DUNN'S HAVE RENTED HOTEL

MINNEAPOLIS HOTEL MEN WILL OPEN PALATIAL STRUCTURE.

WILL BE BEAUTIFULLY FURNISHED

Men of Means and Experience Will Operate Hotel Denison. The Finest Hestlery in Western Iowa.

The board of directors of the Denison Improvement Co. are rejoicing that they have succeeded in leasing the handsome new hotel building to Messrs Dunn and Sons, of Minneapolis. The lease has hung fire for a long time. The directors have had many opportunities to rent the building, but felt that it was a matter of great importance to the future of the project and they have made haste slowly. The event has justified their judgment, for in Messrs Dunn and Sons the well-known hotel men of Minneapolis they are assured that they have found men of sound financial ability, long experience and energetic capacity.

For the past week Mr. George Naeve has been in Minneapolis negotiating with different parties for the rent of the building. The directors were most favorably impressed with Mr. Dunn from the beginning of negotiations with him. At one time a deal was nearly closed with him. This fell through and they are now pleased to know that the papers are signed and sealed and that the work of getting the big hotel ready for occupancy will begin at once.

The Denison hotel was built by the stock subscription of Denison citizens and cost more than \$50,000. E. L. Barber was the architect and Chas. Christensen the builder. The first floor is devoted to the office, parlors, sample rooms, dining room and kitchen.

The office is one of the handsomest in the state of Iowa and the dining room excels in finish and appointments anything that the state has known. There are fifty guest chambers, all large, light airy rooms many provided with bath and the most modern conveniences of every kind. The building is wired for electric lighting and piped for gas. The sewage and plumbing is of the most

modern. Rooms are also wired both for a house telephone service and for electric call bell service. The location is most convenient for business travellers and the windows of the second and third stories command beautiful views of the city and the fertile Boyer Valley.

From Council Bluffs to Cedar Rapids on the Northwestern and from Council Bluffs to Dubuque on the Illinois Central it will be the finest hotel.

Messrs. Dunn and Sons are determined to furnish it in keeping with the elegance of the building. This means that approximately ten thousand dollars will be invested in furnishings and that when its doors are opened it will represent a total investment of seventy thousand dollars.

Denison has excellent railroad facilities. Already a number of traveling men have selected this as their headquarters on account of its accessibility. The fact that Denison is on the official automobile road will also be a great aid to the hotel business when it becomes noised abroad that Denison has the finest accommodations of any city of its size in Iowa. What the influence of the hotel will be upon the town and its business is problematical. It is hoped and believed by many that it will bring increased activity along many lines. While it is not apt to be a paying investment for the stockholders for some time, we do not see why it should not be a paying concern for the lessors providing the terms of rental are reasonable which we assume they are.

Denison has made a great stride ahead. The hotel can hardly be taken away from us except by fire or earthquake. It will remain for scores of years as a monument to the enterprise of our citizens and their pride in their home town. The business men should give the Messrs. Dunn the heartiest kind of a welcome and should aid the new enterprise in every way possible.

The next thing on the docket is the opera house. The citizens were assured that the projects were to go hand in hand. There is a feeling that the hotel was given undue preference and the opera house scheme allowed to drag. The men who have been active in the hotel project cannot afford to let this imputation lie against them, and it is up to them to show their good faith. Should the Government select the present opera house site for the Federal

REPUBLICANS MUST HAVE NEW CONVENTION TO FILL STATE TICKET.

COUNTY CONVENTION AUG. 29TH

Taft May Speak at State Convention to be Held September 9th at Des Moines.

The death of Judge Chas. A. Bishop of the Iowa Supreme court and a candidate to succeed himself, necessitates the holding of another state convention.

The republican State Committee has decided to hold the new convention on September 9th at Des Moines and has suggested Saturday, Aug. 29th as the date for the county conventions. The delegates elected at the primary on June 2nd will serve as the delegates to this county convention and we reprint the list as given us at that time by the auditor.

There are two candidates for the judgeship from this district. Rob't. Healy, of Fort Dodge, and Judge Coyle of Humbolt, both are well known and of high repute throughout the district and the state. As noted last week Judge Church, who would doubtless have received the solid support of this county, will not be a candidate.

The convention will undoubtedly be one of the preliminary skirmishes in the great senatorial fight which will be waged for the Allison succession. Below is the list of delegates to the Crawford county convention to be held Saturday, Aug. 29th.

THE REVIEW ENTERS DENIAL.

TO THE BULLETIN'S CHARGE THAT REVIEW IS FORCED ON SUBSCRIBERS.

WE PRODUCE THE EVIDENCE.

Postmasters Throughout the County State Officially that Review List is O. K.

The Bulletin charges that the Review is being sent to a lot of people who never subscribed for it, who do not want it, who have tried in vain to stop it and who are being compelled to take it by the relentless persecution of having the Review sent to them each week, willy nilly. Such a charge is important, if true.

We would sympathize with these poor persecuted ones if the remedy was not so easy and so near at hand.

If any man does not wish to continue taking a paper all he needs to do is to notify his postmaster or his rural carrier. The government makes it a part of the duties of a postmaster to notify the publisher. Of course this does not pay any subscription bills but it does "stop the paper" with any decent publisher.

We are not sending the Review knowingly to any one who does not want it. It costs too much and we do not need subscribers that bad.

As soon as we read the charge against our business methods and integrity as made by the Bulletin we wrote to every postmaster in the county asking if any copies of the Review were being sent to parties who had "refused" them through the postoffice. The Denison postmaster may be a liar and a boss thief, but the Bulletin will hardly prefer that charge against all the postmasters in the county. In order to secure good evidence from the Denison office, we addressed Dr. Kemp as to the Denison list and his statement is appended. We do not think the Bulletin will care to question his veracity.

The replies of the postmasters speak for themselves. It may be that some people who are now taking the Review do not like it. If they will tell their postmaster or notify us they will not be obliged to take it a moment longer. They know that, and so does the Bulletin. It is possible that some subscribers would

like to beat the Review out of its pay by taking the paper week after week without protest or notification of any kind and then declaring that they "never subscribed." Every newspaper has that experience, but the Review list is exceptionally free from such people. The Review has over 1650 subscribers who are PAID IN ADVANCE. The balance are well paid up and we believe the Review list to be one of the best in Iowa in this regard.

We do not object to legitimate competition, we must expect that, and take it without loss of temper, but we do ask fair play.

The following replies from postmasters all over the county speak for themselves.

The Review's Letter.
