and will probably get along all right. There is a great deal of complaint of chicken thieves about town. A number report losses. Ed Brake heard his chickens being disturbed one night and went out, but as the thief ran he lost his chickens and they found them the next day outside of the park. People who steal chickens should remember that it is a penitentiary offense and they are liable to get caught.

The yield of wheat that is being threshed proves that this year's crop is a sure record-breaker. M. A. Riley has just threshed a piece of spring wheat which yielded a little over thirty bushels per acre. He threshed twenty acres of wheat and got six hundred and forty bushels. That of A. L. Jackson yielded a little over twenty-eight bushels per acre.

OMAHA MARKET LETTER.

UNION STOCK YARDS.
This week opens out with another fairly liberal run of cattle, there being 306 loads reported in.

Beef Steers—The proportion of fat cattle included in the liberal run was small and with a good demand from both local packers and eastern buyers, the trade was active from the start and prices were steady to stronger for anything at all desirable in this line. Strictly good to choice beefs were scarce and there is a good demand from the dressed beef men and they do not seem to be so particular as they were a couple of weeks ago, even the short fed and partly fattened grades selling to a good advantage.

Good to choice hogs..... \$7.00 7.85
Fair to good hogs..... 6.00 6.90
Common to fair hogs..... 4.75 5.75

Stockers and Feeders—With very little stuff being carried over from last week, all buyers were out early after supplies and desirable offerings of all weights commanded a ready sale at steady to strong figures. Most of the inquiry from the country was for the good light and medium weight stuff, as recent general rains have revived pastures and assured a plentiful supply of rough feed for the winter. Killers are after the heavier fleshy grades and there is a good outlet for all but the very inferior light weight steers and heifers and these are hard to move with the tone of the market decidedly weak. All useful offerings were in active demand and strong. The demand for stockers and feeders was never better so early in the season.

Choice to prime feeders..... \$5.00 5.85
Good to choice feeders..... 4.40 5.20
Fair to good feeders..... 3.60 4.30
Common to fair..... 3.00 3.80
Stock heifers..... 2.85 3.60

Cows and Mixed Stock—There was a good demand for all useful grades of cows and heifers and prices were steady to strong for anything good enough to bring out competition. Local packers and outside butchers all had liberal orders to fill and while receipts were tolerably liberal there was a good outlet for decent butcher and beef stock and even the common and canning grades sold fully as well as last week. Veal calves were in liberal supply and fair demand with prices just about steady at last week's heavy decline. Inquiry for bulls, stags, etc. continues good and prices were fully steady for anything in this line.

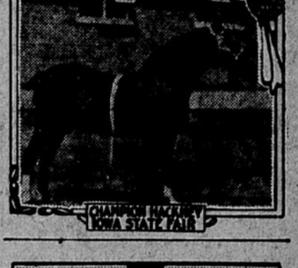

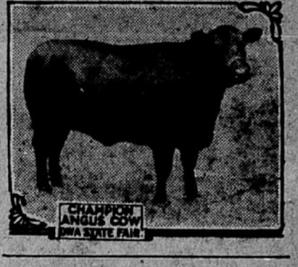

Good to choice cows & hfs..... \$4.50 5.50
Fair to good grades..... 3.50 4.25
Canners and cutters..... 2.25 3.25
Veal calves..... 2.50 3.50
Bulls, stags, etc..... 2.25 3.50

Hogs—On a very light supply of hogs, prices advanced 15c, the bulk of receipts selling on this basis. Some early business was done at figures 10 to 15c higher, but the tone to the trade improved considerably after the first rounds. Heavy hogs sold at \$7.75 to \$7.80 and good mixed moved around the \$8.00 mark. Selected lights brought the highest prices, selling as high as \$8.35. Bulk ranged from \$7.75 to \$8.00.

Sheep—The run of sheep was the heaviest thus far this year. The early hours did not produce many sales owing to the delay caused in sorting and separating fat and feeder quality so that the market was not fairly opened until well along toward noon. When trading finally started more or less weakness was apparent in the scale of prices on fat stock. Fat lambs had to sell around 15 to 25c lower. Good sheep did not suffer as much, a few selected bands going at prices no worse than barely steady to 10c lower. Most of the business was done on a 10 to 15c lower basis and closing rounds were decidedly weak at the full decline. Feeder classes did not

share in the decline as plenty of buyers were found in almost every alley and quotably firm figures were paid as a rule.

Good to choice lambs..... \$6.35 6.75
Fair to good lambs..... 5.10 6.35
Feeding lambs..... 5.50 6.00
Handy weight yearlings..... 8.00 8.35
Heavy yearlings..... 4.50 4.90
Heavy feeding yearlings..... 4.50 5.10
Good to choice wethers..... 3.75 4.25
Fair to good wethers..... 3.40 3.75
Feeding wethers..... 3.40 3.85
Breeding ewes..... 4.00 4.50
Fat ewes..... 3.25 3.75
Feeding ewes..... 2.50 3.35

Boy Had Fits For 6 Years

Best doctors gave him up—cured by DR. A. W. CHASE'S NERVE PILLS

Mrs. J. D. Palmer, 38 Park St., Amsterdam, N. Y., writes: "When six years of age my boy began to have fits. They came on in the night. He would make strange noises, stiffen out, froth at mouth, face would twitch and sometimes turned purple. After the fit he could not talk.

"The family physician said all he could do was to keep them down somewhat. The second physician pronounced trouble Jeffersonian epilepsy, but could not cure him. He suffered for six years and before beginning the use of Dr. A. W. Chase's Nerve Pills had three fits in about five days. He has taken seven boxes and has not had the symptom of a fit since beginning this treatment five months ago. His color has greatly improved; he is not nervous and irritable like he used to be, and we consider his cure a most remarkable one."

Dr. A. W. Chase's Nerve Pills fifty cts. a box, all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portraits and signature of A. W. Chase, M. D., on every box.
