### The High School Athletes

The High School is beginning to sit up and take notice that it is spring and time for track teams and glory. A field meet with Ida Grove which was to have been held May 8th has been declared off but the boys are still interested. A number of the proposed team have had some training in track work and prospects are good. Nielsen is the heavy weight man without a near competitor. Sprinting honors are claimed by Dannels, Richardson, Strahan, Menagh, Terry and Dannels. Alva Dannels has a cinch on the pole vault while the Hurdle are still in the air. With a suitable supply of snap and ginger the boys ought to put up a good team for the Des Moines meet.

Buried about a foot and a half deep in the clay bank that beautifies South Main street, is the upper jaw bone of some animal. The bone and the teeth are in a good state of preservation but it must have been there sometime as it is far below the grass roots. Look for it when you go to the No. 3 western depot next time.

A representative of The Inter-State Accident Insurance Company of Des Moines called on us to day. When we declined to swap advertising for insurance he commenced cussing. For the past two weeks a committee of lawyers, appointed by Judge Church has been sitting as an investigating committee on charges preferred against P. W. Harding. The committee consists of Jacob Sims, P. E. C. Lally and E. K. Burch. Many witnesses have been examined and it is said that the hearing will continue for several days. The committee is in the nature of a grand jury and can decide only as to whether the charges warrant further action or are groundless. Mr. Harding denies any culpability. While cognizant of the facts as above stated since the appointment of the committee, the Review has refrained from any mention. We find however that the matter is widely known and as it has appeared in the daily papers of the state we do not think we can be doing any injustice by a statement of the facts such as our readers are entitled to.
