

Will Charter Oak Have a Base Ball Team?

This is the question that is agitating the fans right now. If we do have one, it will require money to finance it and the fans declare that it is not so much a question of men as it is of money.

Calhoun County Republican: The Carroll Herald is only speaking sound words of wisdom when it says that Web Byers is no fit timber for an Iowa congressman.

Mapleton Press: A wrestling match which was to have been pulled off at Cushing one evening last week was called off by the referee when one of the principals was found to have his teeth filed to a razor edge and the other insisted on going onto the mat wearing brass "knucks."

Coon Rapids Enterprise: The insurgents having made war on the president from the start need not be surprised to find the worm is capable of turning. The regulars are put in such a position as to either entirely submit to insurgent imposition or else fight for their lives, and they will fight.

Coon Rapids Enterprise: Reports from Washington indicate that President Taft is thoroughly aroused against both Iowa senators for what he regards their continual efforts to embarrass his administration.

I have between 60 and 75 tons of timothy and clover hay for sale. James Finerau, 4 miles west of Denison in Denison Twp. Tel. No. 391.6t

Onawa Sentinel: "The people of the United States do not want me for their next president," Mr. Roosevelt once declared in private conversation. "They may think they do, but they don't," he continued. "I am a pioneer, I wield an ax and I have blazed the trail through many forests and over many obstacles. Now the country wants a careful, constructive engineer, who will convert my corduroy roads into well built and permanent macadam highways, along which the business of the country may proceed without jar and without interruption. The man who can fill the bill is 'Will' Taft." That was in the fall of 1907, and it is a safe proposition that those who view with unprejudiced eye in the fall of 1911 the achievements of President Taft will have occasion to reflect that the presidency of Theodore Roosevelt four years before was as trustworthy as the experience of most of his contemporaries.

Few Attain Long Life. Taking the average for the world around fewer than half of the babies born live to be 50 years of age.

Neuralgia In the Face

Long standing case completely cured by DR. A. W. CHASE'S NERVE PILLS. Headache and Neuralgia. What hosts of people seek for cure of these ailments. And in vain. Because they are misled by going after medicines which only relieve. Dr. A. W. Chase's Nerve Pills are not a relief for headaches and neuralgia, but they are a thorough cure in the only way these troubles can ever be really cured—by restoring the nervous system. Mrs. E. Bridgen, 312 East Adams St., Syracuse, N. Y., states: "Until I used Dr. A. W. Chase's Nerve Pills I was never free from attacks of distressing neuralgia in cold months and suffered from a draft even in summer time. Other remedies relieved only, but these Nerve Pills stopped the attacks, due I believe to their building up power." Neuralgia and nervous headaches are always an indication of exhausted nerves. Make the cure thorough by using Dr. A. W. Chase's Nerve Pills, 50 cts. at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every box.

BOX FOR TESTING CORN

PROF. HOLDEN, OF AMES, TELLS HOW TO MAKE A GERMINATION BOX, MINISTERS PREACH ABOUT IT.

IT CAN BE MADE BY ANYONE

Get Rid of the Poor Ears, Those Showing Weak Germination as Well as the Bad Ones.

The most practical way for testing the germination of each ear of seed corn is by using a germination box. This is a simple affair and can be made by any one in an hour. Any box about 3 or 4 inches deep and 30 by 30 inches in size may be used. Fill the box about half full of moist sawdust well pressed down so that it will leave a smooth even surface. The sawdust should be put in a gunny sack and set in a tub of warm water for at least an hour (or still better over night) so that it will be thoroughly moistened before using. Rule off a piece of good white cloth (sheeting) about the size of the box, checker board fashion, two and a half inches each way. Number the squares 1, 2, 3, and so on. Place it over the sawdust and tack the box at the corners and edges. Lay out the ears to be tested side by side on the floor; remove one kernel from near the but, middle, and tip of the ear; turn the ear over and remove three kernels from the opposite side in like manner, making six kernels in all thus securing a sample from the entire ear. Place the six kernels at the end of the ear from which they are taken. Use care that the kernels do not get mixed with the kernels from the ear next to it. After the kernels are removed boards may be laid over the rows of corn to keep them in place until the germination is known. Place the kernels from the ear of corn no. 1 in square no. 1 of the germination box; from ear no. 2 in square no. 2 and so on with all the ears. Lay a piece of good cloth on top of the kernels and dampen by sprinkling water over it. Then place over this a cloth considerably larger than the box and fill in on top of this with about two inches of moist sawdust and press down firmly, folding the edge of cloth to cover the sawdust. Keep in a warm place where it will not freeze. The kernels will germinate in about six days. Then remove the cover carefully to avoid displacing the kernels in the squares. Examine the kernels in the germination box and discard all ears that are worthless or show weak germination.

