

Where are the Capitals

They are before you—under your fingers, ready to imprint themselves on the paper at a single stroke, if your typewriter is a Model 10 Visible

Smith Premier

Writing in sight is of course important, and the writing of the Smith Premier is always in sight. But this is not all. Every character written by the Smith Premier is in sight—not simply when it is written, but all the time. It is the only typewriter on which everything is visible, from each and every character on the keyboard to the writing on the paper.

And this is only one of the *Fourteen new* features of the Model 10 Smith Premier Typewriter.

Let us send you a catalogue which will tell you about them all.

OTTAWA TOWNSHIP CLERK.

A man in Waterloo who is working for \$15 per week left home when presented with a bill of \$35 for a daughter's hat plume. The wife had him arrested for deserting his family and at the trial the judge gave the "wom-en folks" a deserved lecture on the uses and abuses of extravagance. A girl without an income of her own who has no more sense than to blow \$35 for hat ornamentation when the bread winner of the family gets only \$15 per week is void of that necessary adjunct sometimes called "horse sense." No wonder the husband and father fled.—Webster City Freeman.

How to Remove Grease.
When grease is spilled on a wooden table pour cold water over it immediately. This will harden the grease and prevent it from sinking into the wood. It can then be easily removed with a knife.

Cut the Cost of Living!

A plate of hot biscuits or muffins, a fresh, home-baked cake, a loaf of brown or nut-bread, rescues any meal from the commonplace, and more expensive things are never missed.

With K C, the double acting baking powder, good results are doubly certain. There's economy too, in the cost of K C.

"Pittsburgh Perfect" Fence

CONSIDER SIZE OF WIRE When Buying Fence DON'T BE FOOLED by Weight per Rod or Roll

There's no "bunkum" about weight per roll when you buy "Pittsburgh Perfect" because it is constructed without using extra wire to make the fence-joints. The extra weight of the joints in all wrapped, clamped, twisted or tied fences supplies no extra strength, but actually weakens these fences by persistently dragging down the panels, wearing them out before their time and making you buy more before you should. "Pittsburgh Perfect," the only fence with Electrically Welded Joints, is a one-piece fabric of unequalled strength, durability and economy, because we eliminate the expense of extra wire, and put this money into extra quality.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN **Every Rod Guaranteed**

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

"Pittsburgh Perfect" Brands of Barbed Wire; Bright, Annealed & Galvanized Wire; Twisted Cable Wire; Hard Spring Coil Wire; Fence Staples; Poultry Netting Staples; Regular Wire Nails; Galvanized Wire Nails; Large Head Roofing Nails; Single Loop Bale Ties; "Pittsburgh Perfect" Fencing. Father—How is it that I find you kissing my daughter? Answer me, sir! How is it?
Young Man—Fine, sir; fine.—Satire.

Don't worry about the late spring. Iowa has had 'em before, and it is a well established fact that she has never known a total crop failure. The worst year in the history of the state, according to the local weather and crop records and those of the Iowa department of agriculture, was in 1894, the year that so many states had practically a total failure of crops. In that year Iowa produced over \$200,000,000 worth of field crops alone, exclusive of the fruits and live stock production.
