VOLUME 48

DENISON, IOWA, WEDNESDAY, JULY 30, 1913.

No. 31

GOOD PROGRAMS DRAW CROWDS

Denison Chautauqua Which Opened
Saturday, Well Patronized by
Appreciative Crowds.

FRIDAY IS TO BE A BIG DAY

Business Men Send Customers 1000
Free Tickets for Friday—More
to be Given if Needed.

Denison annual session of chautauqua opened for the seven day session on last Saturday afternoon and from present indications it will prove to be a record breaker, both in attendance and the class of entertainments.

The big tent and all the equipment arrived in the city last Saturday morning and were transported to Washington park, where the assembly is being held. The equipment this year is all brand new and presents a pleasing appearance. While the weather has been hot throughout the week the attendance at the programs held thus far has been enormous. The largest attendance of the session so far was last evening, when over two thousand people congregated to hear the famous Thaviu band and the grand opera singers. The big tent was packed to its capacity and hundreds of people were compelled to stand up outside the tent during the entertainment.

Over one thousand season tickets were sold for the seven days' entertainment and those who are attending the sessions regularly are more than pleased with the entertainments furnished thus far. People generally are of the opinion that the lectures are much better than those that were heard last summer and another feature that is appealing to the patrons is the morning lectures conducted by J. R. Hanley. These lectures are being held at 10:30 and in the neighborhood of over a hundred persons are on hand each morning to listen to the interesting lectures delivered by Mr. Hanley.

Mr. George S. Dalgety, the superintendent, is proving popular with the chautauqua patrons. Under his supervision the chautauqua has been conducted without a hitch of any kind.

The people of Denison and locality have come to recognize that entertainment is one of the necessities of life and that the chautauqua as one of the pastimes is one of the pleasures to be found. Never before have as many farmers and residents of nearby towns attended chautauqua as have this year and possibly this can be accounted for by the fact that automobiles are becoming more numerous and those who own machines bring their friends to Denison to attend the programs. To visit Washington park while the evening session is being held one would almost imagine himself on Michigan avenue, the great automobile boulevard of Chicago. Hundreds of machines are parked around the square each evening and to avert accident at the close of the entertainment it has become necessary to have a police officer in charge, who directs the course of the autos.

Below we give a synopsis of the programs held thus far:

Saturday.

Saturday afternoon was the Spanish Ladies' orchestra, and it is safe to say no one was disappointed with their offering. They in fact exceeded expectations. The members of this company are graceful and tuneful. They present a program that captivates the musicians and appeals to the popular fancy.

This company is one of the best which is in the chautauqua and lyceum business. Its concerts consist of selections of both classical and popular music, and are rendered in such a variety that they please any audience. Each member of the company is an artist and they have played together so long that they are one of the most wonderful musical organizations in chautauqua work. They appear in Spanish costume and make a very pleasing appearance. Their work here Saturday was particularly pleasing to the patrons and the management alike.

Denison folks, who pride themselves on being somewhat more than ordinarily clean in politics, heard a story at the chautauqua Saturday evening of rottenness in the same direction that made them literally sit up and take notice. The story was that of Judge A. E. Blair, of Portsmouth, O., the trial court judge who fined 1,659

voters out of a total of 6,505 and disfranchised them for five years for selling their votes—all in one county in Ohio.

Most of the sixteen hundred people who heard Judge Blair's address had read something of his fight to clean some of the political filth out of Adams county, Ohio, but they had never dreamed that conditions could exist anywhere like the speaker told of in that one county. It is difficult for a voter living in Iowa to imagine men being placed on the auction block and their votes sold in exactly the same manner that horses, cows and hogs are sold; where men boasted openly of the amount of money they had secured for their votes; where even the school children took part in the buying of votes, and had a finger in the plum basket afterwards, and where something like twenty-six out of every one hundred voters in the county are now disfranchised.

Not An Illiterate Class.
In beginning his address the judge stated that he wanted to make it absolutely plain that the population of Adams county, did not consist of a lot of illiterate people, foreigners or negroes. On the other hand the residents of that particular county are better educated than the average in any county in the country, and out of the 1690 disfranchised voters there are only two foreigners and about twelve negroes.

The corrupt election methods secured their start soon after the war, and have been continuing ever since, he said. In Adams county in the early days there lived great numbers of old Virginia soldiers who had served in the revolutionary war and who had been granted 200 acres of land each by the government. The first government road in the country led through Adams county to Kentucky and the Ohio river formed an easy and safe means of transportation in the pioneer days.

On this account many of the great statesmen passed through Adams county, and as travel was slow they became more or less well known. The game of politics started early, but up to the civil war the county was democratic. After the war the county was

DENISON MEN GIVE TICKETS

Denison Merchants Distribute Free
2,000 Tickets to Friday's Chau-
tauqua Program.

5,000 PEOPLE ARE EXPECTED

Last Day of Chautauqua to be a
"Hummer" and the Programs
Said to be Exceptionally Fine

The business men of Denison are showing that their hearts are in the right place by sending out, absolutely free, 2,000 admission tickets to Friday's program of the Denison chautauqua. This means a great deal in the way of money to the business men and they have taken it upon their shoulders to give their customers a treat in this manner. The letters sent out are accompanied by two tickets and if two are not enough to admit of the family more will be given upon request to any one of the committee whose names are signed to the letter. The tickets are good for Friday afternoon, the last day of the chautauqua, and it is expected that many will take advantage of this liberality on the part of the business men of Denison and attend the program that afternoon.

