Some merchants remind us of the Arkansas farmer, who did not patch the roof in dry weather because it did not leak then, and of course he couldn't patch it when it was raining so. During the dull season they do not advertise because it's "no use" and when trade picks up they don't advertise because they don't need to. It is a fact however, that right here in Denison the stores which advertise regularly and consistently are the least affected by dull times. They get the first impetus of the season's trade and the dull season is never so dull with them. It's a fact, think it over.

## KRESO DIP!

Ph. A. Schlumberger,

Denison will have a cracker-jack foot ball team this year. Last year's team was a good one and this year but few of the old team will be missing. They were star players, but there is good material left and it must be remembered that the boys are all heavier and larger than they were a year ago. This with the benefit of last year's experience puts them in good shape for a winning team. It is our hope that this year the boys will be able to trim up Ida Grove. We believe they could have done it last year had the game come a little later in the season. The thought that they were tackling the "champions" rather than the boys, but in the second half when they got over their scare they held Ida Grove in good shape. This year the veterans will not scare so easy and they will be decidedly in the game from the very first of the season.
