

GEORGE SEEMAN TO BE MARRIED

Will Be Wedded This Evening at Lincoln, Neb., Miss Neta Dunn, Being the Bride.

BRIDE LADY OF ATTAINMENTS

Daughter of Prominent Banker at Lincoln, and Graduate of St. Mary's College at Galesburg, Ill.

The wedding of George Seeman, son of Mr. and Mrs. Lute Seemann, to Miss Neta Dunn, daughter of a prominent banker and capitalist of Lincoln, Neb., will take place at Lincoln this evening. The wedding will be held in the First Presbyterian church and a large number of relatives and friends will be present. It was impossible for us to procure the facts in regard to this important wedding before going to press, but mention will be made of it in next week's issue.

George Seeman is too well known to Denison people to need an introduction at this time. He was born and reared in this city and attended the public schools here, later graduating. He attended the Chicago university and later went to Lincoln to attend school at the State university, from which he graduated last year. It was while at school at Lincoln that he became acquainted with Miss Dunn. Several months ago he was appointed receiver of a large banking house at Superior, Neb., and has been conducting the business of the institution in a very satisfactory manner.

Miss Neta Dunn is a young lady of many attainments and prominent in society circles of the capitol city. She received her education in the public schools of Lincoln and later attended St. Mary's college at Galesburg, Ill.

The young couple will go to Lake Okoboji for their honeymoon, where they will spend a week or two at the W. A. McHenry cottage, after which they will come to Denison for a visit with their parents. They will make their home for the present at Superior, Neb., where a pretty home has already been prepared for them.

Many Denison people will be in attendance at the wedding in Lincoln this evening. Mrs. Lute Seemann and Miss Abbie McHenry left last Friday to be in attendance at a number of social functions given in honor of the young couple. Mr. Seeman and son, Charles, and Mrs. Sears McHenry and daughters, Mary and Abbianna, left Monday. Mr. W. A. McHenry, Mr. and Mrs. George McHenry and son and Mr. Sears McHenry and son, William, left Tuesday afternoon.

Ewell-Craft Wedding.

Wedding bells rang merrily on Saturday evening, when Miss Minnie Craft and Mr. Robert Ewell were united in marriage at the home of Mr. and Mrs. Craft. The ceremony was performed by Rev. E. P. Williams, of the Baptist church.

Promptly at 6 o'clock Miss May Hayes played the wedding march and the bride couple took their places for the ceremony. The bride was beautifully attired in white voile and shadow lace and the bridesmaid, Miss Anna Jacobson, wore blue with shadow lace trimmings. Mr. George Selander attended the groom. A delicious two course lunch was served by Mrs. Silletto, assisted by the Misses Susie Craft, Alice Swanson, Alice Riddle and Verona Bagge. About thirty-five relatives and friends were in attendance. Beautiful gifts were numerous and will add much to the cozy home already prepared for the happy couple.

The following friends and relatives from out of town were present: Mr. and Mrs. John Bagge and family, of Garner; Mrs. Ira Underhill, of Omaha; Mrs. Hall, of Adair, and Mrs. Hughes, of near Sioux City.

LECTURE POORLY ATTENDED.

Hog Cholera Lecture by Dr. K. W. Stouder Thursday Evening Dr. W. Only Small Audience.

The lecture by Prof. K. W. Stouder, of the Extension department of the Iowa State Agricultural college, which was given Thursday evening at the old Germania opera house, failed to draw as large a crowd as was expected, but those in attendance pronounced the lecture to have been one of the best they had ever heard on this important subject.

No doubt the lecture would have been better attended had it not been for the fact that farmers are busy in the fields and were unable to come to Denison. Possibly the fact that at the present time there is little or no cholera among the herds in the county had something to do with the small attendance.

Dr. Stouder had his subject well in hand and for several years has made a study of hog cholera and the best method possible to stamp out the dreaded disease which has caused millions of dollars in loss to farmers in the state of Iowa. He dwelt for some length on the care of the animals and how the hog pens and lots should be cared for in order to keep away the disease. The expense of this lecture is borne by the state of Iowa, and he is sent into nearly every county in the state in order that farmers may learn how to deal with the cholera when their herds become infected.

It is to be regretted that only ten farmers attended the lecture here.

The following licenses have been issued from the county clerk's office since the last issue of the Review: June 4th—Walter Crouch Buron, Alma Danielson; Joe Stimac, Katie Sackalich; John F. Bendixen, Emma McErnst.

June 5th: Robert R. Ewell, Minnie A. Craft.

June 8th: Joseph A. Anderson, Delphine M. Leonard; Ronald O. Van Fleet, Vera N. Johnson.

June 9th: Rev. Daniel Reagan, Mary Ann Howarth.

