

Pull for a Bigger and Better Denison

This page is printed to promote home building and to place before the public the names of reliable firms and contractors interested in the building of homes. There will be many homes erected in Denison this season, and perhaps one of the designs to be found in the Review pages will assist in the selection of a plan.

BUILD A HOME

The firms using space on this page are responsible, and anything you purchase of them is reliable. These firms are residents of Denison and Crawford county and are paying taxes and helping in maintaining the county and city. Patronize them.

Paints

Decotint Varnish

The outside of this house was painted with

Sherwin-Williams

paint.

The inside was finished with Decotint wall finish and our celebrated Marnot varnish.

YOUR DRUGGIST

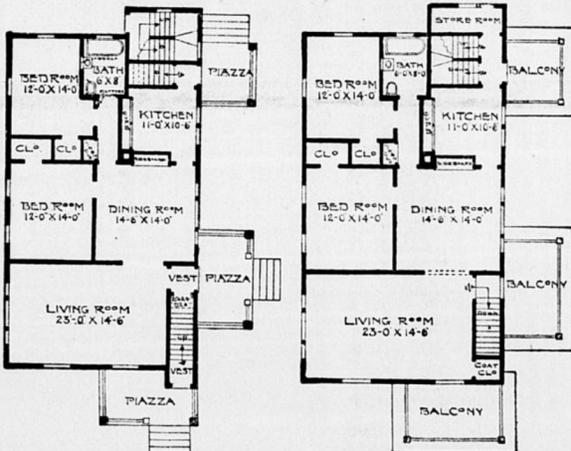

Ph. A. Schlumberger

A ROOMY AND IMPOSING DUPLEX.

Design 785, by Glenn L. Saxton, Architect, Minneapolis, Minn.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

An ideal building for a corner lot. Two individual front porches—no chance for an argument between tenants. The plan can be reversed to fit any corner. Both front and rear stairways entirely individual. Having no connection in any way with each other, the apartments are separated as distinctly as if they were built on separate lots. This kind of a building makes a splendid investment and pays owner a good percentage on the money invested. Size, 28 feet wide and 48 feet deep over the main part. Finished throughout in gum or southern cypress. Birch or maple floors in both stories. Full basement, each story 9 feet. Cost to build, exclusive of heating and plumbing, \$5,200.

Upon receipt of \$1 the publisher of this paper will supply a copy of Saxton's book of plans, "American Dwellings." It contains about 250 up to date designs of cottages, bungalows and residences costing from \$1,000 to \$6,000.
