### New Postoffice Ruling.

Hereafter, people who send mailing matter to be registered must endorse on the letter or package "Return receipt demanded." If they desire a receipt returned to them from the party to whom the package is sent. This is in accordance with a new ruling of the registry department, notice of which has been received by postmasters. The announcement as made by the department is as follows: "No return receipt card should be prepared for a domestic registered package not endorsed 'receipt required' or words of similar import. Until further notice employees accepting mail for registration must ask if a return receipt is desired. If a return receipt is desired, it should be so stated on the package or none will be sent." The new ruling has already gone into effect. The department is making exerts to simplify the postoffice service and this is regarded as a move in that direction.—Ida, County Pioneer.

### Don't Mind That.

Prospective Patient (timidly)—I thought this was a "Painless Dental Parlor."

Dentist (reassuringly)—It is.

Prospective Patient—But what are those awful yells I hear?

Dentist—Oh! those are from the charity patients!—Cleveland Leader.

## Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

## Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Dunlap Reporter: On Thursday a deal was closed whereby the subscription list, good will and business of the Dunlap Herald was taken over by the Dunlap Reporter, and beginning with the next issue the patrons of both papers will be served with The Dunlap Reporter and Herald.

This action has been under consideration for some time, being encouraged by practically all the business men of Dunlap, who believe that the change will result for the best; and as the main support of all newspapers comes from the advertisers, the change has been made.

Mr. Child will move his printing plant away and we understand has a very flattering offer to locate elsewhere.

Beginning with September 1st, the Reporter and Herald will be conducted under the firm name of Thos. E. Caverly & Son, and the new proprietors solicit a continuance of the patronage given to both papers in the past.

### Just As Good.

Chollie Spooner—Jimmy, can you get me a lock of your sister's hair?

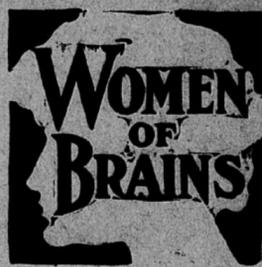

Jimmy—Nope, she locks her door nights. But I can tell you where she buys it.—Cleveland Leader.

"I notice that you usually tell the truth."

"Yes; I've found that telling lies gets you into almost as much trouble"—Louisville Courier-Journal.

"See here, young man," said the stern parents, "why is it that you are always behind in your studies?"

"Because," explained the youngster, "if I wasn't behind I could not pursue them."—Chicago News.

### WEATHER CROP BULLETIN.

For the week ending Aug. 28, 1910. Des Moines, Iowa.

The fore part of the week was excessively warm, but the latter half was cool and pleasant. A trace of frost was observed on low ground on the morning of the 26th in several localities in the central, western and northern districts, but no damage was reported. Last year the first light frost occurred on August 29th. The rainfall was light and considerably below the normal except over the east central counties where copious to heavy showers occurred on Wednesday night. A severe rain and hail storm passed over portions of Henry and northern Van Buren counties on the night of the 20th which did a great deal of damage to crops. Over the larger part of the state corn is holding its own and the early planted fields are making satisfactory progress towards maturity, but in other localities, comprising about one-third of the state, there has been some loss on account of lack of moisture. The crop as a whole is a week to ten days later than the average for the last week in August. Fall plowing is progressing rapidly in localities where rains have been heavy enough to soften the ground. Thrashing is nearing completion in many sections, and reports continue to show good yields and excellent quality of all small grains.

Following is a summary of the August 25th reports received from crop correspondents of the Iowa Weather and Crop Service. The average condition of the corn crop was estimated at 89 per cent, which is 1.5 per cent lower than on August 15th.

It was estimated that with normal weather, about one-third of the corn would be safe from frost by September 15th; 60 per cent on the 25th; 75 per cent on the 30th, and 95 per cent on October 10th.

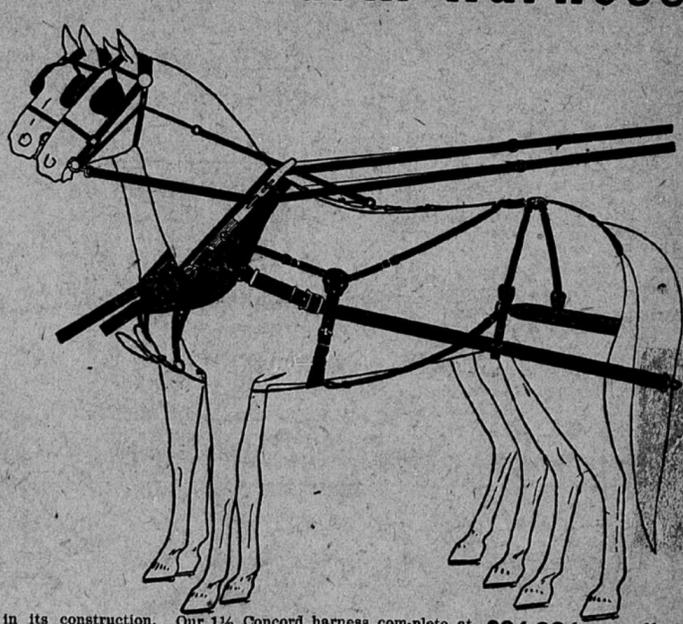

The average condition of late potatoes was 53 per cent or 10 per cent less than on August 1st.

About two-thirds of the thrashing has been completed and preliminary reports indicate average yields as follows: Winter wheat, 23 bushels per acre; spring wheat, 21; oats, 39; barley, 30; rye, 21; and timothy seed, 3.6 bushels. The average yield of grain is subject to change after the receipt of final and more complete reports at the end of the season.

### Our Empire Base Burner

Our Empire Base Burner. This is by far the best and most popular selling base burner on our floor; has all the points of construction of the high priced stove.

Fire Pot—17 1/2 size, made of solid grey metal. This metal is the best grade of heat-resisting metal on the market; fire pot can be taken out by taking the main front out. Back of this stove is so constructed that a pipe can be attached to back of deflector and by so doing all the hot air that passes through the stove enters the pipe and can be carried to the room above; by so doing this gives the burner double heating capacity.

Magazine—Large and roomy and supplies a steady amount of coal to the fire so that an equal temperature is maintained at all times.

This Burner is a great value at \$42.98.

One of the best values ever offered in Steel Ranges put together by the most skilled workmen and built on the latest designs and construction. Top—3 key plate, with 6 No. 8 lids, all plates are bolted at the corner to insure the range from spreading at the top. Fire Box—3 piece fire back, one piece fire front, duplex grates for burning either wood or coal. Oven—Has double oven top, bottom made of 10 gauge steel riveted every 2 inches apart and guaranteed never to buckle or get apart. Body—Made up with 2 sheets of steel with genuine asbestos mill board between the steel, held together by staple head rivets. Closet—Made of genuine Wellsville finished steel. Closet door rolls, opening the entire shelf by one roll of the door.

This Range is a value at \$49.98.
