## STRANGE EPIDEMIC RAGES AT SCHLESWIG

SCORES OF YOUNG PEOPLE STRICKEN WITH TYPHOID SYMPTOMS

### DOCTORS WORK NIGHT AND DAY

No Fatalities as Yet: But Epidemic is Spreading Rapidly Twelve New Cases Reported Yesterday.

The city of Schleswig is in the throes of one of the worst epidemics ever known in this part of Iowa. According to a special telephone report to the Review yesterday there are probably eighty serious cases of the infectious disease now under the doctor's care. One physician reported that he had twelve new cases on Wednesday. So far there have been no fatalities and several are now on the road to recovery, these being the ones who were first taken with the disease before it was apparent that an epidemic was at hand. The victims are nearly all young people. No children have been stricken and but few people of forty or upwards. The young people from fifteen to twenty-five seem to be the most vulnerable. The symptoms are those of typhoid fever. Abdominal pains, pain in the back, the eyes hurt, there are severe headaches followed by the usual symptoms of typhoid. The fever runs about nine or ten days. The tongue is black and the suffering is severe. The water used in the city has been sent to Iowa City for analysis but according to the report no typhoid germs were found. Another sample was sent last night. The situation is a serious one and if the disease continues to spread Schleswig may be compelled to ask for outside help.

### THEY WILL TAKE DEPOSITIONS

Attorneys Lally and Sims Leave For Idaho to Take Depositions in the Harding Case

Attorneys P. E. C. Lally and Jacob Sims left on Sunday for Idaho Springs, Idaho, to take depositions in the "diabarnment case against P. W. Harding, Count Six of the charges against Mr. Harding recites that "Mr. Harding while acting as attorney for Mrs. Anell Ainsworth of Ute, Iowa, and her brothers and sisters, heirs of Caleb Squibbs, who at the time of his death had property in Idaho to the amount of sixteen thousand dollars, by various devices and misrepresentations, without consideration, has obtained possession of the said estate belonging to his clients and refuses to make any report or to account for any part thereof, in violation of the confidence reposed in him as an attorney, and in fraud of the rights of his clients." It is this charge which the attorneys have gone to Idaho to attempt to substantiate. We understand that the court has allowed sufficient to cover the expense of this investigation but that attorneys are bound, under oath to perform such duties without compensation for their services. The trial of this case is set for August 18th, and we are informed by the attorneys for the state that they will be ready for trial.

## TAR DILL DEATS THE CHAUTAUQUA

NEITHER LA FOLLETTE NOR CHAMP CLARK WILL BE PRESENE

### NEBRASKA GOVERNOR TO COME

Substitutes For LaFollette, While "Bob" Seeds Takes the Place of Champ Clark on Tuesday

The Chautauqua is up against the tariff bill in dead earnest. LaFollette has talked so much in the Senate that neither he nor Champ Clark can fill their Chautauqua dates in Denison. It is not the fault of the "system" this time but the disappointment will be great nevertheless. Those who have been watching the course of the tariff bill have felt for some time that it would be impossible for these stars to come to Denison this month. The management has done the best possible under the circumstances to secure good talent to substitute. On Monday the Hon. Ashton Shallenberger, the first democratic Governor Nebraska has had for twenty years will take LaFollette's place. He is the man whose carnival invitation the Elks of Omaha withdrew because he signed the daylight liquor law. It was just like the Elks. Gov. Shallenberger is an enthusiast and a purist in politics. He is a great friend of William Jennings Bryan. His subject will be "Political Patriotism" and he will devote much time to the interference of the judiciary with good government by the people. The democratic county of Crawford ought to give him a fine audience.

To take the place of Hon. Champ Clark the famous "heart interest" lecturer, "Bob" Seeds has been secured. He is one of the Chautauqua favorites throughout the country and we believe his talk will be as satisfactory in the long run as anything Clark could give us. Perhaps it will not be so sensational but it will be every whit as entertaining and while not so contentious it will be just as uplifting. Speaking of Mr. Seeds' lecture an Ohio paper says: "If you didn't laugh last night at Bob Seeds' lecture you're dead. His lecture, 'The Mistakes of Life' called forth roaring laughter and applause from start to finish and each story had a moral and taught a lesson. At the close of the lecture all retired buttonless and happy."

As the management was in no wise to blame there is nothing for Denison folks to do but look pleasant; the program will be a good one and worth the money as it is.

#### Announcement

People from out of town attending Chautauqua next week are all cordially invited to make our store their headquarters and general meeting place. We are open evenings and you may leave your packages here and know you can get them after the lecture. We will be pleased to accommodate you in any way possible. Lamhorn Drug Co., next door to P. O.

We learn that H. H. Saggau, the aged father of John and Martin Saggau of Denison is very sick and that his recovery is doubtful.

