

# The New Spring Wash Dresses Are Here . . .

## Every New Fashion is Represented in Our Showing

IN calling attention to this special display of the new Spring wash dresses, we wish to particularly impress upon you the **correctness** of each style here shown.

We selected these lovely dresses from the country's foremost style-sources. They are made of the materials that have won highest popularity, and are finely made throughout. The range of styles is broad, and every dress is a real beauty.

Included are dresses of natural and white linens, eponges, ratines, tissue gingham's, voiles, French gingham's, madras, chambrays and fancy seersuckers. A good showing of natural linen dresses for large women is also shown here.

We suggest an inspection of these dresses NOW while the showing is complete.

**\$1.00 and \$1.25 Each**

Plain chambray gingham's, trimmed with checked gingham pipings and bands, buttoned front and button back styles, three-quarters and full length sleeves. Also made of checked and striped gingham's, fancy percales and prints. Sizes 14, 16, 18 and 36 to 44.

**\$1.50, \$1.75, \$2, \$2.35 and \$2.50 Each**

At this range of prices you will find a splendid assortment in our stock. Plain gingham's in blues, pink, lavender and tan. Fine lawns in pink, blues and lavender stripes. Check and striped gingham's and madras and novelty materials in all the popular combinations. Trimmings are embroidery and lace collar and cuffs, self trimmings, fancy wash braid and edging and some have embroidery fronts.

White dresses for misses and ladies, of fine lawns and batiste, fancy weave materials, rice cloth, green edging and marquisettes, trimmed with laces, embroideries and fancy buttons. Prices **\$3.95, \$4.50, \$5, \$6.50 and upward**

**\$3.00, \$3.50, \$4.50, \$5 and Upwards**

Plain natural colored linens, trimmed with banded braid to match, linen colored lace edgings and insertions and linen fringes. Fancy tissue gingham's with embroidered designs, trimmed in fine laces and embroideries. Rice cloths, fancy madras, crepes, seersuckers—a number of them made in combination effects—waists and tunics made of fancy materials—skirt of plain material and vice versa.

## S. S. CLUB GIVE ENTERTAINMENT

Most Unique and Mirth Creating Entertainment Given in Denison for a Long Time.

### MANY BURLESQUE CHARACTERS

Chocolate Drop Minstrels in Latest Songs and Comedy Hits Closing Feature of Entertainment

There was an immense crowd at the entertainment given by the S. S. club at the high school building for the benefit of the W. R. C. on last Wednesday evening, and everyone who attended pronounced the entertainment to have been one of the best that has ever been given in Denison. Many were of the opinion that the S. S. entertainers should join the Orpheum circuit and present their entertainment in some of the larger cities of the country.

The program opened with a beautiful overture with Sousa as leader. The orchestra consisted of a number of young ladies who played a most difficult piece on fine toothed combs wrapped with tissue paper. It was surprising indeed to every one to know that such harmonious music could be produced upon such delicate instruments, and the house was brought down with loud applause.

Dona and Bella were next on the program and gave some marvelous feats of daring that almost made the hair on the heads of the audience stand up as they gracefully tripped across the tight wire stretched across the floor of the stage. The audience gasped with awe for fear the two might lose their balance and fall and injure themselves on the stage below. Luckily they went through their part without accident and were heartily applauded after the audience had regained their equilibrium.

The next number was McGinty Brothers, who presented their famous Sea Nymph dance. This number was clever and drew hearty laughs from the audience.

The most difficult number of the evening's entertainment was the grand opera number in full costume by Mary Gorden, of Music Hall fame, Caruso and Melba. The Misses Beatrice Lally, Grace Schumberger and Grace Bamford took the respective parts. The selection may be interpreted that Jacobi, a millionaire bootblack, returned to his native country to wed Lucy Ann, but is tempted by Sophrina's gold. Jacobi remains faithful and Sophrina in revenge poisons the lovers and kills herself. The death scene was most realistic and all three actors died a peaceful and quiet death on a settee.

Trained dogs, which had been exhibited before the crowned heads of Europe, entertained the audience with their clever tricks jumping through

loops, tossing balls, etc., at the command of their trainer.

The special Essanay film, passed by the National Board of Censorship, entitled "Love Will Find a Way," was almost equal to some of the finest exhibited in the large play houses of the country. The moving picture stunt was clever, to say the least. Madam Salina Lou Saxton with her hand of chocolate drop minstrels in their colossal aggregation of the latest songs, dances and comedy hits was the closing feature of the interesting program. Their puns were sharpened to the point and in more than one instance members in the audience knew that the joke was played on them. It would be impossible to go into detail and tell of the many features that were introduced by the "Chocolate Drops," but their part of the entertainment was enjoyed by all.

