### TO THE SHIPPERS OF CHRISTMAS PARCELS

Suggestions to Those Who Have Packages to Express or Mail. Get Them Started Early.

TO INSURE SAFE DELIVERY  
Packages to Be Sent by Express Should be taken to Office Not Later Than December 15.

1st. Ship your packages early—by the 15th of December if possible. The express company will give you a small label to paste on the package reading "Do not open until Christmas." This will give opportunity for the package to reach its destination before Christmas and give the additional pleasure to the recipient of the gift of having it on Christmas morning.

2nd. Use wooden boxes for packing, especially for glass and other fragile articles, which should be well protected. It may cost a few cents more, but the danger of damage will be very much reduced, and you should do your part to make the transportation of your gift safe.

3rd. Write the address in full—state, county, city, street and number—on the box or package, with ink or crayon. Tags are frequently torn off and lost.

4th. If you want to prepay the charges, write the word "Paid" in large, plain letters on the package.

5th. Insist upon a receipt and see that the amount paid and the value is marked on the receipt and on the package.

6th. Write your own address in full somewhere on the package, following the prefix "From....."

7th. Enclose a card in each box or package reading:  
From.....  
(Your address.)

To.....  
(Consignee's address.)

This in order that, should the outer markings be destroyed, the inner mark will insure prompt forwarding and delivery.

8th. If not convenient to ship in wooden boxes, use strong wrapping paper (not newspapers) and tie with strong cord.

9th. If package contains anything of perishable nature, write the word "Perishable" in large, plain letters on the box or package which will call for special attention and delivery.

If you will observe these suggestions, you will greatly assist in the

prompt delivery of your gift in good condition.

Mail Christmas Presents Early.  
Mail your Christmas presents early, is the advice of the postmaster.

Ten days from now every postoffice in the country will be filled so full of packages that it will take all of the regular force of the entire postal department and as big an extra force as can be mustered together to handle the mails properly within three or four days after Christmas.

As a rule people don't like to get packages before Christmas, but if you write on it, "Please do not open until Christmas," the receiver will lay it away until the right time.

By doing this you are sure that your relative or friend will get his or her package on the day you intended they should, but otherwise you can't be sure of it.

The postmaster also asks that everyone write very plainly on their packages just who it is going to and where. He has also prepared this list of "don'ts" for mailing packages:

Don't forget that marking Christmas parcels "Don't open before Christmas" will enable one to send them ahead of the rush and insure timely delivery.

Don't put up a parcel with such poor wrapping paper or in such a flimsy manner that the wrapper may be easily torn and separated from the contents.

Don't fail to put your own name and address preceded by the word "From" on the upper left-hand corner of every piece of mail.

Don't fail to give the full address—street and number (or box), town, postoffice, rural route and state of destination.

Don't mail a parcel without previously weighing it to ascertain the full amount of postage required.

Don't mix handkerchiefs, neckties or other articles of merchandise in packages of printed matter unless you prefer to pay the higher rate of postage on the whole.

Don't seal or wrap parcels in such a manner that their contents may not be easily examined, unless you intend to pay letter rates of postage.

Don't use 1 and 2-cent stamps for postage on heavy packages. Use larger denominations to save trouble in affixing them and time and work in the postoffice.

Don't deposit packages on top of street letter boxes or they may never reach the postoffice.

Don't use tags or labels exclusive for addresses, as they are liable to become separated from the packages.

Don't send fragile matter by mail. Don't seal up packages containing

photographs, pictures, Christmas cards, New Years cards and mark them "photo only," "books" or "printed matter," as the sealing will subject them to letter rates of postage without regard to contents.

Don't hesitate to write any form of presentation or "Merry Christmas," "Happy New Year," "Compliments of the Season," or anything of that nature—of an impersonal character—with your name. It is especially provided for in the postal regulations.

Don't fail to register valuable articles. The government insures their safe delivery and the extra cost is but 10 cents.

Don't mail sealed packages or merchandise to Canada, Mexico or Cuba. The rates to those countries for such matter are the same as in the United States—1 cent an ounce, when unsealed.

Don't mail parcels of merchandise to foreign countries except by the parcel post system and only at the main postoffice—rate 12 cents a pound, limit of weight eleven pounds.
