They have been at Detroit, Mich., attending a convention of railway engineers and are on their way home. Mr. and Mrs. Lewis Redenbaugh of Storm Lake spent several days in Denison the fore part of the week. Lewis is a conductor at Storm Lake and we understand he is superintending the erection of several modern dwellings at that place. His many friends here were pleased to renew former friendship. The two literary societies of the Denison Normal and Business college held a joint meeting last evening in the Alethian room in the college building. A general program was carried through, which was greatly enjoyed by members of both societies. After the program all joined together in playing games, after which light refreshments were served. Mrs. Augermun, mother of Mrs. Thos. Lister, departed Monday evening for the home of her childhood in Sweden, where she will spend the remaining days of her life. Mrs. Augermun has lived in Denison for over 20 years and her many friends gathered at the station and bid her farewell and wished her a safe voyage and many happy years in the old home. F. S. McBride, who went to Canada with Dr. Carr in the early spring, has returned to Denison. Upon returning to the states he visited at Lincoln for a week with his sister, Mrs. S. E. Rudd. His parents, Mr. and Mrs. Will McBride, are contemplating a trip into Oklahoma soon and on their return expect to stop off at Sedgwick, Kans., and visit an old schoolmate of Mr. McBride. Work has been commenced on the new home to be erected by Mr. W. E. Kahler in Grace park. The excavation work was commenced this morning and it will only be a few days until the carpenters will start. The new home will be a modern one in every respect. Mr. Kahler intends to have the work rushed so that it will be completed by the first of October. Wm. Marshall is construction superintendent for Mr. Kahler.

The Review acknowledges a pleasant call from Messrs. C. F. G. Kehr, Geo. Deter, Jno. Hamann and E. M. Smith, all of Manilla, on Monday. The gentlemen were making a tour of the county, placing advertising matter for the Manilla Chautauqua, the program of which appeared in our last week's issue. The Chautauqua is made up of seven days and the program is filled with interesting features. The members of the L. T. L. and their teachers enjoyed a picnic at Grace Park last Wednesday. All had a jolly good time and a splendid supper. The Legion will have a vacation until school opens in September. This closes their sixth year and many of the members have attended steadily during all this time. They will be well prepared to carry on scientific temperance instruction when the time comes to go into active life as men and women. The scene at Oakland cemetery on Thursday evening was a most beautiful one. Hundreds of our citizens were there with fragrant flowers, decorating the graves of loved ones. For the most part the grass and foliage had been neatly trimmed and the blooming plants and shrubbery and ornamental trees were at their best. The custom of placing flowers on the graves of those departed is most sacred and as the years pass is becoming more and more universal. The parochial school held their closing exercises at the St. Rose of Lima church last evening and a large number of people turned out to witness the fine program that had been arranged for the event. Not only were Denison people present, but Dunlap, Vail and other neighboring towns were represented in goodly numbers. The program, as was noted in last week's issue of the Review, was successfully carried out and those in attendance are loud in their praise for those who participated in making the entertainment a success. We are sorry that space does not permit us to go into detail in regard to the several numbers of the program, but the entertainment was a most creditable one from every standpoint. The sisters are to be congratulated on their careful instructions and training to those who took part.

PICKED UP UNHARMED.
Baby Born on Train Falls to Track, But is Unhurt—Picked Up by Section Men.

Marshalltown, June 3—An incident that is practically unparalleled in gynecological history and unprecedented for its unusual features, occurred near Reinbeck, a small town north of here on the Chicago Great Western, when a young mother gave birth to a baby on a railway train, and the baby, falling through the seat of the toilet room closet, was picked up unharmed by section men.

Mrs. J. M. Dougherty, a nurse of Cedar Rapids, is the mother whose experience was so unusual. She had been doing some professional work at Grundy Center and, not feeling well, started for her home. Mrs. Dougherty became worse after boarding the train. When the train was between the towns of Morrison and Reinbeck, speeding on its journey, Mrs. Dougherty went to the toilet room of the women's coach, mistaking the pains of childbirth for those of peristalsis.

Weak from the suddenness of the pain and realizing that she had given birth to her babe and that the infant had fallen through the closet seat, Mrs. Dougherty rushed into the car and informed the trainmen what had happened. The woman was taken to Reinbeck, where a physician attended. A search was made for the babe, which was soon found, carefully nursed at the home of one of the section men who found it. The infant was picked up only a few minutes after the train had passed the spot where it fell.

The baby was brought to Reinbeck to the new mother, who is being cared for at the home of Dr. Kahler. Strange as it may seem, the baby was hardly as much as bruised by the fall, and spent most of the day, after being restored to its mother, sleeping soundly.

RATS MEET DEFEAT
Ball Game on Memorial Day Between Court House Rats and "Pick-ups" Results in Victory for Latter

The ball game, played on Memorial day between the town team and a team composed of the court house rats and the printers, resulted in a victory for the town team by a score of 9 to 1. It is estimated that one hundred and fifty people were present to witness the game and the proceeds will be used to repair the grounds.

We understand that there is a movement on foot to organize a town team and from the material available there is no question but what Denison could have one of the best teams in this section. We hope that the boys will get together and organize a team and we feel sure that they will receive the support of the business men of the city.

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

- Bread made with Royal Cream of Tartar Powder: **100 Per Cent. Digested**
- Bread made with phosphate powder: **68 1/4 Per Cent. Digested**
- Bread made with alum powder: **67 3/4 Per Cent. Digested**

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.