The entertainment was a success financially and after all expenses were paid there remained \$65.00 to be turned over to the W. R. C. It will be long remembered in Denison as one of the best home talent entertainment ever given and the young ladies of the S. S. club are to be congratulated upon their efforts.

### DENISON BOY STARS.

Clifford Barborka at Meet in Indianapolis Yesterday Broke the Hurdle Record—Wins Many Points.

Clifford Barborka, who is a student at Simpson college, won more honors for himself at an annual home meet, held at Indianapolis yesterday. It is well known in Denison that Clifford is an exceptional athlete and while attending the local high school won many honors for himself. Since attending Simpson he has devoted considerable time to this part of college life and was a member of the varsity basketball team and gained considerable reputation as a crack player.

At the meet yesterday he broke the high hurdle record and won more points than any other contestant in the annual home meet. The old mark of :16 2/5 for the high hurdles was replaced by Clifford to :16 1-5. He also won first place in the high jump, clearing the bar at 5 feet and 8 inches. In the broad jump he won second place, as he did also in the discus throw and in the putting of the 16 pound shot.

### More Wolf Bounty Paid.

Last week Crawford county paid to residents of the county \$124.00 for wolves that had been captured in the county. Since then Frank Norman, of Goodrich township, brought in eight cub wolf pelts, for which he received a warrant for \$32.00, and D. C. Rosenberger, of Boyer, received a warrant for \$24.00 for six cub wolf pelts. From the number of wolf scalps that are being turned in it would appear that there are considerable wolves in good old Crawford, but with the high bounty that is being paid it will be only a question of two or three years before these troublesome animals will become extinct.

## ATHLETIC FIELD IS NOW ASSURED

\$1,500 Already Subscribed and Will Be Easy Matter to Raise \$2,000 for the Project.

### BUSINESS MEN TAKE INTEREST

Mr. Mote, Secretary of the Commercial Club, to be Commended for His Untiring Efforts.

The proposition of a permanent athletic field for Denison is undoubtedly assured for Mr. Mote reports that \$1500 has already been subscribed and that it will be an easy matter to raise in the neighborhood of \$2,000 for the improvement. The last large donation which has been made since last week was \$100, donated by the Independent school district of Denison. Several smaller donations have been made during the past week.

Mr. Mote proposes to turn the proposition over to the Commercial club and let the business men of Denison handle the proposition from now on. The matter will be taken up at the meeting of the Commercial club on Friday evening of this week, at which time it will be decided where the athletic field will be located. Nearly everyone is in favor of the college campus and it is thought that it can be improved with the least expense and still make an ideal athletic field. Undoubtedly the proposition will be turned over to the surveyor in order that it may be ascertained just how much it will cost to grade and get the grounds in proper shape.

Mr. Mote is to be congratulated upon his public spiritedness in bringing this improvement about, and doubtless there is not a school boy in Denison who is not loud in his praises of Roy E. Mote. An athletic field is something that every town the size of Denison should have and it should be of a permanent nature.

At a meeting of the school board held on Monday Miss Pearl Wilson was elected to a position as teacher in the public schools of this place. Miss Wilson has been teaching at Pearson, Iowa, for some time and we understand had made application for a position in the schools at Alnsworth, Neb., near which place her parents reside. Miss Wilson will undoubtedly accept the position offered her by the local board and a contract has already been sent to her. She is a graduate of the Denison high school and later attended Morningside college at Sioux City. She is well qualified for the position here in Denison and her many friends here will be pleased to learn that she is to return.

Mrs. Mabel Heston-Lucas, of Omaha, is a pleasant visitor in Denison with her grandmother, Mrs. George Heston.

### MABEL CAROLINE PODEY

Daughter of Mr. and Mrs. Fred Poday, of Milford Township, Passes Away on Tuesday Evening

Mabel Caroline Poday, daughter of Mr. and Mrs. Fred Poday, of Milford township, died last night at 9 o'clock at the family residence. The death of this little girl came as a great shock to the immediate family and relatives, for up until four days ago she was in apparently good health. The first intimation of her sickness came on last Friday when she complained of feeling ill and each day she grew rapidly worse. Physicians were called and pronounced her illness to be yellow jaundice and it was soon evident that it would be a hard battle to save her life.

The little body was not strong enough to withstand the ravages of this disease and she passed peacefully and quietly away last evening.

Mabel Caroline Poday was born the 18th day of August, 1900, in Milford township, and was one of eight children, six of whom live to mourn her death. During her short life she was a constant joy to her parents and loved ones. She attended school in Milford township and was loved by all her schoolmates for her gentle and kind disposition and loving ways.

The death of little Mabel was a great shock to her parents, inasmuch as they had expected to leave for an extended visit in Germany next Monday.

Besides her parents she leaves to mourn her death one sister, Mrs. Robert Abbott, residing near Vail, and five brothers, Frank, Arthur, Leonard, Charles and William.

