CATTLE. Sharp advances and declines in prices characterized the market the past week and at the close values show more or less decline all along the line. Despite the liberally liberal supplies the demand was active the first part of the week and values stronger, but during the latter part of the week the early strength completely disappeared and prices went down even more rapidly than they had gone up. Strictly good to choice finished, beefs have been scarce enough and in sufficiently vigorous demand to command good figures right along while the medium and common grades show a decline of 25 to 40c as compared with the best time. It has been the same way with cows and heifers. The best grades have not suffered so very much, while the medium and common grades are all of 30 to 50c lower than they were a week ago. A good volume of business has been done in stockers and feeders but late in the week the comparatively high level of prices, and the press of farm work operated to decrease the demand, and prices dropped sharply, showing a 25 to 40c loss for the week for all but the best fleshy grades. Quite a good many stockers and feeders were still unsold at the close.

HOGS. Prices scored a further advance this week and recorded new high water marks, although the supply was tolerably liberal most of the time. Demand from local packers held up well while there has been an improvement in the inquiry for shipping account and all retail offerings have been cleaned up every day in good season. Quality continues good with a preponderance of barrows in the offerings indicating that farmers are holding back their sows for breeding purposes. All classes of buyers are looking for weight but they are paying rather more attention to quality than to weight, as the big bulk of the hogs are going into immediate consumption. There is not a very wide range of prices, and the undertone to the market continues strong despite the high level of values. The following table shows the range of prices and average cost of the hogs for the past week:

K	H	Heavy	Light	Mixed	Bulk	Aver	
21	60-70	35	60	00-00	50	60	52%
22	50-67	35	55	00-00	45	55	49%

SHEEP.

Under the influence of very moderate supplies and a vigorous demand for all classes of stock the market has been active and strong all week, and desirable muttons and lambs are selling at the highest prices ever recorded at this point. Little business in the feeder line is being done, and yet the country is taking out a few head right along, and paying about as much as the packers for anything that suits their purposes.

Stops Lameness

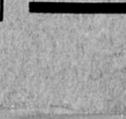

Much of the chronic lameness in horses is due to neglect. See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first sign of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

Here's the Proof.

Mr. G. T. Roberts of Reaca, Ga., R.F.D. No. 3, writes:—"I have used your Liniment on a horse for several years and effected a thorough cure. I also removed a spavin on a mule. This spavin was as large as a guinea egg. In my estimation the best remedy for lameness and soreness is

Sloan's Liniment

Mr. H. M. Gibbs, of Lawrence, Kans., R.F.D. No. 3, writes:—"Your Liniment is the best that I have ever used. I had a mare with an abscess on her neck and one 50c bottle of Sloan's Liniment entirely cured her. I keep it around all the time for galls and small swellings and for everything about the stock."

Sloan's Liniment will kill a spavin, curb or splint, reduce joint puffs and swollen joints, and is a sure and speedy remedy for fistula, swellings, founder and thrush. Price 50c. and \$1.00. Sloan's book on horses, cattle, sheep and poultry sent free. Address: Dr. Earl S. Sloan, Boston, Mass., U.S.A.
