Doughnuts That will remain moist.

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out as quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a double acting baking powder with which a large batch of doughnuts may be mixed and fried a few at a time. The last will be as light and nice as the first.

K C Potato Doughnuts

By Mrs. Nevada Briggs, of Baking School fame.

3 1/2 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful K C Baking Powder; 1/2 teaspoonful salt; 1/2 teaspoonful snice; 1 cup cold mashed potato; 1 cup milk, or more if needed.

Sift three times, the flour, salt, spice and baking powder. Beat eggs with rotary beater, then still using rotary beater, gradually add sugar, then work in the mashed potato with a spoon and alternately add milk and flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat.

Fat for frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.

Thursday morning on their way to Minnesota, where they will spend several weeks hunting and fishing on the different lakes. They are making the trip in Dr. Hill's Studebaker car and are thoroughly equipped with "shooting irons" and other sporting goods.

At 2:30 Wednesday afternoon at the church in Hanover township was solemnized the marriage of Lizzie Schwartz to Chris Gierstorff, Rev. C. Runge officiating. The bride is a daughter of Mr. and Mrs. John Schwartz and is popular among all her acquaintances. The groom is a son of Mrs. Sophie Gierstorff, of Morgan township, and is one of the prosperous farmers of that community, having had charge of the home farm since the death of his father four years ago. They will go to housekeeping on the home farm of the groom, where all wish them a happy and prosperous life.

Albert Feddersen, a young farmer about 20 years of age, lies in a critical condition in the Battle Creek hospital as a result of an accident. Young Feddersen resides with his father on a farm about half way between Ida Grove and Battle Creek, where, a few days ago, he climbed to the hay mow to get hay to feed the stock. After throwing down the hay he dropped the pitchfork and then swung out of the mow and dropped to the floor below, alighting squarely on the pitchfork handle, which entered his abdominal cavity, penetrating and mutilating a portion of the intestines. If the handle had gone a fraction of an inch farther it would have perforated the wall of the stomach. At the hospital the ruptured intestines were removed, and should inflammation not develop he has a chance for recovery.
