PAVING ADVOCATES TALK BEFORE CLUB

Representatives Urge Using of Bitulithic Paving on the Main Streets of Denison.

THE CLUB TAKES NO ACTION

But Many Were Impressed With the Showing Made and Action Will Probably Be Taken.

On Friday night representatives of the Warren Paving company appeared before a large meeting of the Commercial club and gave an interesting talk on the subject of street paving generally and the merits of their own product, bitulithic paving in particular.

They guaranteed that the cost of paving would not exceed \$2.00 per square yard, that it would last a lifetime with the traffic of Denison and that it could be easily repaired and with little expense. They told of numerous cities, among them Perry, Grinnell and Iowa City, where their paving had been used with great satisfaction to the people. Asked as to the advisability of starting by paving a few blocks they said it would be much cheaper to advertise a large enough contract to attract the large concerns engaged in paving work.

In the business streets they advised paving from curb to curb, but for residence streets thought a twenty-four foot pavement with two foot gutters on each side would be sufficient. They explained that the city must pay for all grading and that the property owners must pay for the paving. Whether the city should pay for the intersections at street corners was a matter to be decided locally. They estimated that to pave Broadway and Main around the Balle-Brodersen corner would cost that firm about \$1300. We give this simply to give an idea of the estimated cost. In front of a 50-foot residence lot the cost would be in the neighborhood of \$80. These figures are not exact, the cost depending on

the material used, the depth of the concrete and of the surfacing, etc. The representatives were put through a rapid cross fire of questions and the sentiment of those present seemed to be in favor of immediate action. No formal motion of any kind was made, however. The company offered to take a committee, composed of business men and members of the city council, to inspect the work they had done in other cities, doing this at the expense of the company. It is probable that some such committee will be appointed. It is also probable that a committee will be appointed to estimate the cost as nearly as possible and then to make a canvass of property owners along the streets to be paved to ascertain their sentiment in the matter. In the discussion there was talk of paving all the up-town business streets, also the streets leading to the depots and if possible to pave Broadway from Mr. Lally's to the college, Sweet street its entire length, Chestnut from the Baptist church to the high school and Locust from the McHenry corner to the railway. Many property owners along the best residence streets have signified their willingness to pave as soon as possible. The cost could be paid at once or in installments running for seven years at six per cent interest.

One thing which would limit the amount of paving would be the amount which the city would expend under the law for grading intersections and to supply deficiencies where the property owners could not be taxed sufficiently. Under the law real estate cannot be taxed for more than one-fourth of its value for paving purposes.

The meeting has aroused a good deal of sentiment in favor of paving, several members of the city council are in favor of it, but say they would not order it unless a majority of the property owners affected were in favor of it.

The matter is one worthy of the earnest consideration of our people. The advantages to the city are many.

SCHOOLS TO OPEN NEXT MONDAY

Scarlet Fever Cases Are Very Few and No New Ones Have Been Quarantined.

SCHOOL ROOMS FUMIGATED

No Children From Quarantined Families Allowed to Enter School Under Thirty-five Days.

Unless new cases develop between now and Monday, the public schools will open Monday, March 20th, as planned. The board and teachers will continue to use every possible precaution to prevent any further spread of scarlet fever. In order to do this, the board has decided to follow the old law of two years ago. That is, no person from a quarantined family will be allowed to enter school within thirty-five days of the date quarantine was established. Under the present law there is no time limit for quarantine, and there might be cases of release from quarantine before the peeling was entirely complete. This ruling is to avoid any danger from any possible too-short quarantine.

The board has received twenty gallons of formaldehyde and every room and hallway in all the buildings will be thoroughly fumigated before Monday. Every one who has been quarantined, or who has been living in a quarantined home, should read the notice published in another column, with reference to requirements for re-entering school.

Mr. J. P. Conner, who has been in Florida for the past month, is expected home the latter part of this week. Mr. Conner will remain at Lakeland, Fla., for a week or ten days longer and from there will go to Philadelphia, where she will visit Mrs. L. M. Shaw. She expects to return to Denison the latter part of April.

