Tickling in the Throat

"Just a little tickling in the throat!" Is that what troubles you? But it hangs on! Can't get rid of it! Home remedies don't take hold. You need something stronger—a regular medicine, a doctor's medicine. Ayer's Cherry Pectoral contains healing, quieting, and soothing properties of the highest order. Ask your doctor about this. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

Constipation positively prevents good health. Then why allow it to continue? An active liver pills. What does your doctor say?

CUTS PRICES OF TWO AUTOMOBILES

E. M. F. Company Takes First Step in "Revolution" in Auto Industry, Reducing "30" to \$1,000 From \$1,250, and "20" to \$700.

DECIDED DROP IN COST OF MATERIAL THE CAUSE

Exorbitant Charges Going Back to Normal; Manufacture of Car Complete Also Factor in Ability to Reduce Price.

The first definite step in the much-heralded talk about the impending revolution in the automobile industry was taken yesterday by the E-M-F company of this city in the shape of a sweeping reduction in the prices of the two standard cars manufactured by it for the 1911 output. The reduction is to take immediate effect.

The E-M-F "thirty," which has heretofore sold for \$1,250, has been reduced to \$1,000, and the Flanders "twenty" has been reduced from \$750 to \$700. It is the understanding that this reduction from the list price will in no way affect the dealers' discounts. In view of bargain sales offered by some other manufacturers to reduce their stock of old cars, this move upon the part of the E-M-F company cannot but have a marked effect upon other companies and the automobile trade in general.

Inflation of Values Stops.

Among other things it shows that there has been a decided drop in the cost of materials and that cars of proven durability and workmanship can be sold for reasonable prices. For the last two years the industry has been afflicted with inflated values, brought about by the rush for material, which reached the stage where companies were willing to bid against each other in order to secure preference. The reaction has set in. In fact, it began settling some time ago, and the market is now back to normal. Pig iron is cheaper and there will be a decided drop in rubber, so that companies which have the manufacturing facilities are able to take advantage of existing conditions.

The fact that the E-M-F company is able to lop off \$250 of the price of its "thirty" car is regarded as little less than sensational and can only be accounted for by the fact that the company manufactures the car complete. There have been very few minor changes in this car and instead of a new model every year it has become a standard, and is so recognized. Another pertinent fact is that the company is backed by the Morgan interests, and the reduction in the price of cars can be taken to mean that it is seeking to broaden its market.

To Increase Output.

It is assuring to find that instead of retrenching the company is preparing to increase its output. An immense addition to plant No. 1 on Piquette avenue is just being completed and for 1911 the output will be 30,000 cars.

Walter E. Flanders, president of the company and the wizard of the automobile industry, is responsible for the new order of things and in making the announcement yesterday he very frankly discussed the details of the situation. "Let me say to you," he said, "that we will be able to make the same margin of profit at the reduced cost as we were two years ago. We now have an investment of \$7,000,000, every cent of which is paid, and we enjoy unlimited financial resources. In addition to this we have a highly developed manufacturing and selling organization and we are able to turn out every day 80 cars of the "thirty" type and 125 Flanders cars, so you can see we are not carrying any burden.

"Again, we are very heavy buyers of raw materials and enjoy facilities by reason of that which very few companies can touch. It has always been my aim to produce the best value possible for a reasonable price and the fact that there are now 15,000 "thirty" cars in use indicates that we have succeeded in this pretty well. We make our own drop forgings, motors, bodies and tops and do our own stamping, so we are absolutely independent.

Manufacturing Cost Reduced.

"Now, as to present conditions. The price of materials has dropped. It had to drop because we had been having inflated values. In producing a perfected car in large quantities the manufacturing cost has been reduced and we found that for 1911 we could reduce the price and maintain the standard.

"I have never believed in changing the shape of a door or using different colored paint in order to bring forth a so-called new model. We add any improvement just as soon as its worth is proven, but it goes with the car. Our aim has been to produce a standard car and we have reached a stage where we guarantee our cars for a year. The reduction in price takes immediate effect and today we have not a car on hand. Although we are busy I doubt if there are any unsold cars in the hands of dealers.

The action of the company will be welcome news to dealers throughout the country, who have been disturbed by the uncertainty of the past few months.

It is hinted that the E-M-F company has in process of construction a seven-passenger car which will sell for less than \$2,000 and which will compete with any car regardless of cost, but this is evidently a state secret, as none of the officials would say anything about it. BUCK GROVE ITEMS.

