**The Review for Job Work.**

For four years the merchants of Denison have been selling Yeast Foam at 3c per package, as the wholesale price is controlled by an agreement between the manufacturers and the distributors, and no one merchant buys it cheaper than another. For the past year Yeast Foam has cost the retailer 3 1/2c per package, and for him to sell it at 3c is pernicious and not good merchandising. Therefore here and after this date, we will sell Yeast Foam at 5c per package, or 6 for 25c. J. B. Lyon. 15-1
