Many "Hopeless" Cases Soon Cured After 5 to 20 Doctors Failed.

At first no disease is apparently more harmless than dropsy, a little swelling of the eyelids, hands, feet, ankles or abdomen. Finally there is great shortness of breath, smothering spells, sitting up to breathe, cough, faint spells, sometimes nausea and vomiting, even bursting of the limbs and a lingering and wretched death if the dropsy is not removed.
Dr. Miles has been known as a leading specialist in these diseases for 30 years. His liberal offer is certainly worthy of serious consideration. You may not have another opportunity.
The Grand Dropsy Treatment consists of three dropsy remedies in one, also Tonic Tablets, and Pura Laxa for removing the water. This treatment is specially prepared for each patient and is at least three times as successful as that of most physicians. It relieves the first day, and removes swelling in six days in most cases.
