The following article has been handed us by Manager E. N. Sandstrom with a request for its publishing in the Review:

To The Stockholders and Patrons of the Farmers' Lumber and Coal Co.

Is it not well known that some of the lumber yards at Kiron have been doing business "for their health" ever since the Farmers' Lumber and Coal Co. began operations. And we fear that the public will soon have a big doctor's bill to pay especially if the Farmers' yard sells out to its competitors, which question will undoubtedly be decided at the coming meeting of the stockholders to be held in the Kiron hall Jan. 12. Those who organized the Farmers' Lumber and Coal Co. had the two objects in view, to keep only the best lumber and coal and to sell it at the lowest possible prices. They never expected to get rich or to rake in big dividends.

We have nothing but words of praise and kindness for the local managers of the other yards. They are excellent young men. When they sell a bill of lumber at or below cost or "give it away" they are simply obeying orders from headquarters. With scores of other yards to draw from they can keep on selling at cost or below at Kiron and still not lose money. The writer knows that the other yards are tired of doing business at Kiron. The Farmers' yard has saved the people of Kiron and vicinity thousands and thousands of dollars and the people have everything to gain and nothing to lose by keeping it up. Should its doors be closed prices would at once rise to a level of those prevailing in other towns and the writer thinks they would be even higher, as they were before the farmers' yard came on the scene. It is strange but nevertheless true that some of those who are doing the least to support the yard are getting the greatest benefit from it by getting their lumber bills figured at or below cost at other yards. People can be found in all walks of life, who are ready to kick or betray their best friends in order to make or save a few paltry dollars. If they should wake up some bright morning and find their best friend dead or destroyed they would realize but too late that they have made an unpardonable mistake. They will then have to pay the same price as the rest of us, "sinners or saints." Brother farmers and citizens of Kiron and Stockholders of the Farmers' Lumber and Coal Co. we are almost at the top of the

hill shall we buy out, sell out, turn back or go ahead? We will abide by your decision.

Mr. and Mrs. Herman Dreesen of near Herring were pleasant callers in town Tuesday. They brought Mr. Dreesen's mother over for a visit with her daughter, Mrs. Henry Pahl.

Hans Wilken was home from Audubon last week to spend Christmas with his family. After Christmas they packed up and loaded a car and are now getting nicely settled in their new home.

Mr. P. D. Hall was home from DeWitt to spend Christmas with his family. Dick likes it down at DeWitt pretty well but is not sure yet that he will get that station. The probability is that he will leave West Side for good anyway, even though he has to take some other location.

Mr. Curt Eiffert is home for a Christmas vacation with his parents, Mr. and Mrs. Wm. Eiffert, and other relatives. Curt has been at Lansing, Mich., this winter acting as an instructor in a school there but we understand he has now secured a job as government surveyor and will soon go down into New Mexico to begin his work.

Consumption

is, by no means, the dreadful disease it is thought to be—in the beginning.

It can always be stopped—in the beginning. The trouble is: you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home. Take

Christmas day was a great day for the West Side basket ball players and also for the Hopkins Bros.' team of Des Moines. It was great for the West Side boys because they had such easy victims, and great for Hopkins Bros' because they went up against a buzz saw unknowingly. The score was West Side 21, Hopkins 6. The second half went the same way only a little worse, as the visitors got only 11 points to the locals 28. Total score West Side 49, Hopkins 17. The evening game was called a little after 8 o'clock. The first half was 30 to 11 in favor of West Side and the second 15 to 10 in favor of West Side, making the total score for the game 45 to 21.

The next excursion will leave here Tuesday, January 19th, at 1 p. m., and leave Omaha via the Burlington at 4:45 p. m. The trip will give you a splendid idea of THE SUNNY SOUTH, Kansas, Oklahoma, Texas, The Gulf of Mexico, San Antonio, Corpus Christe, Houston, Galveston and Ft. Worth.

Texas Lands are Good Investments--

The tide of immigration is turned that way. On the Camada Ranch where in October there was but a single residence, there are now twelve homes with more building as fast as the carpenters can get the work done. One Third of this beautiful tract of 15000 acres has been sold in two months--nearly all of it to actual settlers. What does that mean if not a speedy increase in land values.

Irrigation is not Needed--

Adjacent to Springfield, the center of Camada Ranch, we saw as fine cotton as there was in Dixie, grown without a particle of irrigation. Winter Vegetables, Fresh Green Peas and all kinds of "Garden Sass" grow well in the rich black soil, and the returns for this kind of farming are simply marvellous. \$300 to \$500 per acre is the yield from many single acres of cabbages, onions and other vegetables.

The Country is Healthy--Camada is not in the swampy, mosquito infested region. It gets the cool Gulf breeze with none of the unpleasant features of the low lands.

Oranges and Lemons--The production of these fruits have gone way beyond the experimental stage. More than 100 miles NORTH of Camada Ranch there successful groves. On orange grove in bearing yields a steady income of more than \$300 per acre--and can be sold for \$1000 per acre.

Civilization--Camada is a Northern settlement, located midway between two towns (Alice and San Diego) of 3000 inhabitants, both of which have excellent church and school facilities.

Easy Payments--These lands are being sold in lots from 10 acres up. Payments can be made MONTHLY, semi-annually or annually to suit purchaser.

No Obligation to Buy--In running the Special Hotel Car at less than cost, Fowler and Brother entertain you as their guests, there is no obligation to buy, but those making the trip are expected to give the matter their consideration and to make inspection of the property. Then if you do not feel that it is to your own interest to buy, do not invest a cent.

If you contemplate making this trip, write at once to **F. W. MEYERS, Denison, Iowa**

Why not get away from winter for a while?
