Feeding Farm Hands.
Every farmer's wife knows what tremendous appetites farm hands usually have; but while they eat well they work well, too.
Here's a good suggestion about feeding farm hands. Give them plenty of Quaker Oats. A big dish of Quaker Oats porridge with sugar and cream or milk is the greatest breakfast in the world for a man who needs vigor and strength for a long day's work. The man that eats Quaker Oats plentifully and often is the man who does good work without excessive fatigue. There is a sustaining quality in Quaker Oats not found in other foods, and for economy it is at the head of the list. Besides the regular size packages Quaker Oats is packed in large size family packages, with and without china.