IN MEMORY OF DEPARTED.

Memorial Exercises Held by Fraternal Orders in Honor of Departed Members Sunday—Large Attendance

On Sunday the different fraternal organizations held memorial services at Oakland cemetery south of Denison in honor of the departed members and a large number of people took part in the services.

The members of the Knights of Pythias, Odd Fellows, Rebekahs, Imperial Order of the Red Men, Woodmen of the World, Woodmen Circle, Modern Woodmen of America all met at their respective lodge rooms early in the afternoon and at 2:30 the procession was formed on Broadway for the march to the cemetery. Upon arriving at Oakland cemetery, the different lodges individually decorated the graves of the departed members and the different orders gave their ritualistic services.

After the decoration of the individual graves those present gathered at a central part of the cemetery where an appropriate program was carried out. Miss Martha Hugg gave a reading and music was rendered. The address of the day was delivered by Mr. Carl F. Kuehnle who spoke on Fraternal Orders and the Brotherhood of man. His address was full of good points and was most appropriate for the occasion.

The memorial services by the fraternal orders of Denison have become an annual event and one which should be carried out for years to come.

JUDGED INSANE.

John Jensen, of Near Deloit, Brought Before Insane Commissioners Last Thursday. Taken to Clarinda.

John Jensen, prominent farmer residing near Deloit, was brought into Denison last Thursday for a hearing before the county insane commission and after a thorough examination he was judged to be of unsound mind. On Friday he was taken to the state hospital for the insane at Clarinda for treatment.

The case of Mr. Jensen is a particularly sad one and has caused considerable feeling among his relatives and numerous friends near Deloit. He has been in poor health for the past few months, but it was not until recently that he became so violent that it was deemed advisable to send him away for treatment. It is thought that after a short stay at the state hospital that his condition may become improved and that he will be able to return to his home.

KINDERFEST CELEBRATION.

Annual Kinderfest, Held Under Auspices of German Brotherhood, Being Held This Afternoon

The annual kinderfest, given under the auspices of the German Brotherhood, is being held today at the Bruderschaft park in North Denison, and between two and three hundred children are enjoying the event. The afternoon will be spent in playing games and entertaining the children, and the day's events will be closed with a big ball in the Bruderschaft hall this evening.

The kinderfest is a children's day celebration which draws a large number of Germans together from every part of Crawford county once each year. A fine program of music and sports has been arranged for today's celebration by the committee in charge and a number of prizes will be awarded to children winning in the different events.

G. A. R. Encampment.

The 40th annual encampment of the Iowa G. A. R. will be held in Burlington, June 16th, 17th, 18th. At the same time the Woman's Relief Corps and the Ladies of the G. A. R. will gather in the same city. Every preparation for their entertainment has been made. A particularly attractive feature will be the river excursions. The program is out. The parade is set for the afternoon of Wednesday, the 17th. Governor Clarke and staff, Hon. Washington Gardner, of Albion, Mich., the grand commander of the National G. A. R., Mrs. Ida S. McBride, of Indianapolis, Ind., national president of the W. R. C., are among the notables who will be present. The 25th and the 45th Iowa will hold regimental reunions on this occasion. Comrade H. A. Field, of Grinnell, Iowa, of the 45th, requests all survivors who cannot attend the reunion to write him. This encampment (there will not be many more) is worthy a visit by all who can come.

ENJOY YOUR SUMMER OUTING

In the Great North Woods and Beautiful Lake Country of Wisconsin, Minnesota and Northern Michigan.

There are hundreds of delightful outing places located on the direct lines of the Chicago and North Western Ry., any one of which is ideal for summer vacation outings.

A week or two in this lake-dotted, balsam-laden region—fishing, sailing and tramping—will provide the rest and relaxation every one must have at least once a year.

The Great North Woods, where the air is keen and tingles with the scent of the pine and where a thousand sparkling lakes and swiftly flowing streams teeming with game fish, can be reached comfortably on the Chicago and North Western Ry.

For full particulars as to specific fares from your home station, train service, etc., call on Ticket Agents, 23-24

Workhorse parades are being held in many places. Some people brate the occasion by having Dobbin pull several tons up steep hills in a single load.

Carranza, Huerta and the mediators have not been able to confer yet, as they can't agree what style of shirt collar should be worn to the conference.

STRENUOUS TIMES FOR EMPLOYEES

Postoffice Help Over the Country Being Worked to Capacity—Must Weigh Every Package.

DENISON OFFICE FILES REPORT: Count of Packages From April 1st to 15th Showed 588 Packages Originated Here, 1506 Received.

