### Mr. Wilson's Lact Blunder.

New York Evening Post: It is a pity that President Wilson should have allowed himself to be maneuvered into a false position in regard to his Memorial address, and then at the eleventh hour have reversed his decision not to speak. It will be remembered that he similarly vacillated in regard to his Gettysburg address. It would really seem as if the president were often in need of better advice than he is getting—advice that comes in such a way as to carry conviction with it. As a result of this blunder, he faced an almost hostile audience, and lays himself open to the charge of having reversed himself at the last moment for political reasons.

When the Proof Can Be So Easily Investigated.

When so many grateful citizens of Denison testify to benefit derived from Doan's Kidney Pills, can you doubt the evidence? The proof is not far away—it is almost at your door. Read what a resident of Denison says about Doan's Kidney Pills. Can you demand more convincing testimony?

H. G. Retman, 107 E. Broadway, Denison, Iowa, says: "My back was very lame and I had rheumatic twinges through my joints. I got a supply of Doan's Kidney Pills at the Lamborn Drug Co. and they gave me prompt and permanent relief. I am now better in every way. I do not hesitate one moment in giving Doan's Kidney Pills my endorsement."

Mr. Retman is only one of many Denison people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Retman had—the remedy backed by home testimony, 50c all stores. Give 'em a Wide Berth.

Whether it is steering a steamship or an automobile, some people always seem willing to turn out wide.

According to published statements, the Empress and the Storstad could see each other's lights while still a mile or two from the scene of their collision. One of them evidently blundered ahead at too high speed, or failed to change his course sufficiently.

You can see the same human trait on the streets. Many drivers are never willing to give the other fellow an inch more than half of the road. It is not so much that it would cost time and trouble to turn out, as that they feel if they take ample precaution it will look foolish and over-cautious.

Perhaps this spirit was to blame for the collision in the St. Lawrence river. Any one used to sea travel gets the impression that narrow escapes from collision are not unusual. Many steersmen dislike to give the other ship a wide berth, not so much because of time lost, but because it might seem to reflect on their capacity for steersmanship.
