A large number of farmers west of town have been greatly aggravated this fall by wolves prowling around the premises and especially of their depredations among the flocks which stray away from the buildings. Last Thursday the Matthias Brothers went into this territory with their bunch of hounds. The dogs picked up a trail and followed it for about nine miles, but the wolf was successful in evading its pursuers. They will probably try it again at an early date. BOYER ITEMS. It is complained that some of the American bluejackets have been behaving bad at Naples. It is no use for them to imitate the American millionaire tourists unless they have money. In view of the convincing arguments just issued by the Society for the Prevention of Useless Giving, why not send Jessie Wilson a barrel of potatoes? Vice President Marshall's long silence raises the question whether he has lost his tongue, or has merely had an interview with Father in the woodshed.