These are strenuous times for the post office employees of the country. Not only has the great increase of business come upon them from the parcel post system, but the government has been insistent on full particulars as to the weight of the package, distance carried and postage received. As far as the mass of the offices are concerned there has been no extra pay or additional help.

With April first there was a count asked as to every package which was sent out of the Denison office; its weight, distance carried and postage collected, and this must be shown on a sheet larger than the size of a newspaper. This count was for two weeks and also included the number of packages received to be distributed to persons here. These latter figures must also show how many were delivered by rural carriers, city carriers, through the general delivery and by special messenger with horse and wagon.

The above mentioned report was just made out and forwarded to the postmaster and his assistants about to give a sign of relief when a special committee of congress, with Senator Bristow as chairman, sent out circulars asking for a still more sweeping and complicated count to be made for six weeks. Some postmasters wrote to the head officials at Washington, asking if there was to be any additional allowance for clerk hire in the making up of the Bristow report. A reply came that while congress was to be assisted in every way to study the parcel post problem, that no additional clerk hire could be allowed and the making of the report was not compulsory if it could not be done with the help now on the rolls. Some postmasters thereupon decided not to make the report to the congressional committee. Postmaster Wright and his boys, however, promptly buckled down to the work and made a careful accounting for the full six weeks. As many may be curious to know the results we have gained the following as to the parcel post system at the Denison office:

The count from April 1st to 15th showed that 588 packages originated here and 1506 came in to be delivered. The postage collected on packages going out was \$36.83. Of the over 1500 one-third were delivered on the backs of the three city carriers and nearly as many by the rural carriers. The Senator Bristow count showed that in the six weeks, 3,380 packages came to the office for delivery and 1,720 went out. This was an average of 850 a week and 141 per day. The total number of packages handled was 5,100. Of those arriving, the most came from the second zone, which includes Omaha, Council Bluffs, Sioux City, Des Moines, Fort Dodge and territory within 150 miles from here. The next largest zone proved the fourth, which includes Chicago, St. Louis, Cleveland, all of Michigan and Denver. The patrons of the parcel post are not alone the merchants and townpeople, but the merchants receive a very large number of packages. The third largest zone was the sixth, which has in it New York, Philadelphia and all New England states. The rural carriers are still struggling with a count which has been going on for nearly two months. They have this to cheer them, however, with July 1st they will receive a full one hundred dollars a month for their work.

The six weeks' count was made by Postmaster Alfred Wright, assisted by Mr. Chas. K. Meyers, and was a most difficult task for both.

ESTABLISH NEW OIL STATION: Missouri Valley Oil Company, of Omaha, to Open Distributing Station at Denison Soon

A representative of the Missouri Valley Oil company, with headquarters at Omaha, spent several days in Denison last week investigating conditions here with a view of making this place a distributing point for the products of his company. While in the city he made application for a plot of ground belonging to the Illinois Central Railway company and located on their right of way near their depot in West Denison. We understand that the company will install a distributing station here within the next month or two and will have a number of large storage tanks so that they will in every way be able to compete with the Standard Oil company, which has served this locality for so many years.

Just what effect this competition to the Standard Oil company will have upon the retail price of gasoline and oil in Denison is a matter of speculation on the part of the merchants and garage owners. In some places where outside concerns have gotten into competition with the Standard Oil company the price of gasol and oils has dropped considerably. Auto owners believe that within a few weeks they will be able to buy gasoline for their cars at a more reasonable price, and welcome the coming of this new oil company.

We were surprised to hear that the city officials have put the city in the carnival business, by entering into an arrangement with the company that is spending the week here, on a percentage basis. A good deal of complaint is lodged against the city administration for this movement. It is a mighty poor business for the city to be engaged in, even when a flat rate had been demanded and paid the city.

ACCIDENT AT DENISON GARAGE.

Flaw in One of the Castings of New Elevator Breaks—Heavy Weights Crash Through to Basement.

It was almost a miracle that no one was injured at the Denison Auto company's garage last Friday afternoon, when one of the castings in the elevator broke, allowing the weights, weighing 2600 pounds, to fall from the top of the two story building to the basement, which is occupied by the Denison Bottling works. When the casting broke the weights were elevated to the top of the two story building and crashed through the heavy floor of the garage and landed on a pile of soda water cases in the basement.

Workmen have been engaged for the past two weeks in installing a large elevator in this building for use in lifting machines from the main garage. The elevator was all in place and those who had the work in charge believed that everything was in working order. As a test the weights used were lifted to the top of the elevator and it was while they were in their highest position that the casting broke allowing the 2600 pounds to fall. The garage floor did not prove strong enough to keep them from going clear through to the basement and the large timbers bracing the floor were sheered off as neatly as if they had been sawed.

