When the inside tells the story

you really learn what kind of a mattress it is—but unless you see WHAT'S INSIDE the very mattress you buy you are in doubt.

You see for yourself what's inside

THE STEARNS & FOSTER
Look for our name **MATTRESS** on every Mattress

A POSITIVE GUARANTEE ON EVERY MATTRESS. The "Laced Opening" on all Stearns & Foster Mattresses shows you the quality of the Cotton.

You will learn, beyond a question of doubt, that the inside is pure, sweet and clean and not filled with "SHODDIED" Old Clothes—"MILLSWEEPINGS," etc., which have been found in many mattresses. Such stuff is not only WORTHLESS, but is unfit for any person to sleep upon, if they value their HEALTH.

Come in and let us show you the handsomest—most comfortable and durable mattress made. Several styles to choose from. All mattresses could not be made or sold for less money.

Five Million Copies Were Sold

A few years ago of that wonderfully clever story, **Mr. Barnes of New York**

The history of that story was interesting. It was submitted by the author to all of the leading book publishers of the country, and one by one they declined to touch it. Determined that it should appear in book form, the author, Mr. Archibald Clavering Gunter, finally in desperation had to publish it at his own expense and risk.

Its success was instantaneous, and its sale made its author wealthy. Then there were numerous publishers who wondered whether after all their judgment was as good as they thought it was.

A sequel to the above story, by the same author, has recently been written, entitled

"Mr. Barnes, American"

It ought to, and doubtless will, prove as popular as its namesake. We have secured the right to publish this new story in this paper, and

The Opening Chapters Appear in This Issue

It is safe to say that "Mr. Barnes of New York" was read and enjoyed by fifteen millions of people. Don't you think that the sequel to it will be equally interesting?

Gambling.
The supreme objection to gambling in all its forms, whether in sport or in speculative business, is that it works harm and loss to society. As soon as any practice or conduct is found to be socially hurtful it thereby becomes wrong, whatever men may have thought of it before. Does not all morality rise to consciousness through the fact of social advantage or injury? Now the long and costly experience of mankind bears uniform testimony against gambling till at last the verdict of civilization has become as nearly unanimous as human judgment can be that it is an intolerable nuisance. It is a dangerous or unsocial form of excitement. It hurts character, demoralizes industry, breeds quarrels, tempts men to self destruction, and it works special injustice to women and children. We may not know precisely why morphine preys upon the nervous system and has to be labeled "poisonous." The fact is the main consideration. So with the stimulus or excitement of gambling. Grant that I profess myself willing to pay for my fun. The fun is degrading, like the prize fight or bear baiting.—Charles F. Dole in Atlantic.

Waltz Is Not Modern.

Many people labor under the impression that the waltz is of modern origin, owing to the fact that it was comparatively unknown in America or in England until the early part of the nineteenth century. But it was brought originally from Provence to the court of Henry II. of France, at Fontainebleau, by the Comte de Saulte. Mary, queen of Scots, imported it into Scotland, for history records her as having incurred the bitter wrath and fierce denunciation of John Knox and of other

divines of the "land of cakes" for dancing it on one memorable occasion at the palace of Holyrood. Toward the end of the seventeenth century it was danced throughout southern Germany and Austria, the celebrated waltz tune and popular song, "O Du Lieber Augustin," dating from 1670. But, as already stated, it was not until the first two decades of the nineteenth century that it made its first appearance in England and the United States, when it was alternately denounced and lauded by the poets of the epoch.

UNCLE JOE OPTIMISTIC.

Plenty of Chances to Get Money, Says the Speaker.

Speaker Cannon, addressing 5,000 people at Tuscola, Ill., the other day, gave an impressive lesson in optimism, says a Chicago special dispatch to the New York Herald. He stood on the steps of the courthouse, where in the early sixties he had made his start as the youngest district attorney for Douglas county. In part he said:

"Some of the croakers say that the rich are growing richer and the poor poorer. This would be bad if true. Of course there are some rich men in the United States—Rockefeller, Harriman, Morgan and the rest have a lot of money—but how many millionaires are there in this country? How many could you name? Not a thousand. Suppose, though, we say there are 30,000 millionaires. Even then that leaves the rest of the wealth owned by the rest of the eighty odd million inhabitants. Never has any population of equal size accumulated one-third as much. Why, you young people here today have a lot more chance for your white alley than I had when I was a boy."
