The funeral of Mr. C. E. Engberg, whose obituary appeared in last week's Review, took place Friday afternoon. It was held from the Baptist church at 2:30 and was attended by a large number of the many friends and acquaintances who had mingled with him and known him for so many years. The services were conducted by Rev. A. Anderson, his pastor, and he was assisted by Rev. A. Lagerquist, of Omaha, and Rev. Irvin Johnson, of the Free church. At the close of the services the large audience filed past the casket for a farewell look upon the familiar face of their friend, neighbor and brother, whereafter his remains were followed to the Kiron cemetery, where they were laid to rest. All his children came home and were present at the funeral. Those present from a distance were: Rev. I. Fowler and wife, of Grand Island, Neb., Harlan Smith and wife, of Sioux Falls, S. D.; Andrew Lofquist, Holdrege, Neb.; Mrs. J. F. Engberg and Mr. and Mrs. Emil Lundblad, Odebolt. Another pioneer called to join the numbers of those who settled in this part of the world in the early days and through their toll and deprivations assisted in making it the beautiful and rich locality of today. The deepest sympathy goes out to the bereaved wife and children. We are pleased to be able to furnish the Review readers with a picture of Mr. Engberg.

C. E. Engberg

How to Keep Egg Yolks. When only the whites of eggs are to be used the yolks may be kept fresh for several days by leaving them in the shell (after the whites have run out through a small hole). Wet paper in a little of the white and paste it over the hole. The yolks thus be boiled hard, as their weight keeps the shell upright in water or they may be used as desired.

How to Make Machine Work. When a sewing machine will not work stand it near the fire so that the oil may melt and then clean with pure paraffin, putting it into every oil hole. Work the machine well and then wipe every part with a clean cloth. When perfectly clean lubricate with machine oil.

Sunday School Notes. Side Lights on Next Sunday's Lesson for Teachers and Pupils. Edited by Charles K. Meyers.

June 15—Jacob Before Pharaoh, Gen. 47, 1-12. The lesson of this week follows closely after the last. It will be remembered that Joseph had just made himself known to his brethren, forgiven their many wrongs toward him and sent for his father and the entire family to come to Egypt to be near him.

It was a most touching scene when

Joseph and his father Jacob met. The son had gone forward a certain distance in his chariot to meet his aged father. The joys of that occasion words cannot describe. There came to my personal experience, however, a meeting of a father and son, which in many ways was similar to the one told of in our lesson chapter. I will give it here:

Many old settlers of the vicinity of Dunlap and Dow City will remember Mr. Thomas Shillington, who settled on a farm, coming from Canada in the seventies. He was a fine christian gentleman and much respected by all. The latter years of his life were spent as a member of my household when my home was at Mason City. In the days when the Shillington family lived in Canada long before the removal to Iowa there were among many other children two boys, Thomas and John, aged sixteen and eighteen. They took a sea voyage to London, England, for their health, and while there caught a desire to visit Australia. Without returning home they shipped for that far off continent. Both grew to manhood and Thomas died. John entered the service of the government and rose to distinction. He was in course of time retired on a life pension of liberal allowance. Within a few weeks after the time of retirement John and his grownup son started for America and came direct to Mason City to see their aged relative, Mr. John Shillington had gone away a lad in his teens and returned a man of sixty. The meeting took place in the street in front of the house. The father's faltering feet could not bear him forward fast enough when his beloved son stepped from the electric car and came into view. All who witnessed the scene could not restrain their tears as father and son fell on each other's neck, kissed and embraced. Such in part was the meeting of Joseph and Jacob. The father said he was ready to die now that his eyes had beheld the son whom he had believed dead and eaten by wild beasts many years before.

"BLOOD IS THICKER THAN WATER" DR. PIERCE'S GOLDEN MEDICAL DISCOVERY. Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in filthy ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (oxide) gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air; breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 43 years.

men of history thus met; Jacob was a prince in the worship of the true God, rich in faith. Pharaoh was rich in temporal power, but poor in religious attainments. It is only because he was kind to Joseph and considerate of his father that he has place in printed history. To have our names connected with achievements for the advancing of God's cause in this world ranks before distinction in all other things. Pharaoh gave the pick of the land to Jacob and his family and some being expert cattle men were engaged to have charge of the royal herds. One of the ten commandments demanded that the Jews "honor father and mother," and this has ever been considered binding on all God's followers since. The man or woman who deliberately abuses and humiliates his or her parents is ungrateful indeed. Both God and men honor and respect the children who are good to their aged parents. It is certain that no properly brought up reader of these Sabbath school lesson notes will think for a moment of not ever being kind and respectful to their loving father and mother. Joseph certainly set us all a good example.

EXPERIENCE OF MOTHERHOOD Advice to Expectant Mothers. The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results. There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism. In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