Hon. Harry F. Atwood, ex-assistant United States district attorney, is expected to make a great speech and one that will be worth coming miles to hear. The famous Dunbar quartet will furnish music, assisted by the bell ringers. It is anticipated five thousand people will be in Denison and attend the chautauqua Friday.

The recent attempt of a Denison lady at suicide by jumping into a cistern of water while in a fit of hysterics is deeply regretted and out of regard for the lady, who is a most estimable one, the Review withholds any names, notwithstanding reporters for daily papers have seen fit to publish particulars in full and this under request to withhold the news.

LAKE OKOBOJE CLAIMS VICTIM

Miss Irma Uhde, Denison High School
Teacher, Meets Death at Lake
on Tuesday Morning

HEART FAILURE CAUSES DEATH

Plunge in Cold Water Said to Have
Caused Shock to Heart, Re-
sulting in Death.

The startling news reached Denison Tuesday morning that Miss Irma Uhde, a teacher in the Denison high school, had been drowned at Lake Okoboje, just off the pier at the Lally cottage that morning at 8:30. When found the body was lying in five feet of water near the pier.

As near as can be learned Miss Uhde arose somewhat earlier than usual for a morning plunge in the lake. There was no one else belonging to the cottage nor near there who had arisen. A native of the lake was the last person to see Miss Uhde and his explanation is that she was seen going to the pier attired in her bathing costume; a moment later she plunged into the water. Nothing was thought of this until the stranger did not notice her about the pier after the plunge, and he immediately began an investigation, going down to the pier and not being able to see her he began searching the immediate lake, when he discovered the body as above described.

There being no men folks staying at the Lally cottage, Mr. E. Gulick was immediately telephoned and took charge of the remains, notifying the coroner and calling in physicians. The physicians, after a thorough examination, gave it as their opinion that death was caused by heart failure, as there was not enough water found on the lungs to cause drowning. It is thought that the shock from the plunge in the cold water was too much for the heart and death came immediately. Miss Uhde had often complained of having a weak heart.

The body was prepared for shipment and was sent to Davenport, her home, last evening at 4 o'clock, her sister accompanying the remains home. Miss Uhde and her sister were at the lake together, and the sister is prostrated over the sad death. At Denison the news was received with awe, and particularly so by the students of the high school, who during Miss Uhde's two years' service in the schools, had learned to love her very much. And not only in school circles was Miss Uhde a favorite, but in social circles, and among the teachers and professors she was a genuine favorite. Her untimely and entirely unexpected death has cast a shadow over the community.

Miss Irma Augusta Uhde was a young lady twenty-five years of age and her home was at Davenport. Two years ago she was elected as a teacher of botany, zoology and agriculture and was considered a most proficient teacher; in fact it is said by those in position to know that Miss Uhde's qualifications in her chosen work were superior to any other teacher graduating from the State university. She was to have again taken up her school work at Denison this fall.

During the summer vacation she has been an instructor for the State university, having charge of a summer school in botany, zoology, etc. at Lake Okoboje, where she had charge of a number of students. Only Monday last she had taken a number of young ladies for a walk around the lake, a distance of twenty-seven miles and had stopped at the Gulick cottage for refreshments and rest, and she appeared in the best of health and spirits. Together with her friends she had spent the previous Sunday with the Gulicks and on Monday had gone to the Lally cottage, where she had expected to spend the remainder of her vacation.

The Review is pleased to be able to publish herewith an excellent likeness of Miss Uhde, taken from a photograph of recent date.

Mrs. George McHenry and little son will leave the last of the week for Columbus, Neb., for a visit with her parents, Dr. and Mrs. C. D. Evans.

DAVID WINEY NOW AT REST

Dies at Clarinda on Monday, July
28th, at the Advanced Age of
Seventy-Eight Years.

FORTY YEARS IN CRAWFORD CO.

For the Most Part of This Time Mr.
Winey Has Resided on a Farm
North of Deloit.

It is with deep regret that the Review chronicles the death of Mr. David Winey, who passed away at Clarinda on Monday, July 28th. He was one of the pioneer residents of Crawford county, having made his home among us for over forty years. Although his death has been expected for several weeks, it came as a shock to many.

Mr. Winey had been in poor health for the past two or three years and on account of his advanced age was considerably broken down in health. For a time his children cared for him, but last spring it was thought best to take him to Clarinda to the state institution, where the facilities for caring for aged and infirm persons are better and it was there that Mr. Winey passed away.

David Winey was born the 25th day of March, 1835, in Juniata county, Pennsylvania, and was at the time of his death over 78 years of age. He moved with his parents, Mr. and Mrs. Isaac Winey, to Scott county, Iowa, in 1852, where he resided until he was married to Caroline Albright at Clinton, Iowa, in February, 1862.

Mr. and Mrs. Winey came to Crawford county in the spring of 1872, locating on a farm three miles north of Deloit, where he has since resided, and where he followed farming as an occupation all the years of his long active life. He had seen all the improvements in farming machinery from the flail to the threshing machine and had taken advantage of all such improvements.