This box as it is made up with the corn in it and ready to be set away for germination may be described as follows: Two inches of moist sawdust firmly packed in the bottom; then laid upon this sawdust is the germination cloth (ruled in squares) with the kernels of corn laid upon it, a second cloth spread over the kernels, then a third cloth larger than the box spread over this with two inches of moist sawdust packed firmly over this. Be sure to soak the sawdust at least one hour or better still over night. Use good quality of cloth (sheeting) for the cloth that is marked off in squares and the cloth which is laid over the kernels. Leave at least two inches margin around the edges of the box to prevent freezing and drying out. Rule the cloth off in large squares (2 1/2 by 2 1/2 inches). Never use the box the second time without first thoroughly scalding both the cloths and sawdust. (The cloth better be untacked and the sawdust removed to do this.) Do not open too soon. The stem sprouts should be at least two inches long. Throw out all ears showing weak germination as well as the worthless ones.

LOW COLONIST RATES TO PACIFIC COAST

For daily and personally conducted tours, via the Chicago, Union Pacific & North Western Line. Personally conducted California tours in Pullman tourist sleeping cars leave Chicago every Tuesday and Thursday. Double berth Chicago to the Coast \$7.00. For full particulars write S. A. Hutchison, Mgr. Tours Dept., 212 Clark St., Chicago, or apply to ticket agents North Western Line. 10-3

For Sale

My property in northeast Denison a five roomed cottage, house and three lots, some shrubbery and fruit trees. Will sell at a bargain if taken soon. Ninus Montgomery, Denison, Iowa.

Oklahoma and its Opportunities

VIRGIN TOWNS, ON A VIRGIN ROAD, IN A VIRGIN STATE.

Where the Promises of To-Day Sees Fulfillment Tomorrow.

We are opening up new towns along the line of the Missouri, Oklahoma and Gulf Railroad (the Gulf Route) in the very heart of the most fertile and productive section of this virgin State. Corn and cotton, wheat oats and small grain never fail (a strong statement but a true one.) Mild winters, good water and plenty of it, make this the best country in the world to raise graded cattle, hogs and poultry. With such lands around it a town at once grows into a city. "It is the Oklahoma way." Get in on the ground floor. Start in now when a few hundred dollars will lay the foundation of a future fortune. Railroad backing and these references: Missouri, Oklahoma & Gulf Railroad; Commercial National Bank, Muskogee; Oklahoma State Bank, Muskogee; Oklahoma Trust Company, Muskogee; and Pioneer Trust Company, Kansas City, Missouri.

STATE OF IOWA OFFICE OF Auditor of State ANNUAL CERTIFICATE FOR PUBLICATION

DES MOINES, IOWA, March 1, 1910. Whereas, The DELAWARE INSURANCE COMPANY, located at Philadelphia in the State of Pennsylvania, has filed in this office a sworn statement of its condition on the thirty-first day of December, 1909, in accordance with the provisions of Chapter 4 Title 9 of the Code of Iowa, relating to Insurance Companies; and whereas said statement shows that said Insurance Company has complied with the laws of this State relating to insurance. Therefore, in pursuance of law I, JOHN L. BLEAKLY, Auditor of State, do hereby certify that said Insurance Company is authorized to transact the business of Fire Insurance in the State by agents properly appointed, as required by law, until the first day of March A. D. 1910. I further certify that the statement: 1st. The actual amount of paid-up Capital of said Company, Dec. 31, 1909, to be \$40000 00 2d. The aggregate amount of the Assets of said Company, Dec. 31, 1909, to be \$225716 87 3d. The aggregate amount of Liabilities of said Company, including the amount required to safely reinsure all outstanding risks, Dec. 31, 1909, to be \$203824 76 4th. The aggregate income of said Company for the year 1909, to be \$177946 80 5th. The aggregate expenditures of said Company for the year 1909, to be \$159204 08 IN TESTIMONY WHEREOF, I have subscribed my name and affixed the Seal of my office the day and date above written. JOHN L. BLEAKLY, Auditor of State.