## BUYS THE CONTROL OF A BANK

John D. Sievers Purchases Controlling Interest in Citizens National of Worthington, Minnesota

John D. Sievers has closed a deal by which he becomes owner of a majority of the stock of the Citizens National Bank of Worthington, Minn. The bank has a capital of \$25,000 and a surplus of \$10,000 and is located in one of the thriving county seat towns of southwestern Minnesota. It is just a little way from the Iowa line. The people are of a splendid, prosperous and thrifty class and the Citizens National enjoys the confidence of the community to the fullest extent. Mr. Sievers left to-day for Worthington. He will serve the bank in the capacity of President and he will bring to the institution ripe business judgement, long experience in different lines of business, unimpeachable honesty and a high sense of business honor.

The fact that he has been engaged in manufacturing, as a retail merchant and as a farmer on a large scale, will be of great benefit to him in his new position as will the experience which he gained with the Bank of Denison. His first business experience he gained under his father, who was one of the most successful merchants and business men this county has ever known, his banking experience he gained under the tutelage of Leslie M. Shaw, ex-Secretary of the Treasury. Whatever he has undertaken he has carried on successfully and he is equipped in every way to conduct the Worthington Bank on safe, conservative but nevertheless progressive lines. We have known him ever since we can remember and we have never known him to do a dishonest, unmanly or ungenerous thing. We should have been glad indeed had his business plans kept him in Denison among the old friends who know him so well and who think so kindly of him. We know that upon his return from California recently there was an often expressed wish on the part of our business men that he might decide to employ his time and talents and capital in Denison. We can assure the people of Worthington that their new bank president is worthy of every confidence, that he will be a useful and helpful member of their community, that he has that rock-ribbed German honesty ingrained in him and that his word is as good as his bond. Mrs. Sievers, too, will be found fully able to take her place in the social life of the Minnesota city and we are sure that she will be as popular among the ladies of Worthington as Mr. Sievers will be among the business men. The Review but voices the sentiment of the entire community in wishes for good fortune and much happiness and success in the new home.

Mrs. Anna M. Palmer of Des Moines, who is well known to our people and who is one of the national evangelists for the W. C. T. U. will deliver an address at the union service in the Baptist church on next Sunday evening. At this service also Mr. Middleton who is a student in the musical department of Drake University will sing a solo. Mr. Middleton is making evangelistic singing his profession and it will be a pleasure to hear him.

Mrs. A. Lenz has been ill the past week, but is gaining slowly.

## JUDGE ED. S. GARRISON IS HOME

Returns From Panama to Spend Thirty Days Vacation. His Coming was a Surprise.

Judge Edgar S. Garrison of the Panama Canal Zone, is in Denison this week visiting his parents, Mr. T. J. Garrison and wife, and home friends. His coming was unexpected so he took everyone by surprise. It was only a short time before he took steamer for the north that he decided to make use of the thirty days' vacation accorded every officer of the government in his class, annually. Judge Garrison is looking fine and as if the isthmus country agreed with him. He however, keeps up his excellent physique by two or more hours of exercise every day and so he has the muscles of an athlete.

Judge Garrison has now been a resident of the Canal Zone for over four years and so is one of the old timers in a population which is ever changing. He is one of four district judges on the Zone, and holds the record for dispatch in doing business and the fact that he has practically never been overruled by the circuit court. In over three thousand cases in which he has given a decision he has not been appealed from, but in two instances. He is a good mixer among the people and when any of them are brought to his court they have so much confidence in him that it is seldom a lawyer is engaged. Judge Garrison acts as both attorney and judge endeavoring to get at the truth of each case and then giving judgment accordingly.

Judge Garrison says that the business of digging the big canal is going on at a tremendous rate. Under the army officers things have been systematized so that the largest amount of work is done with the least friction and no graft. When the great dam is in place which will make a lake nineteen miles long which will float sea going ships it will take over two years for it to fill with sufficient water. This gives one somewhat of an idea of what a big enterprise is being undertaken.

Ex-Senator Joe Blackburn of Kentucky is governor of the Canal Zone. Judge Garrison says he is a typical southern gentleman of the old school. He has decided to stop drinking, in fact has been a practical abstainer for ten years. His manners are so courteous even to the most humble of the employees who come in contact with him, that he very is popular. The position brings him \$14,000 a year and he expects to retire with sufficient saved to make himself independent for the rest of his days in the "Old Kentucky Home."

Judge Garrison can remain in Denison not over ten days and then he back in Panama when his leave will expire. He has certainly made a success of things since his appointment to a position with the government, and his career as a judge has been striking and unique.

#### Brechtel is Dead

Brechtel, the second brakeman shot near Vail by Clark, the colored prisoner now in the jail at this place awaiting trial, died last night at his home in Boone. The bullet passed through the spinal column and penetrated the lung. It was only his strong vitality which kept him alive for so many days. This makes Clark a double murderer.