Funeral services will be held tomorrow forenoon, Rev. Frese, pastor of the German Lutheran church, officiating, after which the remains will be laid to rest in the Vail cemetery.

The Review joins with a host of friends in extending sympathy to the bereaved family.

### SCHLESWIG DOCTOR TO HARVARD

Dr. H. D. Jones to Take Post-Graduate Course at Harvard Medical College—Left on Tuesday.

Schleswig, April 28—(Special to Review)—Dr. H. D. Jones left Tuesday evening for Boston, Mass., where he will enter Harvard university to take a post-graduate course in medicine. During the past two years Dr. Jones has spent considerable time in Chicago, where he studied under the very best talent in that city. His desire to come in contact with the best that the United States affords has prompted him to go to Boston and enter Harvard university, where he will remain for some time.

## NEWS OF THE CITY CHURCHES

Methodist Ladies to Contribute to a Christmas Box for Miss Glassburner in Far Off China.

### BAPTIST CHURCH TO BE PAINTED

Baptist Women's Mission Circle Plan Cover Dish Social—Topics of Sunday Sermons.

Methodist Church. From next Sunday evening on, services will begin one-half hour later, Epworth League at 7 and church service at 8. Owing to the rainy night many were kept from attending the concert prepared for last Sunday evening, so next Sunday evening the concert in full will be repeated. You are cordially invited to this worship in song. The Woman's Missionary society will meet on Wednesday afternoon at 2:30, May 6th, with Mrs. W. R. Temple Mrs. Bowen will have charge of the topic for the day, "A Mystery Meeting." It has been decided to contribute again towards a Christmas box for Miss Glassburner at Hattang, China. Those wishing to send, as last year, five yard lengths of blue and white calico, please bring or send the same to this May meeting, as the box is to be shipped before long.

The Woman's Home Missionary societies of Council Bluffs district will meet in annual convention at Shenandoah May 5th and 6th. Mrs. O. M. Criswell, district president, and Mrs. M. A. Penney, district corresponding secretary, will go from Denison and represent the auxiliary here. An interesting and attractive program has been issued by Mrs. Penney, chairman of the program committee. Dr. B. S. Haywood, field secretary of Sibley Memorial hospital of Washington, D. C., will give the address of the evening at the opening session. Mrs. Anna Hobbs Woodcock of the Des Moines Deaconess Training school, and Mrs. Clara L. Dobson, head of one of our national orphanages at York, Neb., are others who will give addresses relative to our missionary work in the home land.

With Glennie Hanneman and Martha Lehtfeldt as hostesses, the Girls' Home Guards society met on Tuesday evening last at the home of the former for their regular monthly meeting, a week in advance of the regular date, in order to close up some business to be reported to the Shenandoah convention.

The King's Herald will meet at the church Tuesday, May 5th, at 4 p. m.

The Standard Bearers will meet on Monday evening, May 4th, with Erma Beutel.

Tuesday evening last the Philathea class entertained the baraccas at the Carnegie club rooms. Between forty and fifty were present and a jolly good time was enjoyed. The committee had provided ample entertainment in game, a May pole, a farce, music, etc. Very nice refreshments were a pleasing feature of the evening also. This party was a return compliment to the baracca class, who early in the winter entertained the hostesses of this evening at a similar affair.

Baptist Church. Morning services 10:30 a. m. Subject, "An Analysis of the Lord's Prayer."

Sunday school at 12 o'clock. Young People's meeting at 7 o'clock. Evening service at 8 o'clock. Subject, "The Marriage of Christ and His Bride, His Redeemed People."

Thursday evening prayer meeting at 8 o'clock.

Trust Seekers' class, led by Mrs. Williams, will meet at 7 o'clock on Thursday evening preceding the prayer meeting this week only.

Friday evening at 6:30, there will be a covered dish social at McKim hall under the auspices of the Women's Mission circle, to which all the church and congregation are cordially invited. A small collection to cover the necessary expense will be taken.

On Monday evening the church held a business meeting to consider recommendations of the advisory board. It was voted to grant our pastor a vacation of the months of July and August to go abroad. The pulpit will be occupied during his absence.

The church further decided to make extensive improvements, renovating the inside and painting the outside, etc., to cost about \$200, or thereabouts, during the pastor's absence.

The W. I. C. girls met on Saturday with Myrtle Ariens with twenty-one present. At the close of an interesting program each girl received a doll, which she will dress for a Christmas box for the mission field. The girls are delighted with the dolls and the opportunity to do something really worth while for the cause. Mrs. Ariens served an excellent supper, which was heartily enjoyed by all.

A cordial invitation is extended to the public to attend our services.—(Church Reporter)

### Presbytery Church.

What do you get out of going to church, anyway? Why take the time, when a person is tired and weary by the week's work, and the body craves rest and fixing up and going to church seems unnecessary?

