

More Profit in Stock Raising

can be made if the digestive capacity of your animals is increased and perfect health maintained. Dr. Hess Stock Food is the prescription of Dr. Hess (M. D., D. V. S.) for increasing the digestion, regulating the bowels, purifying the blood and relieving the minor stock ailments.

A healthy animal only digests about 50 per cent. of its food. By the addition of bitter tonics this amount can be increased. If a healthy animal can be improved, think of the profit in feeding.

Dr. Hess Stock Food

to an unthrifty animal. It restores health and compels the animal to convert the largest possible percentage of the food eaten into bone, muscle, milk, fat, etc., permitting less to pass off as waste.

Dr. Hess Stock Food is the scientific kind; it has the medical and veterinary institutions back of it. Sold on a written guarantee.

Housekeepers will be delighted to have their kitchen floors covered with : : : **Richardson's** Long-Wearing Linoleum Because it saves not only a lot of hard scrubbing, but much time is also saved as it is easier to clean than a wood floor : : : :

Linoleum is best for Dining Rooms, Kitchens, Bath Rooms, Halls; because it does not hold the dust or crumbs; therefore it is much more sanitary than any other floor covering.

For the reason:

It does not absorb water like wood. It is not slippery when wet. It is elastic and noiseless to the tread. It is reasonable in price. It will wear for years. It is absolutely antiseptic---repels disease germs and may be washed or sprayed with disinfectants without damage. It is comfortable to the feet---an electric cushion that is easier to stand on than any other floor covering.