## HIGH LINE TRAIN GOES INTO DITCH

NUMBER FIFTY ONE LEAVES TRACK WEST OF SOLDIER ON SATURDAY

### FRANK JACKSON BADLY HURT.

Express Messenger Buried Under Heavy Baggage But is Now Recovering. Several Others Were Injured.

On Saturday morning at ten thirty the tender of train 51 the west bound passenger on the "High Line" left the track two miles west of Soldier. The passenger coach and the combination car were thrown over on their sides and all the passengers and crew received a bad shaking up. The conductor, Wm. Welch received a sharp blow in the back of the head which stunned him temporarily. When he came to, he tells us that he saw Frank Jackson, the well known Denison boy, who is the express and baggage messenger, buried under a heap of heavy trunks and baggage. He said his neck was bent almost double and his pulse had nearly stopped beating. He was pulled out from the wreckage. He recovered his senses in a short time and his first words were as to the money, some \$500, contained in the express safe. When assured that this was safe he sank again into unconsciousness. He was taken to Missouri Valley and it is reported that he is now able to sit up and that he will be home in a few days. He was hurt in the back and in the chest and suffered severe scalp wounds.

Frank Button, road master was on the train. His leg was fractured, but in spite of this he directed the recovery of Jackson's inanimate form and superintended the care of the passengers until he fainted from the pain and exhaustion. A lady from Sioux City was injured, but two little boys with her escaped unhurt. All the other passengers, fortunately few in number, however, were more or less hurt. The train was running slowly. The accident occurred at a curve, but the odd thing is that the cars were thrown off on the inside, instead of the outside of the curve. There are many theories but no one knows exactly how the accident occurred. The continued rains are said to be the cause.

### CANCER CAUSED HIS DEATH

John Riche Relieved By Death After Four Years of Intense Suffering

On Monday, July 12th, the death angel came to the relief of John Riche who for four years has been suffering from a cancer on the face. For two years he has been a patient at the Denison Hospital where he has lived in a little house by himself. Mr. Riche was born in Schleswig, Holstein, Germany, in 1857. His wife died some years ago. He had three children, one living at Battle Creek, one at Sioux City and one in Dakota. None of them were present at the funeral which took place on Tuesday from the undertaking rooms of Barcher & Ewall. We learn that he was a patient sufferer and a kindly man and he was doubtless glad to go from this world of sorrows.

## HE GAVE HIS LIFE FOR HIS FRIEND

HEROIC ARCHIE BRAKE PLUNGES INTO FLOOD TO SAVE COMPANION'S LIFE

### BOTH FIND DEATH IN WAVES

Struck By Guy Rope Dorothy Bruce Falls From Boat, Brake Springs To Rescue and Both are Drowned

The story of a heart breaking tragedy is simply told in the following lines taken from the daily press dispatches and from the pen of our Dow City correspondent. Such a death is heroic, it stands written large upon the annals of humanity. It speaks of innate heroism, for "Greater love hath no man than this, that he lay down his life for his friend."

IOWA FALLS, Ia., July 13.—Special: A double accidental drowning occurred here this afternoon. While riding on a launch Dorothy Bruce was struck by a guy wire and thrown into the water. Hoping to save her, Archie Brake from Dow City, night operator at the Illinois Central depot, jumped in and was drowned. Lena Sperry and Marvin Reynolds were thrown into the water, but saved themselves by grasping the guy wire.

Dow City, Iowa July, 14th.—Special to Review.

This community was cast into gloom Tuesday afternoon when our townsman, Mr. E. R. Brake received a telegram from Iowa Falls that his son, Archie, had been drowned at about four o'clock. He with a young lady friend were out on the river in a gasoline launch, when the lady in reaching for something lost her balance and fell into the water. Archie sprang into the water to save his friend. She caught hold of him, and the swift current drew both under. A number of others were on the river and saw them, but they could not reach them and both were drowned. The bodies were recovered about seven o'clock. Mr. Brake went on the evening train to bring the body of his son home. As yet no farther particulars are at hand, but the obituary will appear next week.

### AMATEUR CYCLONE IN WILLOW

A Swister Strikes Willow Township on Sunday Afternoon Doing Considerable Damage

A young cyclone passed through the country about four miles southeast of Charter Oak Sunday afternoon. It first struck the Peter Brennan place. There it blew the barn partly off its foundation and turned the corn crib around end for end. Near the house a large tree was broken off and blown through the side of the house.

The storm created havoc on the R. H. Sweet place also, there the trees were broken down badly and the fences demolished. The scales were blown over and the windmill lost its wheel and about ten feet of the tower in Charter Oak the wind came up accompanied by the rain, but no damage is reported.

MUSLIN UNDERWEAR at prices that will pay you to investigate.

We have several dozen pieces of silks that we are offering at prices that will pay you to investigate.

- SILK WAISTING, regular 1.00 and 1.25, plain 36 inch messaline, at **69c**