COUNTY ROAD MEETING TO-DAY

Every Township Represented and Much Interest Manifested in Road Building Matters.

PROFESSOR McDONALD IS HERE

Splendid Talk on Road Building, King Dragging and Bridge Work to be Given.

As we go to press the county road meeting is in session. A full representation of trustees and road supervisors from the different townships is in attendance and interest in the meeting is at high tide. Under the law all township trustees and road supervisors are required to attend these meetings and the county pays the bill. Professor McDonald, of Ames, is here and will talk on good roads, the purpose of the meeting being to gain information relative to the building of good roads. Mr. McDonald is the state expert and will give a splendid talk on road building, the use of the King drag, bridge building, etc.

Aside from the trustees and supervisors there are a number of citizens and tax payers present at the meeting. An effort will be made at the close of the meeting to organize the county into an association tending to further improve the county roads by dragging and keeping weeds down. Mr. Rollins is at the head of this movement. The board of supervisors are to be commended for their efforts in making the meeting a success.

The following townships were represented:

Superintendent	Township
E. P. Sievers	Stockholm
Gus Anderson	Stockholm
Sam K. Nelson	Boyer
Art Houston	Boyer
John Brummer	Boyer
Ira Wettingel	Boyer
Ed Duffy	Jackson
Julius F. Hamman	Otter Creek
F. F. Brown	West Side
John Gibson	Union
Hans Boyens	Goodrich

O. J. Staley	Willow
Lou Hassett	East Boyer
Jacob R. Jensen	Morgan
M. B. Conroy	Union
Henry Peterson	Paradise
M. J. McMahon	Iowa
Christ Groeth	Goodrich

SCHOOL ELECTION QUIET.

Messrs. N. L. Hunt and Albert Helsley Elected to Succeed Themselves as School Directors.

School election Monday last passed off quietly, there being no exciting contest. There were two offices to fill, those held by Messrs. N. L. Hunt and Albert Helsley, as directors. Both gentlemen have given such universal satisfaction that voters were loath to make a change and justly—the gentlemen named have proven very proficient, have given their unstinted time and thought to the affairs of our schools. At the election Monday there were 56 ballots cast, of which Mr. Hunt received 51 votes, Mr. Helsley 59 and Mr. Lamborn, Denison's ever-popular young druggist, received 7. Not being directly interested in school affairs, Mr. Lamborn did not push his candidacy to any great extent. At this meeting the board voted \$2,500 into the school house fund and \$100 into the library fund.

Miss Lulu Girard, having taken a course at the state normal, will teach the Fritz Witt school in Otter Creek township. She is one of the girls from a farm home who is making good in the world.

COMMERCIAL CLUB ON QUARANTINE

Commercial Club Considers Attitude of Other Towns Concerning Situation in Denison.

MAYOR MAKES A REPORT

Manifestos of Outside Towns Unjust and Greatly Exaggerated—Very Few Cases of Fever Now.

Among other matters considered by the Commercial club at its meeting Friday night was that of the quarantine and the effect that it had on business, and especially in regard to the exaggerated reports which have been spread in other towns. Mayor Laub told the exact status of affairs and said that he believed the cases were thoroughly quarantined, that the sick list was gradually growing smaller, that a number of families were almost ready to be released and that the disease now seemed to be in a mild type. He further reported that the mayor of Dow City had called him up and that he had told him the exact number of cases, and that later the Dow City authorities had issued a poster greatly exaggerating conditions and urging people to keep away from Denison. It was the sense of the club that such manifestos were unjust and unfair, that Denison has done all possible to check disease and has the epidemic well in hand. That the fact that all known cases were strictly quarantined and that the children were not allowed on the streets gave every security to people wishing to come here and that there was less danger in Denison than in some communities where the people were not so wide awake and where the quarantine laws were not so rigidly enforced.

The mayor was requested to issue an exact statement this week to be
