Local Briefs. KIRON ITEMS.

Mr. and Mrs. John Wordeen, near Odebolt made a brief visit at O. E. Clauson's home on Saturday.

Mr. and Mrs. John Cedargren Denisonited it on Thursday last.

Elmer J. Hoaglund has been appointed town clerk, filling the vacancy made by the resignation of P. C. Lawrence.

The primary election in the Kiron Precinct was attended by a very small per cent of the voters. Owing to the agreeable weather and roads caused some to remain at home. Others disgusted with the new primary law and its system stayed away. This new primary law does not meet with approval of the majority of the voters in this locality and are in favor of a speedy repeal of the same.

Swan Carlson, of Steele, N. D., who with his visiting relatives at Odebolt, made acquaintances in Kiron a short visit last Friday.

Miss Emma Nelson drove to Odebolt Monday morning where she spent the day. Her sister, Miss Esther filled the clerkship at Sedarberg's store during her absence.

Herbert Ward, the efficient clerk at the Norelius Department store has been missed by his many friends and the customers of that store. He has spent the past week in Kilm, S. D., assisting in the invoicing of a stock of general merchandise.

Mrs. Edgar Dalley, of Moorehead visited at the home of her sister, Mrs. Tom Klorstad the past week, returning Tuesday morning.

Clauson Bros. sold a fine piano to Mr. John Hoaglund Sr. last week, which now adorns his home and which will afford him musical enjoyment.

The returns of the Primary was a great surprise in some localities. Our implement dealer, John Turteen, who resides in Ida County and who was seeking renomination as County Supervisor met with defeat, as his county gave Cummins a fine majority and being a most enthusiastic admirer and worker for the governor the defeat was not looked for. John has given good satisfaction as a county official and his many friends regret his defeat.

Tilda Johnson is taking a two years course at the Samaritan hospital at Sioux City in nurse work and the progress made during her time spent in this work assures her to attain the best of a nurseship. When her course is completed her numerous Kiron friends are most pleased to learn of her success.

Mable Christianson went to Dayton Saturday where she will spend some time visiting friends.

A. F. Lundberg and daughter, Mamie left for Phillips, Nebraska, on Friday to spend a few days visiting with the family of Rev. N. Wickells, also to visit acquaintances at Aurora, Nebr.

Court Walters writes back from Akaska, Dakota that everything is fine and that they are enjoying their new home and surroundings immensely. The prospects are most bright, Court says, and we'll bet he will gather in his share.

Mrs. Sofia Christianson spent Thurs-

day and Friday with friends in Denison returning Saturday morning. It has been some two years since she visited Denison and noticed the number of important improvements during this time.

The entertainment at the Kiron hall given by the noted whistler, Miss Garnet Norman of Denison, on Wednesday evening was enjoyed by a fair sized audience. Her whistling renditions were as usual, most fine and highly appreciated by all her listeners. Her ability in this line is remarkable and her whistling pieces are rendered in a pleasing and very creditable way. She was assisted in the entertainment by local musical talent, which helped to make up the excellent entertainment.

Kiron surely has a most obliging station agent. Securing a horse Sunday afternoon he was seen going westward through the mud and rain, saying that he was bound for the railroad bridge west of town which was reported in a dangerous condition. He must have had an interesting time, judging from the late hour of his return. Many of his friends, however, doubt that he was near the bridge at all, but hindered by other attractions.

The twenty-fifth annual conference of the Swedish Baptist church in the state of Iowa is being held at the Baptist church five miles north of Kiron. In connection with the conference a Jubilee session will be held on Saturday. A large number of ministers, delegates and visitors from various parts of the state are expected to be present and assist in the conference proceedings. The session commenced on Tuesday and will close on Sunday evening. A very interesting and practical program has been arranged for and a very good session is looked for. A large number of the Baptist people in and around Kiron are planning to attend.

Every worthy and good cause is commendable and should receive the good word of all, who loves and has any interest in the uplifting and helping, in various ways, the human race in its journey through this vale of trouble and tears. The What-I-Can society organized in this town some six years ago, with a membership of less than a dozen who have been faithful and energetic and who have surmounted the difficulties and discouragements met with, until at the present time they have an attendance of nearly fifty. The object of this organization is to study the condition of the heathen country and to promote and interest in missionary work, both at home and abroad. A good sum of money has been raised and sent across the water by this society to bring and spread good news of salvation among the heathens. The influence of this work is not without results among the young people and this community will also reap the benefit. Much credit is due its president, Miss Florence Johnson, and its secretary, Miss Alice Sandberg, for their efforts which are making this work a success.

The high fills at the big railroad bridge west of town which have been giving considerable trouble of late, took another slide Sunday, which made it unsafe for trains. The regular passenger train due in the morning did not arrive until noon and went as far as the bridge and met a passenger train sent from the west, where passengers, express and mail were transferred. The regular freight was not run Monday owing to the unsafe condition of the road.

Mr. and Mrs. E. Peterson of Des Moines, came to Kiron on Monday for a short visit at the home of their son-in-law, Erick Larson, and to attend the Baptist convention in Ida county.

N. P. Swanson, C. E. Engberg, J. A. Lawrence, John Erickson, C. W. Clauson and C. J. Johnson were among those who went to Denison on Thursday appearing before the road commissioners to remonstrate against the proposed vacating of the highway through the four miles grove. It appears that several owners of the timber land made an effort to have the road closed which would bar a number from this locality who own timber pieces to get to same, which would force them to dispose of the same at whatever figures offered them. This road is extensively traveled and it would have been an injustice to the public to have had the same vacated. We are informed that the road will not be vacated.

Roy Moffitt is the proudest young man in this vicinity as he made quite a lucky find this week. He was fixing fence down by our creek, when he saw something sticking out of the water that looked curious to him, which when he had taken out proved to be a skull and horn processes of a buffalo. What is left of the animal is the frontal bone about 14 inches square and 27 inches between the tips of the processes which showed it belonged to a very large buffalo and also proves beyond doubt that in days

gone by that noble animal roamed at will over this particular section of the country. Roy is having a glass case made and will preserve his specimen. Dr. Bonney made a picture of the find. What will be the next curiosity unearthed in this vicinity? Our town is becoming quite famous.

They have charged Mr. Zimmer up with the corn fed, to which the latter objects and is trying to recover, but it was an accident for whom nobody in particular can be blamed.
