

CONTEST CLOSES

Beginning of the End in Great Review Contest.

MISS KEANE NOW LEADS

Miss Baker a Close Second With Heiden 3rd, Jacobsen 4th, Moffitt 5th, Girard 6th, Pett 7th, Stilson 8th, Merrill 9th, Bixler 10th, Christiansen 11th, Martens 12th.

The beginning of the end has come in the Great Review Contest—A week from tomorrow the fine Oldsmobile Runabout and the beautiful Kingsbury Piano will pass into the hands of their new owners.

The Review does not care who gets them—Bear that in Mind.

They are paid for and are to be given away. It is a matter of no concern to us who gets them.

The vote shows that two contestants are very close while six or eight are within easy reach of the prizes.

Final Announcement.

The contest will close at 1 p. m. on Thursday, June 11th. Prizes will be awarded at 5:30 p. m., providing votes can be counted by that time.

A count will be made on Tuesday evening and this vote will be posted at the Review voting booth. On Wednesday and until Thursday at 11 a. m. votes will be posted on black boards as cast. From 11 a. m. until 1 p. m. votes will be secret just as the balloting has been in the past.

By consent of the contestants the judges will not be asked to make a recount of the votes cast and counted up to this date.

The Schedule of Votes

The schedule of votes will remain the same with the exceptions TOUR-NAMENT DAY SPECIALS, SHORT TIME SUBSCRIPTIONS.

Crawford's vote for the Republican nominee for Governor was: Carroll 522, Garst 443, Hamilton 261.

Mrs. J. P. Conner is in Mt. Clemens, Mich., taking a course of baths for rheumatism.

Mrs. A. D. Molony is still seriously ill, but her many friends are not without much hope for her recovery.

Dr. Burrows of Kiron defeated Dr. Hill of Charter Oak by a very close vote for the republican nomination for Coroner.

DeWitt's Kindney and Baldder Pills are prompt and thorough and will in a very short time strengthen the weakened kidneys. Sold by Lamborn Drug Co.

Dr. L. L. Bond left on Tuesday for Chicago where he will attend the American Medical Congress. Before returning he will visit in Milton Junction, Wis.

When you need to take something take it promptly for the stomach, but take something you know is reliable—something like Kodol For Dyspepsia and Indigestion. Kodol is pleasant to take, it is reliable and is guaranteed to give relief. It is sold by Lamborn Drug Co.

THE ALUMNI BANQUET

The Ex-Graduates of the Denison High School Meet

BANQUET AT THE MCKIM HALL

A Large Attendance and Affair Most Enjoyable.

On Friday evening at the McKim Hall occurred the annual reception and banquet of the Denison High School Alumni Association. This feature of commencement week has grown in importance until it is one of the most enjoyable of all the events of commencement season. Mrs. Allie McConaughy was president of the association this year, and had all of the details of the occasion arranged in perfect order. The alumni and their guests to about the number of one hundred thirty, met in the assembly room where an informal reception was held and everyone enjoyed themselves, renewing acquaintanceship and recalling incidents of school days. The decorations were white and green and the ladies are entitled to much credit for the tasty manner in which they did the decorating.

After the reception all turned to the banquet room where an elegant five course supper was served. Mrs. Allie McConaughy, of the class of 1900, the toastmistress of the evening presented the intellectual feast of the occasion. As a toastmistress, Mrs. McConaughy was at her best, and introduced the speakers in an original, witty and elegant manner.

Mr. Ralph Casaday of the class of 1900 responded to the toast, "Sweets to the Sweet," urging the new graduates to become loyal alumni. Miss Gladys Tucker of the class of 1908 spoke to the toast "Our Friends the Enemy" telling of the gratitude of the new graduates towards their teachers for their progress.

The class of 1908 favored the assembly with their class song, which was much enjoyed, and by the kindly sentiment it expressed, won for the members, a place in the hearts of all the Alumni and teachers. Miss Ethel Gulick was on the program for a vocal solo but was suffering from a severe cold and unable to appear.

Miss Mabel Merrill of the class of 1906 in a witty vein responded to the toast, "Man Mere Man." Prof. Humphrey spoke on the subject "Books as Friends" and commended to all, the friendship of books. To Mr. C. F. Kuehnie was given the toast, "The Fruits of the Tree," and in an eloquent and fitting manner he spoke of the value of the fruits of the tree of knowledge in the process of character building and gave valuable advice to the new graduates, urging them to aspire to become men and women of high character.

Miss Mae Hayes of the class of 1900 delighted every one with a piano solo. Miss Fannie Hayes of the class of 1900 responded to the toast "Auf Wiedersehen" and in a feeling manner reminded everyone that while they would say good bye it would be with the hope that they would meet again. Miss Hazel Nash and Miss Mabel Merrill gave a vocal duet.

After the banquet all returned to the assembly room where the new graduates were initiated into the society in a formal manner.

The following officers were elected for the ensuing year. Fannie Hayes President, Mabel Merrill Vice President, Retta Van Ness, Secretary and Treasurer.

A QUIET WEDDING

Miss Allie Wilson and Mr. James Auld Married on Decoration Day.