Fortunately no one happened to be standing under the elevator or certainly there would have been a serious accident. Mr. Mitchell, who was at work in the bottling works, said that only a few minutes before he had reported directly beneath the place where the weights came through the floor and had he not been called to another part of the building he undoubtedly would have been killed.

The greatest damage done was in the basement of the bottling works, where fifteen cases of orangeade were smashed to smithereens.

There was a liberal representation of the membership of the Baptist church at the association meeting held at Lake City last week. Among these were the able pastor and his wife, Mrs. Frances Barber, Mrs. Chas. K. Meyers, Mrs. Dunbar, Miss Hazel Shirk and others. Those returning report a most interesting meeting; that Denison will entertain next year, Rev. Williams made vice-president and Mrs. Meyers re-elected for secretary for the coming year.

Mrs. Chas. K. Meyers, Miss Eunice and Paul, have been at Des Moines this week witnessing the graduating exercises at Drake university, of which Miss Meyers is a graduate in the kindergarten department. Dr. Medbury, who speaks at the M. E. church Thursday evening, is considered the ablest preacher in Des Moines and his address will be worth hearing.

Vernon Berk returned the first of the week from Lincoln, Neb., where he has been attending the State university.

BOOSTING FIRE-MEN'S MEET

Manning Boosters Visit Denison and Advertise Coming Tournament With Band and Printed Matter

DENISON BOYS ARE PREPARING

Department Expects to Send Good Running Team and Capture Some of Prize Money.

If the Inter-State Firemen's Tournament is not well advertised in all of the surrounding territory adjacent to Manning, it is not the fault of the business men of that thriving little city. Wednesday evening fifteen auto loads of enthusiastic boosters visited Denison and advertised the fact that the tournament would be held there on July 3rd and 4th and a cordial invitation was extended to all to go to Manning and be their guests on those days.

A brass band accompanied the boosters to Denison and furnished some excellent music on the streets in the evening which attracted a large crowd and gave the visitors an opportunity of distributing their advertising matter.

Notwithstanding the fact that they had traveled more than 100 miles before their arrival in Denison at 7:00 o'clock, they were the jolliest bunch of boosters that have visited here in many months although fatigued and covered from head to foot with dust and grease, they wore a pleasant smile and had a hearty hand shake for one and all. Earlier in the day they visited at Audubon, Bayard, Coon Rapids, Templeton, Hallbur, Carroll Arcadia, West Side, and Vail.

The day's trip was marred with only one accident, which happened early in the morning when Nick Rostermundt's automobile went over a 3 foot embankment while descending a hill near Audubon and the car turned completely over. It was indeed remarkable that the five occupants escaped with their lives. Mr. Rostermundt sustained the most serious injury of any of the party, having one of his arms broken and several ribs badly fractured. His son had one of his legs badly injured but the other members of the party escaped with only a few scratches and bruises. Fortunately for all concerned, there was a doctor along with the boosters and first aid to the injured was administered at the scene of the accident. The car was not badly damaged and after a few minor adjustments, it was driven home under its own power.

Denison will be well represented at the Inter-State Tournament to be held at Manning and it is thought that there is a possibility of the local team taking some of the money. The weather the past two weeks has been anything but favorable for the practice on the track on north Main St. There has been rain every few nights

and when it has not rained, the track has been too wet for practice work. The boys are turning out for practice in good shape and by the time of the tournament should be in excellent condition for the different events in which they will participate.

Phonographs as "Centrals." The Berlin telephone department is making tests with phonographs in order to notify subscribers that the line is not free, so as to relieve the operators of this duty. The results are said to be very good.

Among those "also present" is the June bridegroom.

FOR DAY OLD CHICKS Send to Denison Normal and Business College. A few Barred Rock Cockerels. W. C. VanNess, Denison, Iowa.

MENAGH'S STORE

REDFERN CORSET DEMONSTRATION

Monday June 15

Tuesday June 16

Wednesday June 17

Special Fittings by An Expert Corsetier Retained Especially for This Event.

We assume the perfection of Redfern Corsets to be well known to all women. However, to make assurance doubly sure we have arranged a demonstration at which you will be further instructed in the superior points of this celebrated corset. This demonstration will occur June 15, 16 and 17.

You will have an opportunity then to see the various models adjusted by an expert corsetier. You will be told why the Redfern is the best, most comfortable and stylish corset produced at a reasonable cost.

Intending buyers of corsets, and those who desire advice because their present corsets are not satisfactory, can have their problems solved by attending this demonstration.

To meet the demands that will be made on us because of this demonstration we have bought heavily of the various Redfern models. These will be fitted without additional cost. This is a rare opportunity to select a corset of recognized excellence and have it adjusted to glove-fitting perfection by an expert.
