They Are Planting Corn.

Mrs. E. L. Goodman writes an interesting little note from her new home in Oklahoma, which she likes very much. We quote a part of her letter, as follows:

Walter, Okla., March 18, 1909. Editor Denison Review.

Dear Sir: We like this country fine. Our spring is a little late, but I guess not so late as yours. Both fall and spring small grain look good. A good deal of corn is being planted these days. This is a booming country, and Walter is a booming town. A \$40,000 brick school building is now going up. We expect the county to be divided this fall and the county seat for this section will be Walter. Although we like the country and people very much, we are glad to get our paper to hear from Crawford. Very Truly, MRS. E. L. GOODMAN.

Prof. H. A. Howell, of Havana, Cuba, Recommends Chamberlain's Cough Remedy.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3rd our baby was taken sick with a very severe cold; the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy which we gave, and it afforded prompt relief, and now three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only saved the life of our dear little boy." For sale by Ph. A. Schlumberger. 9-5