There was a quiet home wedding at the residence of Mr. A. D. Wilson on Saturday, May 30, at three in the afternoon. At that time their daughter, Alice Antevorta became the bride of Mr. James Auld of Carroll. Rev. Thureson performed the ceremony in the presence of a select number of friends. Mrs. May Hendricks of Sioux City, aunt of bride was the only out of town guest. The bride was born in Denison and has always had her home here. She was a sweet pretty child, a general favorite and as years went by she developed a character which endeared her to all who knew her. She has assisted her mother at home, and had employment in the Iowa Telephone exchange. Mr. Auld, the fortunate groom was foreman of the Bulletin printing office for a time and then became acquainted with his bride. He is now managing editor of the Carroll Times, a responsible position. He is a fine young man and we wish him and his bride much happiness. On the previous Thursday the friends of the bride gave her a linen shower at the home of Mrs. J. H. Patterson and was generously remembered. They took the evening train for Carroll.

Mr. T. J. Garrison and wife are back from California. He came in time to vote for Judge Conner for Congress. Mr. Garrison is looking well.

DAIRY SCHOOLS.

In order that the raisers of cattle in Iowa may prepare themselves to better compete with the tuberculin situation, the raising of better cattle and the obtaining therefrom more profit, it is now a possibility that in the different congressional districts of Iowa, dairy institutes may be maintained, the same as corn institutes, etc.

An effort will be made, and it is hoped that the next legislature will make a large appropriation for the maintenance of such schools.

The movement has the strong support of hundreds of the progressive farmers of Iowa, and its importance may be realized when it is stated that the dairymen claim that these schools of instruction will result in an increase of thirty million dollars a year in the production of dairy products.

The dairymen claim that the cows kept in Iowa are falling short annually the amount named above in producing what they should. This figure appears astonishing but it is claimed to be correct by those who should know.

The following lucid statement of the present condition of dairying in Iowa is made by leading authority on the subject. "The average cow of Iowa yields only 140 pounds of butter fat a year. We know, as dairymen, that it is just as easy to select and keep cows that will produce 300 pounds of butter fat a year. This is 150 to 200 pounds a year less than the average cow of Iowa will be producing when information which is accessible is brought home to the people who keeps cows.

It is comparatively an easy matter to figure out what the million and a half cows of Iowa would produce in an additional profit if they were cows that the experimental college have shown can be selected and kept as cheaply as the present average cow of Iowa. There would be no trouble whatever in doubling the income from the cows of the state. The figures reach such stupendous proportions that I almost hesitate to give them but \$250,000.00 to \$300,000,000 annually would be a reasonable amount to fix the increased earnings of the dairymen of Iowa if modern methods as to feeding and selection of dairy cows were adopted.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlin's Colic, Cholera and Diarrhoea Remedy at hand knows this to be a fact. For sale by Ph. A. Schlumberger. June

The Baptist semi-centennial celebration is now in progress. The exercises have been very interesting. Among the noted pastors present is Rev. Robert Carroll of Fort Dodge. He will give a free lecture on Thursday evening at the church. An offering will be taken up but no admission fee is charged. Next week we will present a paper giving the complete church history.

CALF LOST.

ORATOR BEDE OF MINNESOTA

Those attending the Chautauqua last summer will remember the great lecture by Congressman Bede of Minnesota. It was a master lecture full of bright things from start to finish. Last week Mr. Bede made one of his characteristic speeches in the House of Representatives, and we print part of it. It would seem that a firm in his district wanted an extension of time in which to build a dam to provide power. President Roosevelt vetoed the bill, and thereupon Bede determined to convince the President he was wrong, and this he succeeded in doing. After the speech the vote stood 240 yeas and 5 nays. No wonder the members laughed on hearing the remarks of Bede and voted what he wanted.

"After the President had vetoed the bill I went to him, and I think the reason he vetoed it was because he wanted me to go to him. (Laughter.) As they say down in Oklahoma, he "made me come across." I went there to see him; it seems he wanted my society, and I have spent most of the last month at the White House (laughter), down at the Forestry Bureau (laughter), down at the Reclamation Bureau (laughter), in the Interior Department, in the office of the Civil Engineer, with the Secretary of War and Judge-Advocate-General, and Acting Secretary, while the campaign is on. (Great laughter.) I have been pretty busy this last month trying to remove the objections to passing this bill over the President's veto, so that no man, Republican or Democrat, would feel when he goes back to his district that there would be any feeling that he has been opposing the wishes of the Executive of the nation. After the President had enjoyed my society for about a month he withdrew all objection to the passing of this bill. (Laughter.)

While I am not going so far as to say that I will stand by him in all things, I have, for my part, declared that I will stand by him whenever he determines in the interest of the conservation of natural resources to swap off the Philippines for Ireland and arise our own police. (Great laughter.) I do not know that I have covered every point (laughter), but unless there are question that someone would like to ask me I shall be glad to stop at this point and ask for the passage of the bill. (Great laughter and applause and cries of "Vote!")

The man who told you so doesn't charge anything.

Finding a Horseshoe.

There is a man who has a very poor idea of the horseshoe as a bringer of good luck.

