

Does Not Stimulate

Ayer's Sarsaparilla does not stimulate. It does not make you feel better one day, then as bad as ever the next. It is not a strong drink. No reaction after you stop using it. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic and alternative. We wish you would ask your doctor about this. He knows. Trust him. Do as he says. J. C. Ayer Co., Lowell, Mass.

What are Ayer's Pills? Liver Pills. How long have they been sold? Nearly sixty years. Do doctors recommend them? Ask your own doctor and find out.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you will have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
