Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

Deloit had its share of Halloween's depredations. It doesn't seem right for anyone to take greater privileges on Halloween than other nights and we certainly would not think it was right for any one to go on people's premises and destroy and remove anything at any time they chose so to do. We think it is a bad practice once a year.
