Denison is still on the map. It seemed for a time that with Shaw out of the cabinet, Conner out of Congress and Kuehnle legislated out of office with the rest of the Regents, Denison would have to take a back seat. The appointment of Judge Conner as a member of the board of control puts the good old town back in the lime light however.

We call attention to the advertisement of The Swift Co. Products in this issue of the Review. Every well regulated family has ham and eggs for Easter breakfast and no better ham is made than that put up by Swift & Co. This advertisement in a county seat weekly is in the nature of an experiment on the part of the big packing house, and if you can honestly do so, you will do no only the Review, but every country weekly a good turn if when you buy your Swift Ham for Easter you will tell your retailer that you "saw it in the Review."

"The Review is just as good a paper as I want in my house and my wife thinks so too," said Frank Larson of Deloit as he showed his subscription into the 1910 column last Friday. By the way the Larson family is pretty good to the Review, as there are nineteen Larsons on our subscription list.  
The dear little daughter born to Mr. and Mrs. Ralph Norris on Monday was destined to but a brief existence in this world. Just a little sensitive plant, she endured the ills of life but three days and then returned to the One who loves the children best of all. The grief stricken parents have our most heartfelt sympathy.

### A BRILLIANT LITERARY EFFORT

Hon. Harvey Ingham of Des Moines Speaks at Denison of the Early Inhabitants of Iowa  
On Wednesday night of last week, Hon. Harvey Ingham, editor of the Des Moines Register and Leader, delivered his splendid lecture, "The Tragedy of the Frontier," to an appreciative audience at the opera house. Mr. Ingham sustained his reputation as a platform orator. He is a brilliant and fluent speaker. His rapid introduction of Indian Chiefs with unpronounceable names, and his account of the struggles between the different Indian tribes, as well as the gradual displacement of the Indians by the white people, was most graphically presented. He must have given patient attention to marshalling the facts which he recited, in order to challenge and hold the attention of his audience, as he did on this occasion. Mr. Ingham is an Iowa man who has made good as an editor, thinker and orator.

The fire companies were called out on Saturday afternoon by a small fire which had started on the roof of the home of P. H. Rank on Pine street. Miss Hedwig Kohlhoff living with Mrs. Jocks next door discovered the fire, sent in the alarm and then called Mrs. Rank. A ladder being found she mounted the roof to put out the flames. Mrs. Rank and her daughter helped in getting water, and the women folks had the honor of putting the fire out, before the firemen could get to the scene. Sparks from the chimney falling on a dry roof was said to be the cause. Little damage was done.