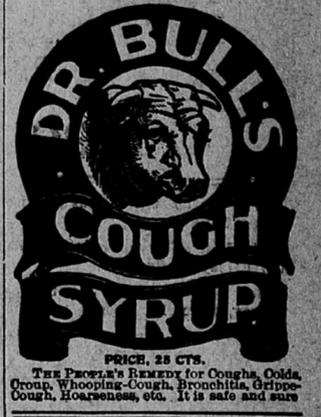

Baking Economy

By the use of perfect baking powder the housewife can derive as much economy as from any other article used in baking and cooking. In selecting a baking powder, therefore, care should be exercised to purchase one that retains its original strength and always remains the same, thus making the food sweet and wholesome, and producing sufficient leavening gas to make the baking light. Very little of this leavening gas is produced by the cheap baking powders making it necessary to use double the quantity ordinarily required to secure good results. You cannot experiment every time you make a cake or biscuits, or test the strength of your baking powder to find out how much of it you should use; yet with most baking powders you should do this, for they are put together so carelessly they are never uniform, the quality and strength varying with each can purchased. Calumet Baking Powder is made of chemically pure ingredients of tested strength. Experienced chemists put it up. The proportions of the different materials remain always the same. Sealed in air-tight cans, Calumet Baking Powder does not alter in strength and is not affected by atmospheric changes. In using Calumet you are bound to have uniform bread, cake or biscuits, as Calumet does not contain any cheap, useless adulterating ingredients so commonly used to increase the weight. Further, it produces pure wholesome food and is a baking powder of rare merit; therefore, is recommended by leading physicians and chemists. It complies with all pure food laws, both STATE and NATIONAL. The goods are moderate in price, and any lady purchasing Calumet from her grocer, if not satisfied with it, can return it and have her money refunded. 11-1

Easy Terms on Irrigated Lands.

With fully paid up perpetual water rights. One TENTH cash, balance one to TWENTY years. These lands are within easy driving distance of Denver, Colorado, a city of over two hundred thousand people. These lands produce from \$50 to \$500 an acre yearly. They rent readily, and are profitable either as a home or investment. Good representatives wanted. ISAAC CONNER Omaha, Nebr.

Uncle Ezra Says: "It's a short road that has no temptations for the automobile speeder."

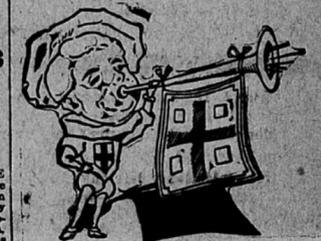

The Orange Judd Farmer

Will be sent one year FREE to all advance paying REVIEW subscribers who wish it.

When remitting please say whether you wish it or not.

If you do not care for a farm paper yourself we will send it as a present from you to any one you may designate.

Calling Attention

to our up-to-date equipment, pointing out the superior quality of the stone we use, means ultimately that prospective purchasers will buy here. This yard is thoroughly equipped for the prompt handling of satisfactory, artistic monument work—and our prices will please every one by their reasonableness.

CHALMERS

CHALMERS "30" TOURING CAR.

CHALMERS

Chalmers "30" Touring Car \$1500.

Chalmers "40" Touring Car \$2750.

THE STURDY CHALMERS

The Chalmers is built for the discriminating buyer—he who appreciates quality rather than a long discount. In the purchase of an automobile, the city fellow has a big advantage over his country cousin, for the reason that he has the time and the opportunity to thoroughly investigate everything offered for sale.

We point with pride to the fact that in the past twelve months, there has been sold in Omaha more than fifty Chalmers cars, and

we point with still greater pride to the fact that every single one of these customers is a satisfied Chalmers owner.

This represents more cars under two thousand dollars than have been sold during the same period by all the other Omaha dealers combined. Let us send you a list of these owners. Talk to one or all of them and ascertain what their satisfaction and average cost of up-keep has been.

It means something. Think it over.
