

**Don't Buy Stock Food Until You Investigate Dr. Hess' Written Guarantee**

Remember that every pound of Dr. Hess Stock Food is sold on a written guarantee signed by a responsible firm with a world-wide reputation, and we are here ready to refund every cent to a dissatisfied customer. There is a certainty about the results of feeding.

**Dr. Hess Stock Food**

It is not the food ration kind. To give stock a tonic to promote digestion, a laxative to regulate the bowels, iron to enrich the blood, nitrates to throw off poisonous waste material from the system is Dr. Hess' idea to increase the feeder's profit and back of it is every medical writer, every medical institution. Dr. Hess Stock Food by acting on the system makes two bushels of corn equal to about three the old way of feeding. Besides, it relieves the minor stock ailments. Remember the price. 100 lbs. for \$3; 25 lb. pail for \$1.60. Smaller quantities at just a slight advance.

Do you eat enough of this

The great benefit in health and strength that always is enjoyed by regular eaters of good oatmeal is known the world over. Every year there are more and more eaters of Quaker Oats, which is recognized in this country and in Europe as the one perfect oatmeal.

All the experiments of the government food experts and the athletic trainers of Yale University prove that cereal eaters are the strongest and healthiest, and Quaker Oats stands at the head of the list of cereal foods. It is not only the best food, but it's the cheapest food on earth. Eat it daily for breakfast.

The large size family package of Quaker Oats, with a handsome piece of china, sells at 30c; without the china, 25c. The regular size package costs 10c.
