

# Pull for a Bigger and Better Denison

This page is printed to promote home building and to place before the public the names of reliable firms and contractors interested in the building of homes. There will be many homes erected in Denison this season, and perhaps one of the designs to be found in the Review pages will assist in the selection of a plan.

## BUILD A HOME

The firms using space on this page are responsible, and anything you purchase of them is reliable. These firms are residents of Denison and Crawford county and are paying taxes and helping in maintaining the county and city. Patronize them.

### Paints and Varnishes

If you want the best material on your house use the **Sherwin-Williams** Paints and Varnishes. Call in and get figures on outside paint; we can save you money. And if you want a good durable varnish, by all means use our celebrated MARNOT.

YOUR DRUGGIST  
**Ph. A. Schlumberger**

### Building Hardware

You may not realize it but there's lots of difference in Building Hardware. No matter how well your house is built, or what kind of lumber you use, poor hardware will be noticeable at first glance.

### J. B. ROMANS CO. HARDWARE

is dependable and has that aristocratic finish that distinguishes it from the inferior grades. The styles of Door Knobs, Latches, Hinges, Catches, Clasps, Buttons and Window Fasteners are modern and up to the minute.

Let us figure your bill and prove to you that we save you money.

Don't forget us for Screen Wire, Putty and Glass, and our lines of Ready Mixed Paints, Oils and White Lead are superior.

### J. B. ROMANS CO.

### A NEAT STUDY IN BROWN SHINGLES

Design 787, by Glenn L. Saxton, Architect, Minneapolis, Minn.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST FLOOR PLAN.

SECOND FLOOR PLAN.

A residence in the state of North Dakota. This home was built for a professional man. The rooms in both stories are all conveniently arranged.

There is a living room twenty-one feet long across the entire front and fifteen feet wide. The arrangement of the kitchen, with relation to the dining room, stairway and entry, has been carefully planned. The owner co-operating with the architect so as to secure convenience and comfort. The artistic porch off the living room adds to the attractiveness of the exterior. This feature is practical only where there is a spacious plot.

Especial attention is called to the arrangement of the garage, avoiding the necessity of going out into the cold on a winter's night. In the second story are four splendid chambers, large closets and a small room in front that can be used for a child's sleeping room or dressing room for a lady's boudoir. The sun room can be carried up two stories to make a sleeping porch for second story if desired. Size, 28 feet wide over main part and 30 feet deep. Full basement, 7 feet 6 inches high; first story, 9 feet; second story, 8 feet. Birch or white maple floors throughout, gumwood or red oak for first story, gumwood in second story, with birch doors, the gumwood enameled white and the doors stained a rich brown mahogany to give that splendid combination of white enamel and mahogany for sleeping rooms. Cost to build, exclusive of heating and plumbing, \$3,500.

The cost of carrying the piazza construction up one story would be moderate because one side wall is already provided for. Where a garage is not needed the outlay necessary for that could be expended on a complete sun parlor and sleeping porch above it.

Upon receipt of \$1 the publisher of this paper will supply a copy of Saxton's book of plans, "American Dwellings." It contains about 250 up to date designs of cottages, bungalows and residences costing from \$1,000 to \$6,000.

### INDEPENDENT LUMBER YARD

HERMAN GRILL, Prop.

### Building Material of All Kinds

Why Pay Trust Prices? Buy Independently

Our lumber is kiln dried and in shape for the workman when he wants it. Finishing material of all kinds

Carpenters For Your Use At All Times

### W. H. MARSHALL CONTRACTOR

After a residence of more than a quarter of a century my work is my best recommendation. Many of the substantial residences built last year are the results of my labor.

Let me figure your lumber bill and do your planning

### A. A. Christensen Plumber