Mrs. Robert Finley returned from her visit at Logan Sunday evening.

Robert Bentel, Bert Cruise and Albert Polzein took in the Ak-sar-ben at Omaha Monday.

Mr. Wm. Plogge and Wm. Arndt went to Adair one day last week to bring back Mr. Plogge's automobile. Muddy roads stalled Mr. Plogge at the above place while on a trip and he had to finish that ride on the train.

Monday Mrs. Mohrman, of Columbus, Neb., arrived Wednesday for a few days' visit with their daughter, Mrs. Ben Quatman.

Mrs. Anna Haines was an Arion visitor Wednesday afternoon.

Miss Della Nehls was an Omaha visitor Wednesday.

John Griffin, Jr. returned Friday from a week's visit at Omaha.

Mrs. Hillie Newson and baby, from Dixon, Neb., are visiting with her mother, Mrs. George Carpenter.

Will Schroeder got his finger quite badly pinched in machinery last week. It called for the services of a doctor and will probably soon be all well again.

Mrs. Tom McGinn returned Saturday after a week's visit with her parents in Omaha.

Mr. and Mrs. Hugh Nickels spent all last week here with their show. They have been here before and give a pleasing entertainment. They drew crowded houses every night and everybody feels better for some hearty laughs. Friday evening Mr. Nickels gave a free dance to all present at the show and offered a prize to the most graceful waltzer.

The prize was a seven-piece silver set and Miss Della Nehls was the fortunate recipient. As an inducement for Saturday Mr. Nickels gave away a seventeen-piece silver set to the lady receiving the largest number of votes. Miss Mabel Brewster was the proud victor in this instance and received the handsome set. Mr. and Mrs. Nickels are very popular here and everybody hopes that sometime they will come back to amuse us all again.

Saturday evening Herman Hain had quite an accident. While riding with his wife and children the team ran away, throwing them all out, but nobody was seriously hurt, aside from a good shaking up.

Miss Nellie Sullivan was an Omaha visitor Friday and Saturday.

LOST—Pocketbook containing some fifty dollars in money and a note. Reward offered for return to Jas. Haines.

Mayor Finnigan and family spent Sunday with friends in money and a note. Several embroidered waistcoats were also given away at the Nickels show. Mrs. McBride, Mrs. Hagan, Mrs. Hemphill and Mrs. Gromster, Jr. each received one as they held the lucky numbers.

Our town seems very busy nowadays as there are one hundred and twenty-five Italian laborers here laying ties and rails. They seem to be a peaceable set, and attend strictly to their work. They seem to be a thrifty lot also and they do quite a money order business at the postoffice.

Mr. and Mrs. L. Biggs and Daniel Cruise and wife, of Denison, spent Sunday with John Green and family.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

TENTH YEAR IN DENISON

Dr. B. A. Stockdale

The Noted Specialist who has visited Denison since 1900, will be at

Hotel Denison, Wednesday, Oct. 26.

From 8 a. m. to 6 p. m.

Chronic Diseases Cured

The doctor has had such wonderful success in the treatment of certain diseases that he feels fully warranted in making the following liberal offer. He will make a thorough examination and tell you just what can be done; and about how long it will take to effect a cure; you will not be required to pay any money, except for the medicine used until cured or thoroughly satisfied with the results.

Dr. Stockdale wants every person who suffers from a chronic disease—it makes no difference how bad their case is, or how long they have suffered, or who has treated them and pronounced them incurable, to call and consult him. He will make a thorough examination of their case, tell exactly what can be done, whether they are curable or not, how long it will require and all about it. He treats only chronic diseases. He has devoted twenty years of his life to the treatment of such diseases as Dyspepsia, Indigestion, Stomach troubles, Liver disease, Constipation, Rheumatism, Bladder troubles, Diseases of the Kidneys, Chronic Catarrh in all its forms, Heart and Nerve troubles—in fact, every variety of chronic diseases.

Dr. Stockdale has a system of treatment which he believes is the best known for chronic diseases. He is able to cure many cases that have resisted other treatments—that are considered incurable. He wants it distinctly understood that he does not undertake any case that he thinks is incurable, and will tell the patient candidly when he has made the examination.

He has a special treatment for general weakness of men, which he would like to explain in person. He will examine every case that calls on him on the above date absolutely free.

If for any reason you cannot call or visit him personally, write him for an examination blank at his home office. Address