Why, anyhow? Because a man has a soul as well as a body, and needs the spiritual message and touch with God which the church gives. If necessary, better to disregard the body's craving for rest, in order to satisfy the higher needs of the soul.

But the "need to rest" excuse has been exploded in countless cases as it will be in yours if you try and see. Rest is not cessation of activity, but change of effort and the decided change from business, round of social activities and the week's routine, which the church service gives you, will send you back to the work of Monday feeling more fit in every respect than if you lazed around the house all day Sunday or amused yourself that day. Why not try it?

## BUSINESS MEN ENTERTAIN.

(Continued from Page One.)

The speaker called attention to the ancient Applan way of the Romans, built before the christian era, and a concrete road recently discovered across the Andes in South America, of whose construction history gives no record, and which is supposed to be the product of the ancient Incas of Peru at the height of their civilization as examples of enduring highways. At Bellefontain, O., he said, there is a road built in 1893 that is now maintained at a quarter of a cent a yard. He spoke briefly of the achievements of the Lincoln highway and the mile posts along the road so far. He told of how he had notified State Consul W. F. Coan in advance of the selection of the Iowa division of the Transcontinental route as a part of the great memorial highway and that Mr. Coan planted the first Lincoln memorial insignia that was placed along the highway anywhere in the United States. The highway, it will be remembered, was first announced on September 14th of last year and in less than 1 per cent of its course, he said, has the original route been deviated from. Mr. Pardington estimated that 20,000 men and women are each doing their share for the great memorial to President Lincoln.

He suggested that at the entrance of the road into Denison, both at the east and the west ends of town, a huge arch or sign should be erected bearing the label, "This is Denison," miles to New York and miles to San Francisco." This sign should be illuminated at night so that travelers, either during the day or night, could easily tell just where they were and the distance either east or west. He suggested that during next year when so many machines will be traveling to the big exposition at San Francisco that citizens of Denison should step out and greet the tourists and ask them, "Where from?" "Where to?" and thus give them a word of welcome. Travelers appreciate these little courtesies and will feel more at home and gain a much better impression of the city.

He quoted figures to show that if five thousand automobiles made the trip across the country to the Panama exposition in 1915 at San Francisco—and it was confidently expected double that number would make the trip—they would spend a total of \$4,183,000 on the road, besides \$3,000,000 in California and at the exposition. Over 95 per cent of this travel he expected, will go over the Lincoln highway. He declared this tourist travel would constitute only 8 per cent of the total travel over the road, the other 92 per cent being local in character. He told of the work being done all over the nation in the improvement of the roads, through the inspiration of the Lincoln highway movement. This was done in the south and the north, as well as in the states through which the highway passes. In Ohio alone, he states \$12,500,000 worth of work is now in progress on the public roads, and by the end of this year there would be but thirty-two miles of the 223 miles of the Lincoln highway in Ohio that would not be hard surfaced with either concrete or brick.

Mr. Pardington has made arrangements for a trip over the Lincoln highway in June, in company with a representative of the Associated press, a representative of the Vitagraph Moving Picture company and an engineer, and every night at 7 o'clock a story of the day's travel will be sent broadcast over the country by the Associated press, while later on pictures of interesting scenes along this great Lincoln Memorial highway will be thrown upon screens in moving picture

houses all over the United States. He thought that every city and village should rename the streets over which the highway passes, naming them "The Lincoln Way." Of course where the route passes over two or more streets it would be impossible to do this. Mr. Pardington assured Denison people that under no conditions will the present route be changed and that Denison is on the Lincoln highway and that it is now up to the citizens of Denison and Crawford county to improve the highway across this county and get it in readiness for the concrete surface, which will be donated by the association as soon as the road is in condition. He stated that it will be necessary to fix the grades and prepare the best possible foundation for the hard surface before the Lincoln association will surface it. Baltimore, Washington, Wilmington, Fredrick and other cities near the national capital have been making strenuous efforts to secure the routing of the highway which has come to Denison without so much as a request, and he said that it was up to Denison to grasp the opportunity so freely offered and that the most should be made of it.

At the close of the address it was moved and seconded that the Commercial club, by a standing vote, accord thanks to the distinguished visitors and for their interesting talks. The party left on the 3 o'clock train for Council Bluffs, where they were royally entertained by the Commercial club of that city.

## CITY TAKES THE ELECTRIC PLANT

(Continued from Page One.)

Those who have spent their time for the last two or three years finding fault with the plant and its management will now have an opportunity to figure up how much they have helped themselves and the city by the agitation. We fear that some of these so-called friends of the city will find themselves out of employment or if not out of employment, spending their time complaining about the management which has been thrust upon the city.

We sincerely hope that everybody will now give evidence of good faith and support to those who will have the plant under control. We believe that if proper support is accorded the plant that it will be a money maker for the city, which it cannot be without good faith shown on the part of the people.
