**MANILLA'S CORN SHOW.**

Business Men and Farmers Enthusiastic Over Show to be Held December 8th and 9th.

Much enthusiasm is being manifested over the big corn show and grain exhibit to be held at Manilla, December 8th and 9th. The committee in charge is sparing no work to make this a great educational institute. At a meeting of the committee held at the commercial club room the latter part of the week, Messrs. F. L. Van Slyke and R. C. Saunders were selected to visit the fruit show and corn exhibit at Council Bluffs to secure ideas for decorating, etc., also to arrange for speakers and judges for the different exhibits.

They were successful in securing some experts for this work; among them are Prof. Crossley, formerly of the Iowa State college at Ames, who was superintendent of the Council Bluffs corn show. Mr. Crossley will be here on December 8th and will judge the corn and give an address to our people. His lecture will be of great benefit to the corn growers of this section of the country.

On December 9th, G. R. Bills, an expert on potatoes and E. L. Stewart, soil expert, will be here and both will deliver lectures and give demonstrations that the farmers of this section cannot afford to miss.

One of the features of the corn show will be the exhibition of the famous herd of Shorthorns from the Greeley Stock farm. Mr. Saunders will exhibit his herd here during the show after his return from the International Live Stock exposition at Chicago, where his herd will compete for honors this year. The herd will be exhibited in a large tent at Manilla and among the cattle shown will be the famous Cumberland's Last, also a yearling which Mr. Saunders has already sold for \$800.00 to be delivered after the International show to a Denver, Colo., party. This exhibit will be interesting to the farmers and stock raisers.

Another interesting feature of the corn show will be an exhibit made by the Manilla public schools. This exhibit will include work by the pupils from each room in the school. This exhibit will be very interesting to anyone concerned in the development of educational processes along practical lines.

The amusement feature of the corn show will not be overlooked. On Thursday night a musical number or literary program will be arranged for, to be given at the opera house where the exhibit takes place. S. V. Downs' orchestra of Council Bluffs has been secured to discourse sweet music during the afternoon and evening both days. On Friday night, the program will consist of lectures on agricultural subjects and short addresses by others.

In connection with the corn exhibit, grain, fruit, fancy work, baking, etc. will be shown and it is the desire of the committee that our farmers and their wives and daughters will be interested and bring in an exhibit in some of these departments. Farmers should especially assist the committee in making the corn and grain exhibit a worthy showing of the productiveness of the Nishnabotny valley and of the work of the tillers of the soil. The opera house will be handsomely decorated and all of the business houses will decorate their places of business and by the co-operation of all, December 8th and 9th

can be made pleasant and profitable days for the people of this section. Make up your mind and bring in an exhibit of some kind. Prizes will be awarded the winners.

For any particulars inquire of any of the following members of the executive committee: C. A. Saunders, C. F. G. Kehr, F. L. VanSlyke, A. J. Sarrow, R. C. Saunders, F. L. Kerr.—Manilla Times.

**The Last Dragging of the Roads.**

Within thirty days we must expect winter to set in in the central portion of our territory, earlier north, later south; we may not know when the rain comes. To make sure of it, every man who wants a good road must drag after every rain from now until it freezes up. He has a choice of one of two things; smoothing the road down with the drag, or smoothing it by bumping over the ruts with his wagon. Farmers must take their choice in this matter. We submit that it is cheaper to keep the roads smooth by dragging them after each rain, than it is to level them by bumping over them with the wagon. If farmers could come to an agreement to have every road to the nearest town dragged, there would be no complaint about bad roads this winter except in case of snow drifts. If they fail to do this, there will be complaints. We are simply warning you of what will happen.—Wallaces' Farmer.

**The Dairy Cow.**

The dairy cow does more than bring financial success to the dairy farmer. She makes him a better citizen than he would otherwise be. Her influence upon home conditions is a most pleasing contribution to those factors which are responsible for the changed conditions which prevail in the farm homes of today. Thousands of these homes are now characterized by comfort and happiness where formerly they were blighted by unhappiness and drudgery.

Better financial conditions have contributed to this change and the dairy cow has been in no small measure responsible. She has contributed in still another way. The dairy cow teaches kindness. Her owner soon learns that only by treating her kindly can he secure the highest possible returns from her, and she responds quickly to kind words and proper care. Her disposition is one that the human family might well emulate. She is patient and long suffering, acquiescing mutely in the arrangements made by her owner for carrying on the dairy business, striving at all times to repay him for every effort made for her care and comfort.