"I found one in the road some time ago," he remarked. "As a matter of fact, another old gentleman found it also about the same time. We both wanted it, and there was a tussle for it."

"I got the shoe, a black eye, a torn finger from a rusty nail in the shoe and a summons for assault and battery."

"It wasn't a very good start, but I thought I'd give it a fair trial. Of course in nailing the shoe up above the front door I managed to smash my thumb and fall from the step ladder."

"Then I sat down and waited for the luck to begin. That shoe seemed to be endowed with the power to attract trouble in every form."

"Duns, bailiffs, the landlord, measles and poverty were rarely out of the house, and my faith was shaken."

"Then one day, when the rate collector was standing on the top step, that shoe came down with a crash—"

"Ah!" interrupted the sympathizer. "Luck at last!"

"Not a bit of it," sighed the unlucky one. "It missed him by a foot."—London Answers.

The Way of Womankind.

Women are indefatigable in their analysis of conduct. A man accepts a white ray of light for what it is; a woman passes it through a prism and resolves it into its component rays. If I pass Mrs. A. in the street without saluting her she conjectures a dozen painful motives to account for my absentmindedness. If she passes me I conclude that she is shortsighted or absentminded.

If I say to my niece Molly that 2 and 2 make 4 she consents, but is unconvinced. But if I show her this little formula— $1\frac{1}{2} + \frac{1}{2} + 1\frac{1}{4} + \frac{1}{4} = 4$ —she is at once all alive with interest and sits down to work it out and proclaim in triumph that it is so. From a hard and dull statement of the fact it has become a problem and an intrigue, and here she is in her element.

This is the way of womankind in all relations to life.—"Comments of Bagshot."

This Makes It Very Plain.

The meaning of the word "swastika" is "It is well," or good luck. The meaning of the symbol is more complex. Some folks trace it to the sun.

"The emblem is the sun in motion," argued Professor Max Muller. "A wheel with spokes was actually replaced by what we now call swastika. The swastika is, in fact, an abbreviated emblem of the solar wheel with spokes in it, the tire and the movement being indicated by the crampus.

"It is the summary in a few lines of the whole work of creation," said Mme. Blavatsky; "is evolution, as one should say, from cosmoteology down to anthropogeny, from the indivisible unknown to materialistic science, whose genesis is as unknown to that science as that of the all Deity itself. The swastika is found heading the religious symbols of every old nation."

The Defect in His Dressing.

The professor of surgery in one of England's universities has the reputation of being one of the most painstaking and delicate operators in Britain, thoughtful of the patient and careful in the clinic. One day in the course of a clinical demonstration he turned to a student who had just commenced his studies with the question:

"Now, sir, can you tell me what is wrong with my dressing?"

The ingenious youth turned red and preserved a discreet silence. The professor, however, was not to be put off and repeated the question. After a long pause the youth stammered out in a fit of desperation:

"Well, sir, if you insist on my telling you, I should say your tie is not quite straight."—London Globe.

The Son's Answer.

After his son's great success with the "Dame aux Camelias" Alexandre Dumas wrote to him as though a stranger, congratulating him on the book and expressing a desire to make the author's acquaintance. "I myself am a literary man," said he in conclusion, "and you may have heard my name as the author of 'Monte Cristo.'"

Dumas flis was equal to the occasion. He wrote immediately in reply, expressing the great pleasure he would have in making his correspondent's acquaintance, principally on account of the high terms in which he had always heard his father speak of the author of "Monte Cristo."

Before Going Elsewhere.

"Good morning, Mr. Highprice!" greeted the friend, entering Mr. Highprice's furniture store. "I saw your ad. in the newspaper saying that you would be pleased to have your friends call in on you before going elsewhere to buy, so I thought I'd call."

"Very good!" returned the appreciative Mr. Highprice, rubbing his hands. "Now, what can I sell you?"

"Nothing, I told you I was going elsewhere."—Pearson's.

Conquering the Air.

The flight of Wright appeals to the imagination. The brothers of that name who are preparing to be independent of street car strikes, omnibus drivers and dollar an hour automobiles have been doing some wonderful things.

Their superiority may not be fully recognized at present, but soon every inventor in the land will be looking up to them.

With them being up in the air is not a state of mind, as it is with most of the people of your acquaintance.

Their point of view, their range of vision, is far and away above that of the traditional man up a tree who was supposed to be able to see a few things himself.

They have conquered the air. It may as well surrender and come down. If it doesn't they will not hesitate to go up to it.

Disagreeable.

"I detest haste in anything."

"So do I. My expenses are always galloping along at terrific speed in a mad endeavor to overtake and pass my income."

Have Nothing to Be Vain About.

"Some women seem unfair to themselves."

"They must be awfully homely."

Mean.

"You and I couldn't agree if we were to talk all night."

"Perhaps you couldn't."

Why?

"I never make mistakes."

"Then you would better get busy right off."

Protection.

"Are you afraid of lightning?"

"Not when I am at home."

"But it might strike you there."

"Oh, no. The house is insured for more than that it is worth."

Quite Right.

"After all, it pays to be honest."

"Yes, only—"

"Only what?"
