, never **shopworn**, in keeping with the reputation this store has justly attained among knowing people throughout the county.

JANUARY means something at this store.
