R. J. Moffitt has been busy recently digging his potatoes of which he has several acres. He engaged nearly every child in town, boys and girls at a dollar a day. The enthusiasm ran high for the first day, but after that the ranks were much thinner, the dollar looked big, but the work wasn't such a snap after all, especially for those who had never attempted anything of the kind before.

Little Nellie Welsh is the happiest girl in town, because she is the proud possessor of a brand new piano, which was placed in her home last week. Our town is becoming quite musical. Miss Grace Thomas was the victim of a very serious and painful accident Sunday afternoon. She was standing up in one of the old fashioned rope swings. When quite a distance up the rope broke. She fell to the ground striking on one foot. The ankle bone was broken and driven upward tearing loose all the ligaments. The ankle was also badly sprained. Someone must be bootlegging in Dow City. There is an empty business house on the east side of Main street and some of the habitual drunkards have been seen at different times congregated in an alcove at the back of the building drinking out of bottles. It is not likely they would sneak back there to drink cold tea.

Mr. and Mrs. Robert Woodruff were visiting in Denison Tuesday.

**A Human Alarm Clock.**

Probably one of the most curious means in the world of earning a living is that of the window tapper of Nottingham Hill, England, who is, figuratively speaking, a human alarm clock. He is employed by many persons whose business compels them to start work in the early hours of the morning, and his hours are from 2 a. m. until 8 a. m. He makes his rounds on a triangle, and he rattles at the windows of his clients with a jointed fishing rod. His rattle is more persistent than that of an alarm clock and will not cease until he is certain that the person is not only awake, but out of bed. Thus he makes sure that his patrons will not sleep again.—Popular Mechanics.

**Mrs. Housewife:—There's a Happy Medium in Everything**

Anything that is overdone or underdone is not good. If you use the cheap and Big Can Kinds you are getting quantity at the sacrifice of quality. It cannot be as good—or as economical as Calumet—the medium price kind. If you use the High Price Kind, you are paying tribute to the Trust—the quality is no better.

**Here's the "Full Value" in BAKING POWDER**

**The Cheap and Big Can Kind**

In this can you get more substance but not more baking powder. It is great in quantity only—not in economy—not in satisfaction.

**Calumet**

Calumet, in the Standard 1 lb. can, sells at a moderate cost—but is great in all round satisfaction. You use less of it—it makes the baking lighter, purer—more delicious. One baking will prove its superiority—try it. Ask your grocer and insist on Calumet. Free—large handsome recipe book. Send for a slip found in pound can.

**The Trust Kind**

Great in price, little in quantity and the quality is no better—if as good.

Calumet Baking Powder Co., Chicago