The members of the family, as they come in contact with her and her kindly disposition, are influenced for good. As they appreciate the financial benefit to come from caring for her well they take a deeper interest in her. In doing so they unconsciously cultivate those qualities which make them better citizens.

The dairy cow—the prototype of man's best friend—is wielding a greater influence than she is generally credited with. She has always been found in the front ranks in the march of civilization and no agricultural country can long prosper without her. She is a potent factor in the upbuilding of such a country, financially, and socially, and a wise people will appreciate her and encourage the industry of which she is the foundation.—The National Dairy Union.

**Last Call for the "International."**

The twenty great buildings and the grounds of the splendid International Live Stock show at Chicago, which begins November 26th and continues until December 3rd, are now alive with an army of the busiest kind of workmen making final preparations for this highly interesting and important event, which follows the International Horse show to be held on the same site during the previous week. There will be an exhibition during the stock show 1,191 magnificent and beautiful horses, 1,191 splendid cattle, 1,163 sheep and 807 hogs, making a total of 4,355 animals entered in the pure bred and fat individual classes, while there will be shown also thousands of prize winning cattle, sheep and swine in carload lots, in the adjoining pens of the Union Stock yards.

Visitors should bear in mind that the wonders of this great live stock market, and the slaughter scenes and other marvelous sights of Packingtown, lying immediately back of the Union Stock yards proper, are alone well worth a visit to Chicago.

Besides the above superb array of attractions, there will be given throughout the week a series of the most brilliant evening entertainments in the great amphitheater, including many entirely new features, the like of which could not be seen anywhere else in the world.

The following list embraces some of the many attractions and benefits of a trip to the International Live Stock show, to be held at Chicago, November 26th to December 3rd, inclusive.

A grand breeders' prize exhibition of pure bred cattle, horses, sheep and swine, with daily public sales of all breeds.

A great fat stock show, surpassing even the renowned annual shows of England participated in by the royalty.

A magnificent prize carload exhibit of cattle, sheep and swine, also comprehensive feeder and range cattle exhibit, classified by districts.

A fine display of draft, coach and saddle horses for general use, including the superb six-horse teams and spirited driving and riding contests for beautiful trophies and rich prizes.

A special agricultural college exhibit, and an intercollegiate stock judging contest.

A grand annual "battle of champions" for the highest honors of the year in all the judging rings.

A series of the most interesting and profitable meetings of breeders' and stockmen's associations, with able papers and discussions by the foremost representatives of the live stock interests of the world.

Although constituting a live stock show unequalled in the world, offering "such education, inspiration and high-class business opportunities" as should bring a record-breaking attendance of breeders, farmers, ranchmen and others.

The International week should be a "rest time, a play time, a study time," for every progressive farmer and stockman in the land.

By coming a day or two earlier, visitors may attend the most beautiful and dazzling horse show ever held in Chicago, which immediately precedes the stock show.

Also visit the "Land Show" held in Chicago at the same time as the stock show. Visit the finest amusements, art galleries, etc., see the most brilliant shop windows, and visit the greatest industrial plants in America.

Be given an opportunity for holiday shopping unsurpassed in any city of the world.

No farmer or stockman who studies his own interests can afford to miss this crowning event of the year in live stock affairs. Bring your sons and give them an opportunity for obtaining that information and insight to the stockman's business so necessary and indispensable to their success in after years.

Do not forget the dates, November 26th to December 3rd, inclusive.

There is little danger from a cold or from an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all dealers.

**SPECIAL OFFER.**

We Have Made Arrangements so That We Can Offer the Daily Inter Ocean and Review for \$3.50.

The Review has entered into an agreement with the Chicago Daily Inter Ocean, the leading daily of Chicago, whereby the subscribers of the Review can get both for only \$3.50 per year. This offer is only open until January 1st, and those wishing to get the benefit of this offer will have to do so before that date. Subscribe NOW.

**The Mechanical Choir.**

"I hear that your church has installed a phonograph stuffed with sacred music."

"Yes. Had to do it. Choir had struck."

"New scheme work all right?"

"It's beautiful. Never quarrels with itself, has no skirts to rustle, doesn't fret about the angle of its hat, refrains from giggling or powdering its nose and if it gets out of order a mechanic can repair it."—Lippincott's

**The Day He Selected.**

When Mr. Gladstone was alive he was once discussing with some friends at Hawarden castle the greatest day in the world's history. Each member of the group was asked to say on which day he, in the past or the future, would prefer to live, it being supposed that he should have his present knowledge, and afterward return to his present existence. Mr. Gladstone chose a day in Greece when Athens was at its highest glory.
