

CRUSHED ON THE CRUEL RAILS

C. D. Emberling, of Perry, Milwaukee Brakeman, Meets With Almost Instant Death Here.

WIFE AND SIX CHILDREN MOURN

Accident Occurred Wednesday Evening at 8:30 Near the Stock Yards.

A shocking accident occurred in the Milwaukee yards here last Wednesday night about 8:30, resulting in the almost instant death of Brakeman C. D. Emberling, of Perry.

The particulars, as near as we can learn, were about as follows:

Freight No. 61 in charge of Conductor Dollison, which was enroute west, stopped here in the yards to do some switching. A. J. Barrow had a car of stock which was to go to Omaha on this train. The crew left part of the train on the passing track to go in on the stock yard track to pick up this car of stock. There were a number of cars on the stock track ahead of this car of stock, and they were pulled out by the crew, in order to kick the car load of stock which was on the rear of this string of cars, onto their regular train left standing on the passing track. The signal was given to make this transfer and the cars were moving at quite a rapid rate. Owing to this portion of the train being on the switch track leading from the stock track to the passing track, the engineer was unable to see Brakeman Tucker who was to have cut the car loose and Brakeman Emberling seeing that the car was approaching the train at a rapid rate ascended the ladder to set the brake so that this car would not hit too hard, thinking at the time that it had been cut off in the switch. In the meantime Brakeman Tucker let go of the lever which lifts the pin and ran out to one side to give the engineer a stop signal. He got the signal, applied the air and the sudden stop threw Brakeman Emberling forward to the track below and the compace from the fall evidently rendered him unconscious and the train in drifting after the air was set, passed over him, crushing one limb above and the other below the knee.

Brakeman Tucker saw the accident but was so excited that it was some time before he could make himself understood. When the unfortunate man was reached he was found beneath the car in the middle, only one pair of trucks having passed over him. The sudden fall and the second shock left him almost lifeless.

He was picked up and taken into the baggage car of passenger No. 31 to the baggage room. Dr. Draper, the company physician, was called as soon as the accident occurred and examined him as soon as he was brought into the baggage room, but he was forced to make the sorrowful announcement that the unfortunate man was beyond anything that medical aid could do for him as he was then breathing his last. The poor fellow was unable to talk at all and only survived about fifteen minutes after the accident.

The deceased leaves a wife and six children to mourn. We are informed, however, that he carried considerable insurance for the protection of his loved ones in the event of his death.

The remains were taken to the undertaking rooms of I. B. Alfred, where they were prepared for transportation to the home at Perry, and were taken there on the morning train Thursday.—Manilla Times.

International Live Stock Exposition—Chicago.

The eleventh anniversary of the International Live Stock Exposition will be held at the Union Stock Yards, Chicago, on the dates of November 26th to December 3rd and will be wider in scope, larger in entries and greater in importance than any of its predecessors.

Seventy-five thousand dollars will be given away in prizes, which will be awarded by the most expert and distinguished judges in this country and from abroad.

The importance of this show from a breeding as well as an educational point of view cannot be measured, realized or understood except from a personal visit and a systematic study of its extraordinary proceedings.

Most excellent newspaper accounts are published, and the breeders' and farmers' journals deal with it in a most comprehensive and masterly manner; but it must be seen to be appreciated; it must be studied to be understood.

It is the greatest school of instruction of its kind that has ever been presented to breeders, farmers, stockmen and others who are interested in the live stock industry, and an institution of practical information that teaches in a fortnight more than can be learned in double, treble and quadruple the time anywhere else.

The International Live Stock Exposition at Chicago is a stockman's store of knowledge, an encyclopaedia of breeding and feeding information that is presented in such practical, simple and easily understood methods, that the interested intelligent visitor must of a necessity carry away with him a fund of useful and practical information that he could not buy for dollars anywhere else in so short a time.

The lessons learned from watching the judging by these masters of live stock breeding cannot be gained from books.

The comparison of the various champions and other prize winners with their less fortunate brethren shows the breeder and student the weak points and shortcomings of those which do not reach the required standard; and so these men go home carrying with them an object lesson that can be acquired nowhere else, and a fund of breeding knowledge that will stand by them and be their very best friend.

Every one whose calling, whose work, and whose interests are centered in the breeding and feeding industry should religiously attend this exposition, for it will pay him over and over again, no matter what the apparent cost may be.

There is little danger from a cold or from an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all dealers.

Postal Savings Banks.

Despite the petty intrigue and dalliance of Washington officials who have to do with the matter, postal savings banks are soon to have a trial in every state and territory in the union. One such bank is to be established in each state and territory and the plan given a thorough try-out before the system becomes general. Decorah, a city of something over 5,000 people, has been selected as the place for the Iowa experiment and as soon as the initial plans are complete the bank will be inaugurated.

Considerable dispute has arisen as to the system of conducting the postal savings bank plan, but the following is said to have the endorsement of Postmaster General Hitchcock and it, with possibly slight modifications, will be the one used initially: The bank will operate in conjunction with the regular postoffice and sums in varying amounts may be deposited, but the depositor will be limited to the sum of \$100 in any month and to \$500 in a year; it being the intention of the government to in no wise interfere with the regularly established banks doing business in a town, and only the small depositors will be encouraged. The sums so deposited will draw interest at the rate of two per cent and will in the aggregate be loaned to local banks at not less than 2 1/4 per cent. Either certificates of deposit or the regular bank book will be used, that detail not having yet been decided. There are at this time in the United States 60,000 postoffices, 1,900 of which are first and second class. It is expected that at least 40,000 out of the entire total will have savings banks when the plan is in full operation.—Odebolt Chronicle.

Chamberlain's Stomach and Liver Tablets do not sicken or gripe, and may be taken with perfect safety by the most delicate woman or the youngest child. NO REASON FOR IT

When Denison Citizens Show the Certain Way Out.

There can be no just reason why any reader of this journal should suffer the torments of an aching back, the annoyance of urinary disorders, the dangers of diabetes of any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what a Denison citizen says:

Mrs. Catharine Johnson, 208 E. Vine St., Denison, Iowa, says: "Doan's Kidney Pills were of more benefit to me than any other kidney medicine I ever took and consequently I do not hesitate to recommend them. My back ached constantly and I felt languid and worn out when I got up in the morning. Frequently I had dizzy spells and there was a feeling of distress in my neck. Doan's Kidney Pills, procured from the Lambert Drug Co., two months ago, helped me as soon as I took them and I am now enjoying much better health."

You Have To Be Careful About Furniture

It's as tricky as a Missouri mule.

If you saw an advertisement, for instance, of some "Fine

American Rockers" at a ridiculously low price you might go straightway and part with your money and think you had a bargain. But listen!

There is a way to stamp with paint the exact grain of quartered oak on softer, cheaper woods. It looks fine for a little while. It doesn't cost nearly as much.

And some man who thought as little of his country as he did of his own honesty, called the results of this process "American Oak."

Watch out for these slippery, nice sounding names—Look for what's underneath.
